

VCK JS8303

VCK Cold Press Juicer JS8303 Instruction Manual

Model: JS8303

1. IMPORTANT SAFEGUARDS

Please read all instructions carefully before using the VCK Cold Press Juicer. Keep this manual for future reference.

General Safety

- Always unplug the juicer from the power outlet before assembly, disassembly, or cleaning.
- Do not immerse the motor base in water or other liquids.
- Ensure all parts are correctly assembled before operation.
- Keep hands and utensils away from moving parts during operation. Use the food pusher provided.
- Do not operate the juicer if the power cord or plug is damaged.
- This appliance is for household use only.

Intelligent Motor Protection System

The juicer is equipped with an intelligent motor protection system to prevent overheating and extend appliance lifespan.

- **Automatic Thermal Cutoff:** The juicer will automatically stop operation after approximately 15 minutes of continuous use.
- **Cool-down Period:** If the juicer stops due to overheating, allow it to cool down for at least 40 minutes before restarting.
- **Built-in Safety Logic:** This system prevents damage to motor components and meets international electrical safety standards.

Innovative Safety Lock Mechanism

The innovative safety lock automatically stops the cold press juicer when the cover is opened or not properly secured, ensuring complete safety during use. This feature makes the juicer safer for households with children and the elderly.

AUTOMATED PULP SEPARATION

Natural residue-juice division
No secondary filtration needed

2. PRODUCT COMPONENTS

The VCK Cold Press Juicer consists of several removable parts designed for easy assembly and cleaning. Familiarize yourself with each component:

- Motor Base (main unit)
- Juicing Bowl
- Multi-Spiral Auger
- Fine Mesh Filter
- Hopper/Feed Chute Cover
- Food Pusher
- Juice Cup
- Pulp Container
- Cleaning Brush

UPGRADED TECHNOLOGY

Preserves **100%** Original Flavor & Nutrients

0.1mm Precision Filtration - Maximizes yield, minimizes waste

Multi-Layer Grinding System -
Gentle extraction preserves nutrients
For pure, nutrient-rich juice every time

3. ASSEMBLY INSTRUCTIONS

Follow these steps to correctly assemble your VCK Cold Press Juicer before use:

1. Place the juicing bowl onto the motor base, ensuring it is securely seated.
2. Insert the multi-spiral auger into the center of the juicing bowl.
3. Place the fine mesh filter over the auger, aligning it properly.
4. Attach the hopper/feed chute cover. Align the cover with the mark on the juicing bowl, gently press down, and then rotate it to the left until it locks into the closed position. You should hear a click.
5. Position the juice cup under the juice outlet and the pulp container under the pulp outlet.

4. OPERATING INSTRUCTIONS

Preparation of Ingredients

- Wash all fruits and vegetables thoroughly.
- The VCK juicer features an extra-large 5.12" wide feed chute, allowing you to juice whole fruits like apples and

oranges, and large chunks of vegetables without extensive pre-cutting.

- Remove hard pits from fruits (e.g., peaches, plums) and large seeds.
- For fibrous vegetables like celery, cut them into smaller pieces to prevent clogging.

Juicing Process

1. Ensure the juicer is properly assembled and plugged into a power outlet.
2. Place the prepared ingredients into the feed chute.
3. Press the power button to start the juicer. The ultra-slow 55 RPM masticating technology will begin to extract juice.
4. Use the food pusher to gently guide ingredients into the auger if needed. Do not force ingredients.
5. The dual-strainer anti-clog system and 0.1mm fine mesh filters ensure maximum liquid extraction and minimal pulp residue.
6. Once juicing is complete, press the power button to turn off the juicer.

EASY-TO-USE JUICE SYSTEM

5. DISASSEMBLY AND CLEANING

Regular cleaning ensures optimal performance and longevity of your juicer. The VCK juicer is designed for easy cleaning.

Disassembly

1. Ensure the juicer is turned off and unplugged.
2. Rotate the hopper/feed chute cover to the unlock position and lift it off.
3. Remove the fine mesh filter and then the multi-spiral auger.
4. Lift the juicing bowl from the motor base.
5. Empty the juice cup and pulp container.

Cleaning

- Rinse all removable parts (juicing bowl, auger, filter, cover, juice cup, pulp container) under running water immediately after use to prevent pulp from drying.
- Use the included cleaning brush to remove any stubborn pulp from the fine mesh filter.
- Most removable parts are dishwasher safe. Place them on the top rack of your dishwasher.
- Wipe the motor base with a damp cloth. Never immerse the motor base in water.
- Ensure all parts are completely dry before reassembling or storing.

EASY-CLEAN DESIGN

6. TROUBLESHOOTING

If you encounter issues with your VCK Cold Press Juicer, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Juicer does not turn on.	Not plugged in; parts not assembled correctly; safety lock not engaged.	Ensure power cord is securely plugged in. Check that all parts are correctly assembled and the cover is locked.
Motor stops during operation.	Overheating protection activated; ingredients are too hard or too much.	Unplug and allow the motor to cool for 40 minutes. Cut hard ingredients into smaller pieces. Do not overload the feed chute.
Low juice yield or excessive pulp.	Filter clogged; ingredients not properly prepared.	Disassemble and clean the filter thoroughly. Ensure fibrous ingredients are cut appropriately.
Loud noise or vibration.	Parts not assembled correctly; foreign object inside.	Disassemble and reassemble all parts, ensuring they are securely fitted. Check for any foreign objects.
