3. SETUP AND INSTALLATION

Follow these steps to install the car mount charger in your vehicle:

1. Identify a suitable air vent in your car. Ensure the vent type is compatible with the hook mechanism.
2. Mount the charger onto the vent blade. Adjust the hook length to fit securely.
3. Rotate the locking buckle until the connection is tight and stable.
4. Connect the USB-C cable to the charger and the included 45W car adapter.
5. Insert the car adapter into your vehicle's 12V power outlet.

4. OPERATING INSTRUCTIONS

4.1 Wireless Charging

Once the charger is installed and powered, place your compatible iPhone onto the magnetic charging surface. The device will automatically begin wireless charging. For optimal 25W fast charging, use the included 45W car charger.

25W Ultra-Fast charging

Use the in-car charger for 25 minutes to reach 45%.

Acer:25W

Other:15W

Other:7.5W

Image 4.1: Comparison of 25W ultra-fast charging with lower wattage chargers.

4.2 Cooling Fan Operation

The built-in cooling fan activates automatically during charging to dissipate heat and maintain efficient charging performance. The fan operates with low noise. Pressing the fan key on the charger will turn off the cooler, and the fan has a 20-second auto-off delay.

Efficient charging while reducing temperature

The charger features an integrated backlight. During charging or when fully charged, it displays an ice blue color. You can change the backlight mode by pressing the backlight button on the side of the charger. Available modes include:

- Note: Steady light modes (2-5) do not cycle; the color remains fixed.*

5. KEY FEATURES

5.1 Strong Magnetic Attraction

The charger incorporates a ring-shaped magnet to provide a secure hold for your phone, even on uneven roads or during sudden stops. It is designed to hold phones firmly, including those with MagSafe-compatible cases.

5.2 360° Adjustable Positioning

A 360° rotating ball joint allows for seamless adjustment of your phone's viewing angle. This enables switching between landscape and portrait modes for navigation, video calls, or media playback, enhancing convenience and safety.

Image 5.1: The 360-degree rotatable sphere allows for flexible angle adjustments.

6. COMPATIBILITY

This charger is compatible with the following iPhone series:

- iPhone 17 Pro Max/Air series
- iPhone 16 series
- iPhone 15 series
- iPhone 14 series
- iPhone 13 series
- iPhone 12 series

Maximum charging speeds vary by phone model:

- **25W Peak:** iPhone 17 Series and iPhone 16 Plus/16 Pro Max (with included 45W adapter)
- **22.5W Peak:** iPhone 16/16 Pro
- **15W:** iPhone 15/14/13/12 Series

For phone cases, use a MagSafe-compatible case or no case. Non-MagSafe cases thicker than 2mm may affect magnetic attraction and charging efficiency.

Only Work for iPhone 17/16/15/14/13/12 series

Max Wireless Charging Speed with MagSafe:

- **25W Peak:** iPhone 17 Series and iPhone 16 Plus/16 Pro Max (with our included 45W+ adapter)
- **22.5W Peak:** iPhone 16/16 Pro
- **15W:** iPhone 15/14/13/12 Series

Compatible Phone Case

7. TROUBLESHOOTING

Q: Charging speed is slow?

A: To achieve 25W fast charging, use the included 45W car charger. Other chargers must be 45W or higher for comparable performance. Ensure the cooling fan is active, as phone charging may slow if the device is overheating.

Q: Why does charging keep disconnecting?

A: Ensure the 45W car charger is firmly plugged in; re-insert if loose. The phone case should be 2mm thick or less and contain no metal; consider charging without the case. The car's Start/Stop system may briefly pause charging.

Q: Magnet feels weak?

A: Test without a case. If the magnet is weak, use a MagSafe case or a MagSafe-compatible ring.

Q: Is the 25W charging power applicable to all phones?

A: No. Maximum charging speeds vary by phone model as detailed in the Compatibility section.

Q: Is the product too large or heavy for my car vent?

A: The product dimensions are: Width: 2.72 inches, Installed length: 4.13 inches, Weight: 4.3 ounces. Please verify these dimensions against your car's vent space.

Q: Cooling fan not running?

A: The cooling fan operates only while charging. Pressing the fan key turns off the cooler, and the fan has a 20-second auto-off delay.

Q: Mount is shaky or loose in vent?

A: Ensure the hook is fitted firmly onto the vent blades. Adjust the hook length to match your vent. Rotate the locking buckle until the connection is tight and stable.

Q: How do I change the backlight?

A: Press the backlight button on the side of the charger. Refer to section 4.3 for available modes.

Q: Does it support CarPlay/Android Auto?

A: No, this product does not support CarPlay or Android Auto. It provides wireless charging via the included USB-C cable and car charger.
