Volkano VK-5093-GD

Volkano Aurora Series Ladies Smart Watch

Model: VK-5093-GD

Introduction

This manual provides essential information for the proper setup, operation, and maintenance of your Volkano Aurora Series Ladies Smart Watch. Please read these instructions carefully before using your device to ensure optimal performance and longevity.

Setup

1. Charging the Smart Watch

Before first use, fully charge your Volkano Aurora Smart Watch. Connect the provided charging cable to the charging port on the back of the watch and to a standard USB power adapter (not included). The watch has a 140 mAh battery and typically takes approximately 1.5 hours to fully charge.

2. App Installation and Pairing

1. **Download the Companion App:** Search for the official Volkano companion app on your smartphone's app store (Google Play Store for Android, Apple App Store for iOS).
2. **Enable Bluetooth:** Ensure Bluetooth is enabled on your smartphone.
3. **Open the App:** Launch the installed app and follow the on-screen instructions to create an account or log in.

4. **Pair the Watch:** Within the app, navigate to the device pairing section. Select your Volkano Aurora Smart Watch from the list of available devices. Confirm the pairing request on both your watch and smartphone.

The watch is compatible with Android 5.0 and iOS 9.0 or above.

Operating Instructions

Basic Navigation

The Volkano Aurora Smart Watch features full touch control. Swipe across the 1.19" AMOLED display to navigate through menus, tap to select options, and use the side button for specific functions (e.g., return to home screen, power on/off).

Key Features

- **Bluetooth Wireless Calling:** Answer calls directly from your wrist when connected to your smartphone.
- **Built-in Voice Assistant:** Access your smartphone's voice assistant for quick commands and information.
- **Real-Time Notifications:** Receive alerts for messages, calls, and app notifications directly on your watch.
- **Camera Shutter & Music Control:** Remotely control your smartphone's camera and music playback.
- **Health Tracking:** Monitor your heart rate, blood oxygen levels, steps, calories burned, and sleep patterns.
- **Multi-Sport Modes:** Track over 100 different sports activities to monitor your performance and progress.

Fitness Tracking

Utilize the 100+ sport modes to accurately track various physical activities. The watch records data such as duration, calories burned, and heart rate during workouts. Sync this data with the companion app for detailed analysis and progress tracking.

Maintenance

Cleaning

Wipe the watch screen and strap regularly with a soft, dry, lint-free cloth. For stubborn dirt, slightly dampen the cloth with water. Avoid using harsh chemicals or abrasive materials, as these can damage the watch's finish and sensors.

Water Resistance

The Volkano Aurora Smart Watch has an IP68 waterproof rating, meaning it is resistant to rain and splashes. It is designed to handle workouts and daily activities. **However, it is not suitable for swimming, showering, or prolonged submersion in water.** Exposure to hot water, steam, or high-velocity water may compromise its water resistance.

Troubleshooting

- **Watch not turning on:** Ensure the watch is fully charged. Connect it to the charger for at least 30 minutes.
- **Cannot pair with smartphone:** Make sure Bluetooth is enabled on your phone and the watch is within range. Restart both the watch and your phone, then try pairing again through the companion app.
- **Notifications not appearing:** Check app permissions on your smartphone to ensure the companion app has access to notifications. Verify that notifications are enabled within the watch's settings and the companion app.
- **Inaccurate health data:** Ensure the watch is worn snugly on your wrist, not too tight or too loose. Clean the sensor area on the back of the watch. Environmental factors and skin conditions can affect sensor accuracy.
- **Short battery life:** Reduce screen brightness, disable unnecessary features, and limit background app refresh to extend battery life.

Specifications

Model Number	VK-5093-GD
Chipset	JIELI JL7012A6
Memory (RAM+ROM+Flash)	640 KB + 2M + 128 MB
Display	1.19" AMOLED (390 x 390 resolution)
