

## RORRY D5-10000

# RORRY Mini Portable Charger D5-10000 User Manual

Brand: RORRY | Model: D5-10000

### INTRODUCTION

The RORRY Mini Portable Charger D5-10000 is a compact and versatile power bank designed to keep your devices charged on the go. With a 10,000mAh capacity and 22.5W fast charging, it offers convenient power for a wide range of devices, including iPhones, Apple Watches, and iPads. Its integrated USB-C connector and magnetic wireless charger provide a cable-free charging experience, while its portable design makes it an ideal travel companion.

### WHAT'S IN THE BOX

- 1\* RORRY Mini Portable Charger D5-10000
- 1\* User Manual
- 2\* Lanyard cables (USB-C to USB-C and USB-C to Lightning)

simultaneously charges both an iPhone 15 and an Apple Watch.

**Video: RORRY Mini Portable Charger 3 in 1** - This video showcases the 3-in-1 charging capabilities of the RORRY power bank, including its built-in connectors and wireless charging.

## SETUP

---

### 1. Initial Charging of the Power Bank

1. Before first use, fully charge your RORRY Mini Portable Charger.
2. Extend the built-in AC plug (if available on your model) or use a USB-C cable to connect the power bank to a wall adapter or computer.
3. The digital display will show the charging progress. Charge until it reaches 100%.

### 2. Understanding the Digital Display

The integrated digital display shows the remaining battery percentage of the power bank. This allows you to monitor the charge level and know when to recharge the unit.

## OPERATING INSTRUCTIONS

---

### 1. Charging Devices via Built-in USB-C Connector

1. Locate the built-in USB-C connector on the power bank.
2. Carefully plug the USB-C connector directly into your compatible device (e.g., iPhone 15/16/17 series, iPad Pro/Air, Android phones).
3. The device should begin charging automatically. The power bank supports up to 22.5W fast charging for compatible devices.

### 2. Charging Apple Watch Wirelessly

1. Place your Apple Watch (Ultra/1/2/3/4/5/6/7/8/9/10/11/SE) onto the magnetic wireless charging pad on the power bank.
2. Ensure the watch is properly aligned for optimal charging. The watch display will indicate charging status.
3. The magnetic charger provides 5W charging, fully charging an Apple Watch Series 10 in approximately 1 hour.

### 3. Using External Cables with USB-C Port

1. For devices requiring a different connection or for simultaneous charging, use the provided lanyard cables or your own USB-C cables.
2. Connect one end of the cable to the USB-C port on the power bank and the other end to your device.
3. The power bank can charge multiple devices concurrently, distributing power as needed.

## MAINTENANCE

---

- Keep the power bank away from extreme temperatures, direct sunlight, and moisture.
- Clean the device with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials.
- Store the power bank in a cool, dry place when not in use. For long-term storage, ensure it has at least a 50% charge to preserve battery health.
- Avoid dropping or subjecting the device to strong impacts.

## TROUBLESHOOTING

### 1. Device Not Charging

- Ensure the power bank is sufficiently charged (check the digital display).
- Verify that the built-in USB-C connector or external cable is securely connected to both the power bank and your device.
- For Apple Watch, ensure it is correctly placed on the magnetic charging pad.
- Try using a different cable or port to rule out a faulty connection.

### 2. Slow Charging

- Confirm your device supports 22.5W fast charging. Older devices may charge at a slower rate.
- Ensure you are using a high-quality cable that supports fast charging.
- Charging multiple devices simultaneously may reduce the charging speed for each individual device.

### 3. Digital Display Not Working

- Press the power button to activate the display.
- If the display remains off, the power bank might be completely drained. Try charging the power bank.

## SPECIFICATIONS

Product Dimensions	3.3 x 2.1 x 1.3 inches
Item Weight	3.53 ounces
Item Model Number	D5-10000
Battery Type	1 Lithium Polymer batteries required (included)
Battery Capacity	10000 Milliamp Hours
Connector Type	IN/OUT: USB Type C*2
Special Features	Fast Charging, Digital Display, Built-In USB-C Connector, Lightweight, Pocket Size, Short Circuit Protection, Airline Approved Travel Charger, Scratch Resistant
