

XKrpm 2r3

XKrpm 8-in-1 Nut Milk Maker Machine

USER MANUAL - MODEL 2R3

1. IMPORTANT SAFETY INSTRUCTIONS

Please read all instructions carefully before using the XKrpm 8-in-1 Nut Milk Maker Machine. Keep this manual for future reference.

- **Electrical Safety:** Ensure the voltage matches your power supply. Do not immerse the main unit in water or other liquids. Always unplug the appliance when not in use, before cleaning, or if a malfunction occurs.
- **Hot Surfaces:** The appliance generates heat during operation. Avoid touching hot surfaces. Use handles or knobs. Be cautious when opening the lid, as steam may escape.
- **Children and Supervision:** This appliance is not intended for use by children. Close supervision is necessary when any appliance is used near children.
- **Proper Use:** Use the appliance only for its intended purpose as described in this manual. Do not operate with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner.
- **Overfilling:** Do not exceed the maximum fill line to prevent boiling over.
- **Blade Safety:** The blending blade is sharp. Exercise extreme caution when handling, cleaning, or assembling.
- **Ventilation:** Ensure adequate ventilation around the appliance during operation. Do not block any ventilation openings.

2. PRODUCT OVERVIEW

The XKrpm 8-in-1 Nut Milk Maker Machine is a versatile kitchen appliance designed for preparing a variety of homemade beverages and foods. Its multi-functionality allows for the creation of nut milks, soy milk, oat milk, smoothies, soups, and hot cocoa, alongside water heating and an automatic self-cleaning feature.

Key Features:

- **8-in-1 Multifunction:** Nut milk, soy milk, oat milk, soup, smoothies, hot cocoa, water heating, self-cleaning.

- **Capacity:** 1200ml, suitable for single servings or 2-4 people.
- **Material:** Constructed with 304 stainless steel interior and durable polypropylene (PP) exterior.
- **Advanced Blending:** Features an upgraded 14-leaf fine steel head for smooth, residue-free results.
- **One-Touch Control:** Simple operation for various functions with smart timing.
- **Self-Cleaning Function:** Effortless cleanup.
- **Double Thermal Insulation:** For safety and efficiency.

3. SETUP

1. **Unpacking:** Carefully remove all packaging materials and inspect the appliance for any damage. Retain packaging for future transport if needed.
2. **Initial Cleaning:** Before first use, clean all parts that will come into contact with food. Refer to the 'Maintenance and Cleaning' section for detailed instructions. Wipe the exterior of the main unit with a damp cloth.
3. **Placement:** Place the nut milk maker on a stable, flat, heat-resistant surface, away from water sources and direct heat. Ensure there is sufficient space around the unit for ventilation.
4. **Power Connection:** Plug the power cord into a grounded electrical outlet.

4. OPERATING INSTRUCTIONS

The XKrmp Nut Milk Maker features intuitive one-touch controls for various functions. Always ensure the lid is securely closed before starting any operation.

General Operation Steps:

1. **Add Ingredients:** Place your desired ingredients (e.g., nuts, beans, grains, water) into the pitcher. Do not exceed the maximum fill line.
2. **Secure Lid:** Place the lid firmly onto the pitcher, ensuring it is properly seated.
3. **Select Function:** Press the desired function button on the control panel (e.g., Nut Milk, Soy Milk, Soup). The machine will typically start automatically or after a short delay.
4. **Process Completion:** The machine will automatically stop when the program is complete. A signal may sound.
5. **Serve:** Carefully pour out the prepared beverage or food. Be mindful of hot contents.

Specific Functions:

- **Nut/Soy/Oat Milk:** Add pre-soaked or dry ingredients (e.g., soybeans, almonds, oats) and water. The machine will blend and heat to produce smooth, residue-free milk. For best results with dry beans, ensure they are suitable for direct processing without soaking or filtering, as indicated by the product's capabilities.

Image 2: Demonstrates adding dry beans directly into the XKrmp Nut Milk Maker, indicating that pre-soaking or filtering may not be required for certain ingredients.

Image 3: Shows the smooth, residue-free texture of soy milk being poured from the machine, highlighting the quality of the output.

- **Smoothies/Soups:** Add fruits, vegetables, or other ingredients with liquid. Select the appropriate function for blending. For soups, the machine will also heat the ingredients.

Five-Grain Rice Paste

Light Health

Smooth texture, no choking,

Easy for elders,

Supplement five-grain nutrition.

Delicate baby food

Good absorption

Freshly made soft baby food

**Delicate ingredients, easy
to swallow in one bite.**

Protect Every Baby Meal

Image 5: Depicts the machine's use for making delicate baby food, emphasizing its ability to create smooth textures suitable for infants.

- **Hot Cocoa/Water Heating:** Use these functions for heating liquids or preparing hot beverages.
- **Pre-order/Timer Function:** The machine may feature a pre-order or timer function, allowing you to set a delayed start time for your desired program. Consult the control panel for specific timer settings.

Image 6: Illustrates the pre-order function, showing how users can set the machine to prepare soy milk overnight for a fresh breakfast.

5. MAINTENANCE AND CLEANING

Regular cleaning ensures the longevity and hygienic operation of your nut milk maker.

1. **Self-Cleaning Function:** After use, add clean water to the pitcher up to the minimum fill line. Select the 'Self-Clean' function. The machine will rinse itself automatically.
2. **Manual Cleaning:**
 - Always unplug the appliance and allow it to cool down before cleaning.
 - Carefully remove the lid and pitcher.
 - Wash the pitcher interior and lid with warm, soapy water and a non-abrasive sponge. Rinse thoroughly.
 - Exercise extreme caution when cleaning around the sharp blending blade. Use a brush if necessary to remove any residue.
 - Wipe the exterior of the main unit with a damp cloth. Do not immerse the main unit in water.
 - Ensure all parts are completely dry before reassembling or storing.

3. **Storage:** Store the appliance in a clean, dry place, away from direct sunlight and out of reach of children.

6. TROUBLESHOOTING

If you encounter any issues with your XKrmp Nut Milk Maker, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Appliance does not turn on.	Not plugged in; power outage; lid not properly secured.	Check power connection; ensure lid is securely closed; check household circuit breaker.
Milk is not smooth or has residue.	Insufficient blending time; too many ingredients; ingredients not suitable for direct processing.	Ensure correct program is selected; reduce ingredient quantity; pre-soak ingredients if necessary for specific recipes.
Overheating or strange odor.	Overfilling; prolonged continuous operation; motor strain.	Do not exceed max fill line; allow appliance to cool down between uses; reduce ingredient load. Unplug immediately if odor persists.
Self-cleaning not effective.	Insufficient water; heavy residue.	Ensure water is added to the minimum fill line; perform manual cleaning for stubborn residue.

7. SPECIFICATIONS
