5. OPERATING INSTRUCTIONS

5.1. Tattoo Stencil Printing

The Milestone M9 excels at producing crisp, detailed tattoo stencils. Follow these steps:

1. **Prepare Stencil Paper:** Take a sheet of tattoo stencil paper. Peel off the yellow backing, then carefully remove the transparent protective layer to expose the transfer sheet.
2. **Load Stencil Paper:** Insert the tattoo transfer paper (white side up) into the printer's paper slot. The printer will auto-align and feed the paper perfectly.
3. **Select Design in App:** Open the "TATTOO PRT" app. Import your desired tattoo design from your local images or material library.
4. **Adjust and Print:** Use the app's tools to edit, tile, crop, and adjust the size of your design to fit the client's skin. Select the appropriate print style (e.g., Default, Temp, Line Art, High) and tap "Print."
5. **Transfer to Skin:** Once printed, carefully cut out the stencil. Apply tattoo gel to the client's skin, then firmly press the stencil onto the prepared area for 10 seconds. Peel back to reveal a long-lasting, vivid stencil.

5.2. Document Printing

The Milestone M9 also functions as a reliable document printer for thermal paper. This is ideal for printing consent forms, aftercare sheets, or other studio documents.

1. **Load Thermal Paper:** Insert US Letter or A4 thermal paper (non-printing side up) into the printer's paper slot. The printer will automatically align and feed the paper. You can use either roll thermal paper or stacked thermal paper.
2. **Select Document in App:** In the "TATTOO PRT" app, switch to the Document printing mode. Select the document you wish to print.
3. **Print Document:** Review the print preview, adjust settings if necessary, and tap "Print." The printer will produce crisp, ink-free documents.

7. SMART APP FEATURES

The "TATTOO PRT" app is designed to streamline your printing process:

- **Design Import:** Easily import images and designs from your device's gallery.
- **Editing Tools:** Crop, rotate, and adjust the contrast and brightness of your designs for optimal stencil quality.
- **Sizing and Tiling:** Precisely adjust the size of your stencil to fit the desired area on the skin. The app can also tile larger designs for multi-sheet printing.
- **Print History:** Access a history of your printed designs for quick reprinting.
- **Paper Type Selection:** Choose between tattoo stencil paper and thermal document paper settings for optimized output.

8. MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your Milestone M9 printer:

- **Cleaning the Print Head:** Regularly clean the thermal print head with a soft, lint-free cloth lightly dampened with isopropyl alcohol. Ensure the printer is off and cooled down before cleaning.
- **Paper Handling:** Use only high-quality thermal paper and tattoo stencil paper recommended for thermal printers. Store paper in a cool, dry place away from direct sunlight.
- **Battery Care:** To prolong battery life, avoid fully discharging the printer frequently. Charge it regularly, even if not in constant use.
- **Storage:** When not in use for extended periods, store the printer in a protective case or its original packaging to prevent dust accumulation and damage.

9. TROUBLESHOOTING

If you encounter issues with your Milestone M9, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Printer not powering on	Low battery or power issue	Charge the printer fully. Ensure the power button is held for 3 seconds.
Unable to connect via Bluetooth	Bluetooth off, printer not discoverable, or app issue	Ensure Bluetooth is enabled on your device. Restart the printer and the app. Try reconnecting.
Poor print quality (faded/streaky)	Dirty print head, incorrect paper, or low battery	Clean the print head. Ensure you are using compatible thermal/stencil paper. Charge the printer.
Paper jam	Improper paper loading or damaged paper	Turn off the printer. Carefully remove any jammed paper. Reload paper correctly, ensuring it's straight.
App not responding	Software glitch or outdated app	Close and restart the app. Check for app updates in your device's app store.
