2. IMPORTANT SAFETY INSTRUCTIONS

WARNING: To reduce the risk of burns, electric shock, fire, or injury to persons, this product must be used in accordance with the following instructions:

- Do not use with infants, children, invalids, or persons insensitive to heat.
- Do not use on areas of the body that are swollen, inflamed, or have open wounds.
- Do not use with a damaged cord or plug. If the cord or plug is damaged, contact customer service.
- Do not use this product with a generator, power inverter, or converter.
- Do not use with other heating devices.
- Do not use if wet.
- Do not use pins or other metallic objects with this blanket. They may damage electrical wiring.
- Always unplug the blanket when not in use.
- This product is ETL-certified, ensuring it meets safety standards.

3. SETUP

1. Ensure the blanket is spread flat on your bed, with no folds or creases.
2. Locate the connection ports on the blanket. For King size blankets, there are two ports, one on each side.
3. Connect the controller(s) to the blanket by firmly pushing the connector into the port until it clicks securely into place.
4. Plug the power cord(s) from the controller(s) into a standard 120V AC electrical outlet.

6. TROUBLESHOOTING

- **Blanket not heating:** Ensure all connections are secure and the power cord is firmly plugged into a working outlet. Check if the controller is powered on and a heat setting is selected.
- **Uneven heating:** Ensure the blanket is spread flat and not bunched or folded, which can interfere with heat distribution.
- **Controller display not working:** Unplug the blanket from the wall outlet for a few minutes, then plug it back in. If the issue persists, contact customer support.
- **Automatic shut-off before desired time:** Verify the timer setting on the controller. The blanket has a maximum 12-hour auto shut-off for safety.
