SHA CERLIN XDRNQDDLXLK-3

SHA CERLIN King Size Velvet Bed Frame with LED Light Instruction Manual

Model: XDRNQDDLXLK-3

1. INTRODUCTION

Thank you for choosing the SHA CERLIN King Size Velvet Bed Frame with LED Light. This manual provides essential information for the safe assembly, operation, and maintenance of your new bed frame. Please read these instructions carefully before beginning assembly and retain them for future reference.

2. SAFETY INFORMATION

- Always follow assembly instructions carefully.
- Ensure all bolts and screws are securely tightened before use. Periodically check and re-tighten as necessary.
- Do not allow children to play on or around the bed frame during assembly.
- Be careful around moving parts during assembly to avoid injury.
- Do not exceed the maximum weight capacity of 800 lbs.
- Keep electrical components (LED lights, remote) away from water and moisture.

3. PACKAGE CONTENTS

Before assembly, verify that all components are present and undamaged. If any parts are missing or damaged, please contact customer support.

- Headboard with integrated LED light strip
- Side Rails (Left and Right)
- Footboard
- Center Support Beam
- Wooden Slats with Velcro Rib Strips
- Support Legs
- Hardware Pack (screws, bolts, Allen wrench)
- LED Remote Control
- Instruction Manual

4. SETUP AND ASSEMBLY

Assembly is designed to be straightforward with clearly labeled parts. It is recommended to have two people for assembly. Please refer to the detailed assembly instructions included in your package for step-by-step guidance.

4.1 Key Assembly Features

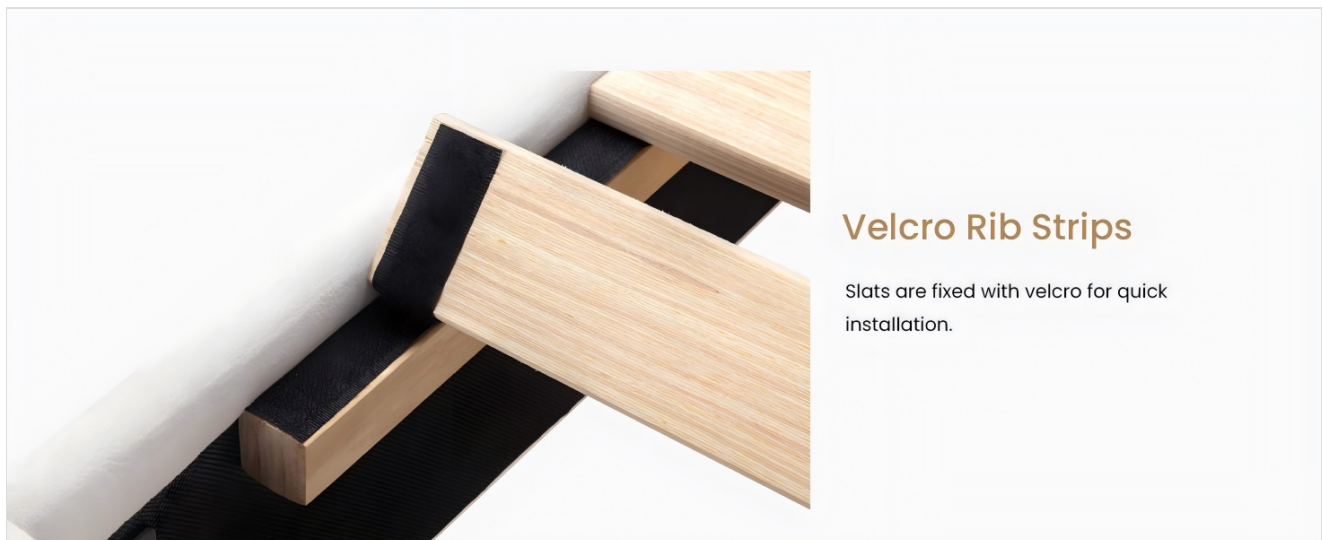

Image 4.1: Slats are secured with Velcro rib strips for quick and easy installation.

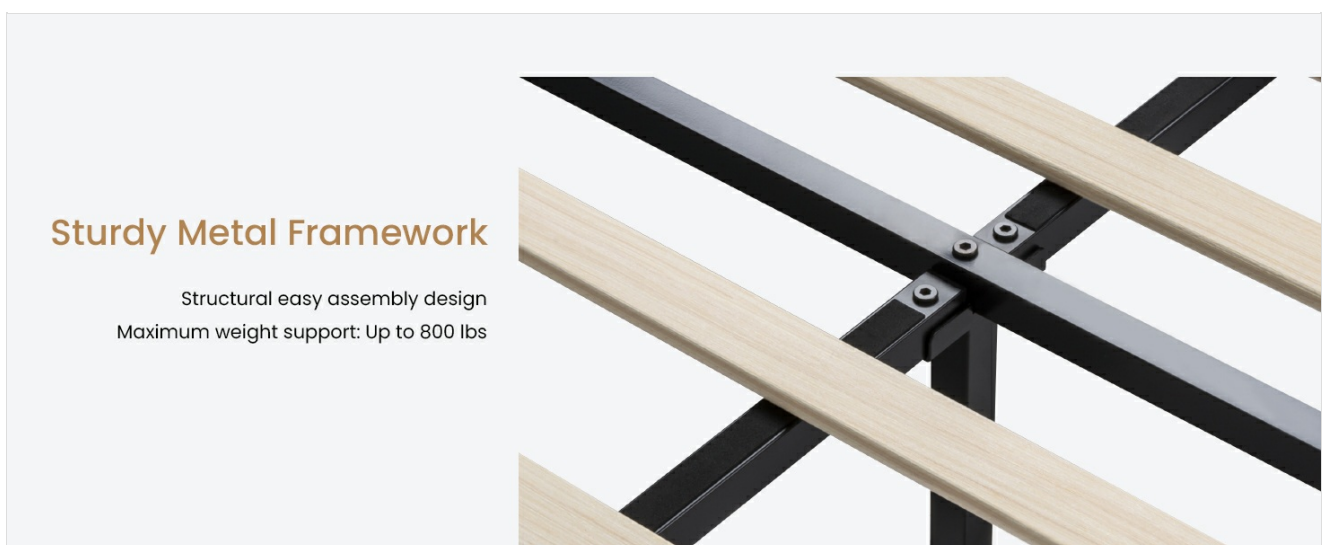

Image 4.2: The bed frame features a sturdy metal framework for enhanced stability and durability.

The bed frame utilizes a combination of metal structure and wooden slats for strong support. The slats are designed with

easy-to-stick Velcro strips for quick installation and silent cotton strips to reduce friction and prevent noise.

5. OPERATING INSTRUCTIONS (LED LIGHT)

The headboard features a built-in RGB LED light strip with multiple color options and modes, controllable via the included remote control.

5.1 LED Light Features

- **Color Options:** Seven primary colors with 60,000 customizable color options.
- **Control Methods:** Remote control (included) and potentially a mobile application (refer to specific instructions for app compatibility and download).
- **Modes:** Includes Smart Timer, Music Mode, DIY Color Control Mode, Mic Mode, and Creative Scenery Mode.

Image 5.1: Overview of Smart RGB LED features and control options.

Built-in Light Strip

Experience a new level of ambiance with the LED lights integrated into the headboard.

Image 5.2: Detail of the integrated LED light strip within the headboard.

5.2 Using the Remote Control

1. Ensure the LED light strip is properly connected to a power source.
2. Point the remote control towards the LED receiver on the bed frame.
3. Use the color buttons to select a static color.
4. Use the mode buttons to cycle through various dynamic lighting effects.
5. Adjust brightness and speed using the designated buttons.

6. MAINTENANCE

Proper care will extend the life and appearance of your bed frame.

6.1 General Care

- Regularly dust the headboard and frame with a soft, dry cloth.
- For velvet upholstery, use a soft brush or vacuum cleaner with an upholstery attachment to remove dust and debris.
- Avoid direct sunlight exposure to prevent fading of the velvet fabric.
- Periodically check and re-tighten all hardware connections to maintain stability.

6.2 Cleaning Spills

- Blot spills immediately with a clean, dry cloth. Do not rub.
- For stubborn stains on velvet, consult a professional upholstery cleaner or use a mild fabric cleaner designed for velvet, testing on an inconspicuous area first.

EVA Mute Foam

The sound-absorbing foam makes sure you have a good sleeping night and relaxing time.

Image 6.1: EVA mute foam is integrated into the design to ensure a noise-free experience.

7. TROUBLESHOOTING

This section addresses common issues you might encounter.

Problem	Possible Cause	Solution
LED lights not turning on.	Power cable disconnected; Remote battery dead; LED strip faulty.	Check power connections; Replace remote battery; Contact customer support if faulty.
Bed frame is squeaking.	Loose hardware; Slats not properly seated; Mattress movement.	Re-tighten all bolts and screws; Ensure slats are correctly positioned and Velcro is secure; Check mattress for movement.
Headboard feels unstable.	Headboard attachment bolts loose.	Ensure all headboard attachment bolts are securely tightened.

8. SPECIFICATIONS
