## 6. MAINTENANCE

- Clean the clock with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- Keep the clock away from direct sunlight, high temperatures, and humid environments.
- Avoid dropping the clock or subjecting it to strong impacts.
- Ensure the non-slip rubber sticker at the bottom is clean and intact for stability.

### Non-slip Design

Please tear off the plastic covering the bottom rubber sticker before use, then you can keep the clock in one place and protect the tabletop.

## 7. TROUBLESHOOTING

Problem	Solution
Clock display is blank	Ensure the USB cable is securely connected and the power adapter is plugged into a working outlet. Check if the display brightness is set to OFF.
Alarm does not sound	Verify the alarm is set and activated (bell icon visible). Check alarm volume settings.
Time/settings lost after power outage	Ensure the insulating paper has been removed from the backup battery compartment. The battery retains settings but does not power the display or alarm during an outage.
Display too bright/dim	Adjust brightness using the Snooze/Light button. Check Night Mode settings if applicable.
