# HOROW G07 Smart Wall-Mounted Rimless Toilet User Manual

Model: G07

## 1. INTRODUCTION

Thank you for choosing the HOROW G07 Smart Wall-Mounted Rimless Toilet. This manual provides essential information for the safe installation, operation, and maintenance of your new smart toilet. Please read these instructions carefully before use and retain them for future reference.

## 2. SAFETY INFORMATION

Always observe the following safety precautions to reduce the risk of injury or damage:

- Ensure all electrical connections are performed by a qualified electrician and comply with local regulations.
- Do not attempt to repair or modify the unit yourself. Contact qualified service personnel.
- Keep the product away from excessive moisture or direct water spray, except for intended cleaning.
- Unplug the unit from the power supply before performing any maintenance or cleaning.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

## 3. PRODUCT OVERVIEW

## 4. SETUP AND INSTALLATION

---

The HOROW G07 is designed for wall-mounted installation. Due to the complexity of plumbing and electrical connections, professional installation is highly recommended.

### 4.1 Package Contents

Before installation, ensure all components are present:

- HOROW G07 Smart Toilet Unit
- Remote Control
- Installation Instructions (refer to the separate detailed guide for step-by-step instructions)

### 4.2 Dimensions

Refer to the diagram below for precise measurements to ensure proper fitting and installation.

## 5. OPERATING INSTRUCTIONS

### 5.1 Bidet Functions

The HOROW G07 offers a range of personalized cleaning options:

- **Rear Wash:** Standard cleansing for the posterior area.
- **Lady Wash:** Gentle and specific cleansing for feminine hygiene.
- **Mobile Wash:** The nozzle moves back and forth for a wider cleaning area.
- **Pulsating Wash:** Provides a rhythmic water spray for a massage effect.

You can adjust the water temperature, water pressure, and nozzle position to your preference using the

controls.

## 5.2 Control Methods

Your smart toilet can be operated via a side knob or the included remote control.

- **Side Knob:** Located on the side of the toilet, this knob allows for basic control of flushing and bidet functions.
- **Remote Control:** Provides full access to all functions, including detailed adjustments for water temperature, pressure, and nozzle position.

## 6. MAINTENANCE

Regular maintenance ensures the longevity and hygienic performance of your HOROW G07 Smart Toilet.

### 6.1 Cleaning the Toilet Bowl (Rimless Design)

The rimless design significantly simplifies cleaning. Use a soft cloth and mild, non-abrasive cleaning agents. The smooth, high-temperature glaze prevents dirt and odors from accumulating.

## 6.2 Nozzle Maintenance

The nozzle is self-cleaning and designed for easy removal and replacement. This ensures optimal hygiene and simplifies maintenance.

## 6.3 Descaling Function

To prevent limescale buildup and protect internal water paths and heating components, the HOROW G07 supports the addition of descaling agents. This ensures clean shower water and extends the product's lifespan.

**Note: Descaling agent must be purchased separately.**

**Unterstützt die Zugabe von Entkalkungsmitteln –  
für einen reibungslosen und sauberen Wasserfluss**

\* Hinweis: Entkalkungsmittel muss separat erworben werden.

#### **6.4 Quick-Release Toilet Seat and Soft-Close Lid**

The toilet seat can be easily removed without tools for comprehensive cleaning. The UF material of the seat has inherent antibacterial properties. The soft-close mechanism ensures the lid closes gently, preventing slamming and reducing wear.

Figure 9: This image illustrates two key features: the quick-release mechanism for easy removal of the toilet seat for cleaning, and the soft-close function of the toilet lid, which prevents abrupt slamming.
