Ball & Cast Double Twin Size Daybed with Trundle

INSTRUCTION MANUAL

Model: Double Twin Size Daybed with Trundle | Brand: Ball & Cast

INTRODUCTION

Thank you for choosing the Ball & Cast Double Twin Size Daybed with Trundle. This manual provides essential information for the safe and correct assembly, operation, and maintenance of your new furniture. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

SAFETY INFORMATION

- Always follow the assembly instructions step-by-step.
- Assembly should be performed by at least two adults to prevent injury and ensure proper construction.
- Ensure all hardware is securely tightened before use. Periodically check and re-tighten hardware as needed.
- Do not allow children to play on or under the bed without supervision.
- Do not exceed the recommended weight capacities for the bed, trundle, or shelves.
- Keep small parts and packaging materials away from children to avoid choking hazards.
- Place the bed on a flat, stable surface.

PACKAGE CONTENTS

Before assembly, verify that all components are present and undamaged. If any parts are missing or damaged, please contact customer support.

- Main Twin Bed Frame (1)
- L-Shaped Twin Bed Frame (1)
- Trundle Bed Frame (1)
- Storage Drawers (Quantity as per model)

- Headboard with Shelves and Storage Compartments (1)
- Slats for both bed frames and trundle
- Hardware Pack (screws, bolts, nuts, Allen wrench, etc.)

SETUP & ASSEMBLY

Please ensure you have ample space for assembly and that you have all necessary tools (typically an Allen wrench, often included, and a Phillips head screwdriver, not included).

Dimensions Overview

UNIT:INCH

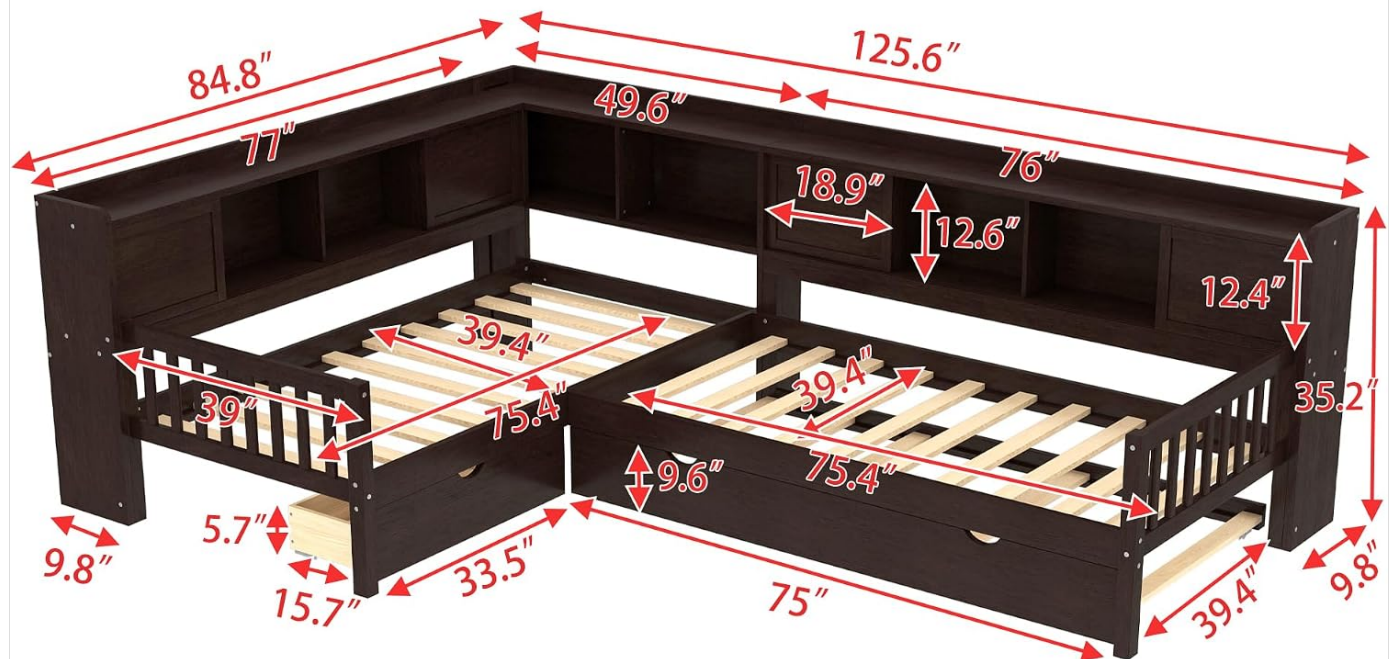

Figure 1: Overall Product Dimensions (Unit: Inches)

Refer to the dimension diagram (Figure 1) to plan your space. The overall dimensions are approximately 125.59"L x 84.84"W x 35.24"H.

Assembly Steps

1. **Unpack and Organize:** Carefully remove all components from the packaging. Lay them out on a clean, soft surface (like a rug or blanket) to prevent scratches. Identify each part using the provided parts list.
2. **Assemble Main Bed Frames:** Begin by assembling the two twin bed frames. Attach the side rails to the headboards and footboards using the designated hardware. Ensure all connections are snug but do not overtighten until all parts are aligned.
3. **Connect L-Shaped Section:** Once the individual bed frames are partially assembled, connect them to form the L-shape. This typically involves specific corner brackets and hardware.
4. **Install Slats:** Place the wooden slats onto the support rails of both bed frames. Secure them according to the

instructions, usually with screws or plastic caps.

5. **Assemble Trundle Bed:** Assemble the trundle frame separately. Attach the wheels or casters to the bottom of the trundle frame. Install the trundle slats.
6. **Assemble Storage Drawers:** Construct the storage drawers. Attach the drawer slides and handles.
7. **Attach Headboard and Shelves:** Secure the L-shaped headboard and shelving unit to the assembled bed frames. This unit provides integrated storage and completes the L-shaped design.
8. **Insert Trundle and Drawers:** Slide the assembled trundle bed under one of the main bed frames. Insert the storage drawers into their designated compartments.
9. **Final Tightening:** Once all components are in place and aligned, go back and securely tighten all hardware. Do not overtighten to avoid stripping screws or damaging wood.

OPERATING INSTRUCTIONS

Using the Trundle Bed

To use the trundle bed, gently pull the trundle frame out from under the main bed. The casters allow for smooth movement. To retract, push the trundle back into its position under the main bed until it is fully stored.

Utilizing Storage Drawers and Shelves

The integrated drawers provide convenient storage for bedding, clothing, or other items. Pull the drawers open and push them closed. The headboard shelves offer open storage for books, decor, or personal items.

MAINTENANCE

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid using harsh chemicals, abrasive cleaners, or polishes that may damage the finish.
- **Hardware Check:** Periodically inspect all bolts, screws, and connections to ensure they remain tight. Re-tighten as necessary to maintain stability and safety.
- **Avoid Moisture:** Protect the furniture from excessive moisture and direct sunlight to prevent warping or fading.
- **Weight Distribution:** Distribute weight evenly on the bed and shelves to prevent stress on the frame.

TROUBLESHOOTING

- **Squeaking Noises:** If the bed squeaks, check all hardware connections and tighten any loose bolts or screws. Ensure the bed is on a level surface.
- **Trundle or Drawers Sticking:** Check for any obstructions in the tracks or under the trundle/drawers. Ensure the casters are clean and free of debris. If necessary, apply a small amount of silicone lubricant to the drawer slides or caster axles.
- **Wobbly Frame:** A wobbly frame usually indicates loose hardware. Re-tighten all bolts and screws, ensuring the bed is assembled squarely.
