## ONBRILL HT-118-118

# ONBRILL T1 Wall Mounted Closet System Instruction Manual

Model: HT-118-118

## 1. INTRODUCTION

---

Thank you for choosing the ONBRILL T1 Wall Mounted Closet System. This manual provides detailed instructions for the safe assembly, operation, and maintenance of your new closet system. Please read all instructions carefully before installation and retain this manual for future reference.

The ONBRILL T1 is a versatile and sturdy wall-mounted storage solution designed to maximize your space. It features adjustable wooden shelves and telescopic rods, suitable for organizing various clothing items and accessories.

Image 1.1: The ONBRILL T1 Wall Mounted Closet System installed in a room, demonstrating its capacity for clothes and various items.

## 2. SAFETY INFORMATION

- Always ensure the closet system is securely mounted to wall studs or appropriate anchors suitable for your wall type. Consult a professional if unsure about wall mounting.
- Do not exceed the maximum weight capacity of 1050 lbs (476 kg) for the entire system. Distribute weight evenly across shelves and rods.
- Keep small parts away from children during assembly to prevent choking hazards.
- Wear appropriate safety gear, such as gloves and eye protection, during assembly.
- Regularly check all connections and mounting points to ensure they remain secure.

## 3. PACKAGE CONTENTS

Please verify that all components listed below are present before beginning assembly. If any parts are missing or damaged, please contact customer support.

- 2 Wall-locking Accessories
- 4 Telescopic Rods
- 6 Wood Shelves
- Instruction Guide (this manual)

## 4. SETUP AND INSTALLATION

---

The ONBRILL T1 system features an upgraded connection method using threaded joints for faster and more secure assembly.

### 4.1 Tools Required (Not Included)

- Drill
- Level
- Measuring Tape
- Pencil
- Stud Finder (recommended)

### 4.2 Assembly Steps

1. **Plan Your Layout:** Determine the desired configuration (L-shape, 45°, or straight line) and location for your closet system. Ensure the assembly space has at least a height of 7'6" (228.6 cm).
2. **Assemble Vertical Pipes:** Connect the pipe sections using the threaded joints. Simply roll and twist the pipes together until secure. This method is designed for ease and stability.

# More Easy to Assemble

## Other

### Screw Mounting

- ⊗ Time-consuming
- ⊗ Difficult to assemble

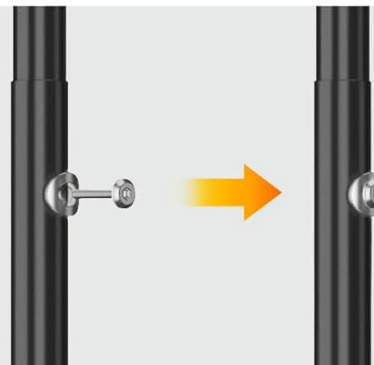

Image 4.1: Illustration of the thread rolling mounting system for pipe connections, designed for easy and secure assembly.

- 3. Mount to Wall:** Position the assembled vertical pipes against the wall. Use a level to ensure they are straight. Mark the drilling points for the wall-locking accessories. Drill pilot holes and securely attach the wall-locking accessories to the wall, preferably into wall studs.
- 4. Install Shelves:** Attach the 6 wooden shelves to the desired height on the vertical pipes. The shelves are adjustable to suit your storage needs.
- 5. Install Telescopic Rods:** Insert the 4 telescopic rods between the vertical pipes. Adjust their length to fit the space and secure them. These rods are ideal for hanging garments.
- 6. Adjust Feet:** The system includes adjustable feet to ensure stability on uneven floors. Adjust each foot until the entire structure is level and stable.

Image 4.2: Close-up views highlighting key features: 6 wooden shelves, sturdy pipe structure, rotatable design for flexible configurations, and adjustable feet for stability.

# Weight Capacity: 1050 LBS

Assembly Space: at least a height of 7'6"

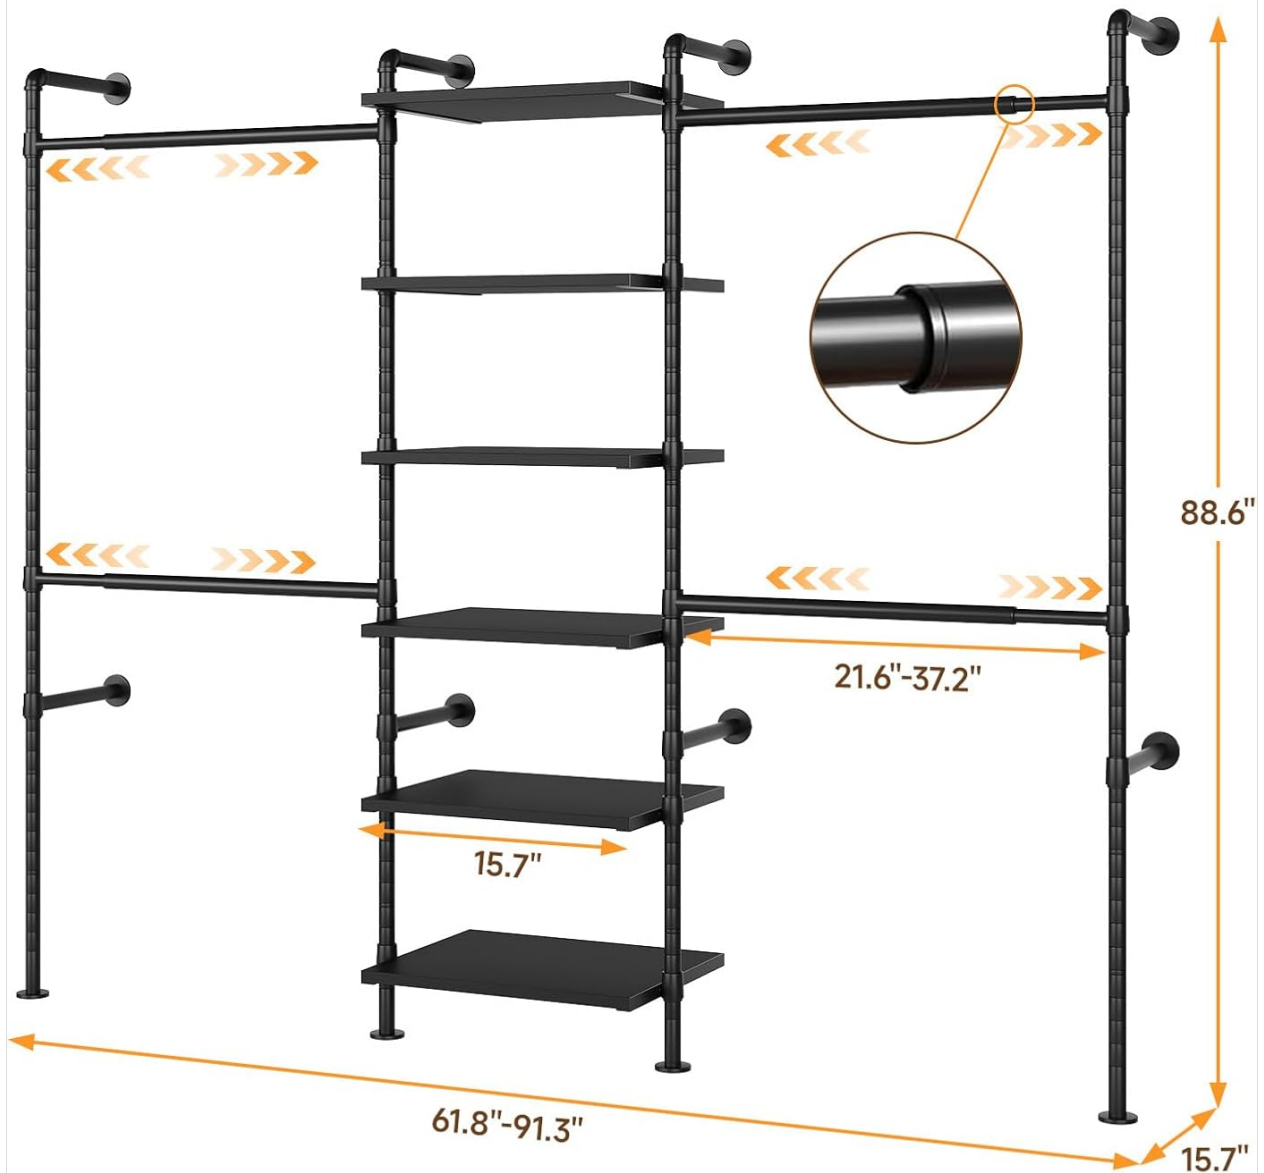

Image 4.3: Dimensional diagram of the closet system, indicating a weight capacity of 1050 lbs and an assembly space requirement of at least 7'6" in height.

## 5. OPERATING INSTRUCTIONS

The ONBRILL T1 Wall Mounted Closet System is designed for versatile storage and organization.

- **Shelf Usage:** The 6 wooden shelves can be used to store folded clothes, bags, hats, belts, towels, umbrellas, shoes, jewelry boxes, or suitcases. Adjust their height as needed to accommodate different items.
- **Telescopic Rods:** The 4 telescopic rods are ideal for hanging shirts, pants, dresses, coats, and other garments. The rods can be extended to increase hanging space.

Before extension: Support **15-20** garments

After extension: Support **35-40** garments

Image 5.1: Visual comparison of a telescopic rod's capacity before and after extension, illustrating how it can hold more garments.

- **Customization:** The modular design allows for flexible combination configurations. You can arrange the system in L-shapes, 45° angles for corners, or straight lines for walk-in closets, adapting to your spatial requirements.

## 6. MAINTENANCE

- **Cleaning:** Wipe metal parts with a soft, damp cloth. For wooden shelves, use a dry or slightly damp cloth. Avoid harsh chemicals or abrasive cleaners that may damage the finish.
- **Regular Checks:** Periodically inspect all connections, screws, and wall mounts to ensure they are tight and secure. Re-tighten if necessary.
- **Weight Distribution:** Ensure weight is distributed evenly to prevent stress on specific sections of the system.

## 7. TROUBLESHOOTING

Problem	Possible Cause	Solution
System feels unstable or wobbly	Loose wall mounts or connections; uneven floor; overloaded section.	Ensure wall mounts are securely fastened to studs. Tighten all threaded pipe connections. Adjust the leveling feet. Redistribute weight evenly.
Pipes do not connect smoothly	Misalignment; debris in threads.	Ensure pipes are aligned correctly before twisting. Check threads for any obstructions and clear them.
Telescopic rod does not extend/retract	Locking mechanism engaged; internal obstruction.	Ensure the locking mechanism is disengaged. Check for any items obstructing the rod's movement.

## 8. SPECIFICATIONS

Feature	Detail
Brand	ONBRILL
Model Number	HT-118-118
Colour	Black
Material	Metal, Wood
Item Dimensions (L x W x H)	39.9 x 232 x 225 Centimetres (approx. 15.7 x 91.3 x 88.6 inches)
