## OPERATING INSTRUCTIONS

---

The G-STAR C7Z06 Asphalt Racing Car Building Set is designed for both display and interactive play. Once assembled, the model can be used for:

- **Imaginative Play:** Engage in creative scenarios and racing adventures with the assembled car.
- **Display:** Showcase the detailed model on a shelf or desk as a collector's item.

No electronic components or batteries are required for operation. The car functions through manual interaction.

## MAINTENANCE

---

Proper care will ensure the longevity of your building set.

- **Cleaning:** To clean the building blocks, wipe them gently with a soft, dry cloth. For stubborn dirt, a slightly damp cloth can be

used, followed by immediate drying. Avoid harsh chemicals or abrasive cleaners.

- **Storage:** Store the assembled model or individual pieces in a cool, dry place away from direct sunlight to prevent discoloration or material degradation.
- **Handling:** Handle the assembled model with care to prevent pieces from detaching.

## TROUBLESHOOTING

---

If you encounter any issues during assembly or use, refer to the following common solutions:

- **Missing Pieces:** Double-check the packaging and sorting area. If a piece is genuinely missing, contact customer support with your product model number and a description of the missing part.
- **Difficulty Connecting Pieces:** Ensure pieces are correctly oriented and aligned. Apply firm, even pressure. If a piece is too tight, verify it is the correct piece for that step.
- **Model Instability:** Review previous assembly steps to ensure all connections are secure and no pieces were skipped or incorrectly placed.
