5. OPERATING INSTRUCTIONS

Your BLOKEES figure features high articulation, allowing for various poses and dynamic display options. Gently manipulate the joints to achieve desired stances. Some figures may also have alternate modes (e.g., vehicle mode) which can be achieved by reconfiguring the parts according to the included instructions.

6. MAINTENANCE

To maintain your BLOKEES figure, keep it clean and free from dust. Use a soft, dry cloth for cleaning. Avoid harsh chemicals or abrasive materials, as these can damage the plastic and paint. Store the figure away from direct sunlight and extreme temperatures to prevent material degradation and color fading.

7. TROUBLESHOOTING

- **Loose Joints:** If joints become loose over time, a small amount of clear nail polish or a similar non-permanent adhesive can be applied to the joint peg, allowed to dry slightly, then reassembled to increase friction.
- **Stuck Parts:** If parts are difficult to move, gently warm the area with a hairdryer on a low setting for a few seconds to soften the plastic, then attempt to move the part. Do not overheat the plastic.
- **Missing Parts:** If you find any parts missing upon opening, please contact BLOKEES customer support immediately.
