KUNSANA KUN-902VTD

KUNSANA 2-Person Khaya Outdoor Infrared Sauna Instruction Manual

Model: KUN-902VTD

1. Setup Instructions

This section provides detailed steps for assembling your KUNSANA 2-Person Khaya Outdoor Infrared Sauna. Ensure you have all components and tools before beginning.

1.1 Unpacking and Component Identification

Carefully unpack all boxes and identify each component. Refer to the included parts list to ensure all items are present and undamaged.

Figure 1: Overview of sauna assembly steps.

1.2 Panel Assembly

Begin by placing the bottom board on a level surface. Connect the back panel, followed by the side panels, ensuring they interlock securely. The panels are designed for easy, tool-free assembly in most cases, using integrated latches or grooves.

1.3 Electrical Connections

Once the main panels are in place, connect the internal wiring for the heating elements, control panel, and lighting. Ensure all connections are firm and follow the labeled wiring diagrams. The sauna operates on a 60Hz/120V power supply.

1.4 Bench and Accessories Installation

Install the seating benches and any included accessories such as the cup holder, towel rack, and oxygen ionizer. Secure them according to the provided instructions, typically using screws.

1.5 Roof Installation

Carefully place the roof panel onto the assembled sauna structure. Ensure proper alignment and secure it using the designated fasteners. The roof features a waterproof design for outdoor use.

Figure 2: The sauna's exterior, highlighting the waterproof roof and weather resistance.

1.6 Door Installation

Install the glass door, ensuring the hinges are properly aligned and secured. Attach the wooden door handle. Verify that the door opens and closes smoothly and seals completely.

2. Operating Instructions

Your KUNSANA sauna is equipped with an intuitive LCD display touch control system for easy operation.

2.1 Powering On and Temperature Control

Press the 'Power' button on the control panel to turn on the sauna. Use the 'Temp +' and 'Temp -' buttons to set your desired temperature. The sauna's temperature range is 25°C (77°F) to 65°C (149°F). It features a 10-minute quick preheat function (not to maximum temperature).

2.2 Timer Settings

Use the 'Time +' and 'Time -' buttons to set the duration of your sauna session. The sauna has a timing function that will automatically shut off after the set period.

2.3 Lighting and Audio System

The sauna includes LED reading lights and ambient chromotherapy lights. Use the 'Light' and 'Color Light' buttons on the control panel to adjust the lighting. The integrated Bluetooth audio system allows you to connect your device (Bluetooth Equipment Name: BT Speaker) for music or podcasts during your session.

3. Maintenance

3.1 Cleaning

Wipe down the interior and exterior wood surfaces with a damp cloth after each use. Avoid using harsh chemicals or abrasive cleaners that could damage the Khaya wood. For deeper cleaning, a mild, natural wood cleaner can be used sparingly.

3.2 Wood Care

The Khaya wood is naturally durable and waterproof. To maintain its appearance and longevity, avoid prolonged exposure to standing water. Periodically inspect the wood for any signs of wear or damage and address them promptly.

4. Troubleshooting

4.1 Sauna Not Heating

- Check if the power plug is securely connected to a functional 120V outlet.
- Ensure the 'Power' button on the control panel is activated.
- Verify that the temperature setting is above the current sauna temperature.

4.2 Lights Not Functioning

- Confirm the sauna is powered on.
- Press the 'Light' or 'Color Light' buttons to cycle through options.
- If individual lights are out, they may require replacement. Contact customer support.

4.3 Bluetooth Connectivity Issues

- Ensure your device's Bluetooth is enabled and discoverable.
- Search for 'BT Speaker' in your device's Bluetooth settings.
- Move your device closer to the sauna to improve signal strength.

5. Specifications

Model Number	KUN-902VTD
Capacity	2 Person
Main Material	Khaya Wood (Mahogany)
Heating Material	Far Infrared Heating Panels (Carbon Crystal) + Ceramic Heating Cubes
Rated Power	1750W
Rated Power Supply	60Hz / 120V
Power Plug	US Standard (15A)
Power Cable Length	3M
Number of Heating Panels	6P
Temperature Range	25°C (77°F) to 65°C (149°F)
Temperature Protection	110°C
EMF Level	3-10
Control System	LCD Display, Touch Control
Audio System	Bluetooth Audio (BT Speaker)
Lighting	LED Reading Light, Ambient Chromotherapy Lights
Ventilation	Ventilator Scoop

Waterproof Exterior	Yes
Product Dimensions	58 x 41 x 81 inches
