General Assembly Tips

- **Check Component List:** Verify all parts and hardware are included against the provided list in your physical manual.
- **Assemble Headboard:** Begin by assembling the headboard components, including the storage sections and charging station.

- **Build Bed Frame:** Construct the main bed frame structure, ensuring all connections are secure but not fully tightened until instructed.
- **Attach Headboard and Slats:** Securely attach the assembled headboard to the bed frame. Install the bed slats, ensuring they are properly seated for noise-free support.
- **Connect Light Cables:** Follow the instructions to connect the LED light cables and power supply.
- **Final Tightening:** Once all parts are in place and aligned, fully tighten all screws and bolts.

OPERATING INSTRUCTIONS

LED Mood Lighting

The integrated LED lights can be controlled via a dedicated app, remote control, or manual switch. This allows for customization of color, brightness, and dynamic modes.

- **App Control:** Download the specified app to access a wide range of colors (over 60,000), dimming functions, music synchronization, microphone synchronization, and timer settings.
- **Remote Control:** Use the included remote to adjust colors, brightness, and switch between various lighting modes.
- **Manual Control:** A manual switch provides basic on/off and mode cycling functionality.

MAINTENANCE

To maintain the appearance and longevity of your bed frame, follow these simple care instructions:

- **Cleaning:** Wipe the bed frame surfaces with a dry cloth. Avoid using harsh chemicals or abrasive cleaners.
- **Fabric Care:** For upholstered areas, gently spot clean with a mild fabric cleaner if necessary. Test on an inconspicuous area first.

- **Hardware:** Periodically check and tighten all screws and bolts to ensure stability.

TROUBLESHOOTING

If you encounter any issues with your bed frame, refer to the following common troubleshooting steps:

- **LED Lights Not Working:**

- Ensure the power adapter is securely plugged into a working outlet and the bed frame.
- Check all cable connections between the LED strip, controller, and power adapter.
- Verify the remote control battery is functional.
- If using the app, ensure your device's Bluetooth is on and connected to the bed frame.

- **Charging Station Not Functioning:**

- Confirm the charging station's power cord is fully plugged into the bed frame and a live wall outlet.
- Test with different devices and cables to rule out device-specific issues.

- **Bed Frame is Wobbly or Noisy:**

- Re-check all assembly screws and bolts, ensuring they are fully tightened. Refer to the assembly video for correct tightening procedures.
- Ensure all bed slats are correctly installed and seated within their designated slots.
- Verify that the noise isolators (if applicable) are properly in place to prevent metal-on-metal contact.
