### EBL AA 1.5V, C708S3L

# EBL Rechargeable AA Lithium Batteries with Charger

MODEL: AA 1.5V BATTERIES & C708S3L CHARGER

## Introduction

---

This manual provides essential instructions for the safe and efficient use of your EBL 3000mWh 1.5V Constant Voltage Rechargeable Lithium AA Batteries and the accompanying 3-in-1 AA/AAA Battery Charger. Please read this manual thoroughly before first use and retain it for future reference.

## Package Contents

---

Verify that all items listed below are included in your package:

- 8 x EBL 3000mWh 1.5V Constant Voltage Rechargeable Lithium AA Batteries
- 1 x EBL C708S3L 3-in-1 AA/AAA Battery Charger
- 1 x USB-C Charging Cable (approx. 22 inches)
- 1 x User Manual
- 1 x Battery Storage Case

*Image: Contents of the EBL battery and charger package.*

## Product Features

- **High-Capacity AA Lithium Batteries:** Each AA battery offers 3000mAh capacity, providing extended power for your devices.
- **Long Cycle Life:** Batteries can be recharged up to 1600 times, offering significant cost savings and reduced waste compared to single-use batteries.
- **Consistent 1.5V Output:** Maintains a stable 1.5V output voltage throughout discharge, ensuring optimal device performance.
- **Wide Temperature Range:** Operates reliably in extreme temperatures from -40°F to 140°F (-40°C to 60°C).
- **Leak-Proof Design & Safety Protection:** Built-in smart chip protects against overcharging, overcurrent, short circuits, and overheating. The leak-proof design prevents corrosion.
- **Versatile 3-in-1 Charger:** The included charger supports 1-8 AA/AAA 1.5V lithium-ion batteries, as well as 1.2V Ni-MH and Ni-Cd AA/AAA batteries.
- **Low Self-Discharge:** Batteries retain a high percentage of charge even after long periods of storage.

Image: Excellent performance across a wide temperature range.

## Setup & Charging Instructions

- 1. Connect the Charger:** Connect the provided USB-C charging cable to the charger's input port. Plug the other end of the cable into a 5V/2A (or greater) USB power adapter (not included).
- 2. Insert Batteries:** Carefully insert the AA or AAA batteries into the charger slots, ensuring correct polarity (+ and - ends match the markings on the charger). The charger can accommodate 1 to 8 batteries simultaneously.
- 3. Monitor Charging Status:**
  - A **red LED** indicator above each slot signifies that the battery is currently charging.
  - A **green LED** indicator means the battery is fully charged.
  - A **flashing red LED** indicates a non-rechargeable or damaged battery. Remove such batteries immediately.
- 4. First Use Charging:** For optimal performance, fully charge all new batteries before their first use. A full charge typically takes 2-3 hours.

## Operating Instructions

---

Once fully charged, remove the batteries from the charger. Insert them into your compatible electronic devices, ensuring correct polarity. These 1.5V constant voltage batteries are ideal for high-drain devices such as:

- Blink cameras
- Door locks
- Camping lights
- Xbox controllers
- Flashlights
- Remote controls
- Clocks

**Note:** These batteries are compatible only with 1.5V devices. Do not attempt to use them in devices requiring different voltage specifications.

# SAFE AND WIDELY USE

REMOTE CONTROL

XBOX CONTROLLER

BLINK DOORBELL

FLASHLIGHT

*Image: EBL batteries are safe and widely used in various devices.*

## Maintenance

- **Storage:** Store unused batteries in the provided battery storage case to protect them from damage and short circuits. Store in a cool, dry place away from direct sunlight.
- **Cleaning:** Keep battery terminals and charger contacts clean and free of debris. Use a dry cloth to wipe them if necessary.
- **Disposal:** Dispose of depleted or damaged batteries according to local regulations for lithium-ion batteries. Do not dispose of them in household waste.

# Excellent Performance

Across a wide temperature range

## Troubleshooting

### Batteries not charging:

- Ensure the USB-C charging cable is securely connected to both the charger and the power adapter.
- Verify that the power adapter provides at least 5V/2A output.
- Check that batteries are inserted with correct polarity.
- If an LED flashes red, the battery may be non-rechargeable or damaged. Remove it from the charger.

### Device not powering on with charged batteries:

- Confirm batteries are fully charged (green LED on charger).
- Ensure batteries are inserted correctly into the device.
- Verify that your device is compatible with 1.5V batteries.

## Specifications

### EBL 1.5V Lithium AA Batteries

Battery Type	Lithium-ion (Li-ion)
Voltage	1.5V (Constant)
Capacity	3000mWh
Cycle Life	Up to 1600 cycles
Weight per battery	19 grams
Operating Temperature	-40°F to 140°F (-40°C to 60°C)

### EBL C708S3L Battery Charger

Model	C708S3L
Input	Type-C / DC 5V/2A

<b>Output Current (AA/AAA)</b>	300mA*8
<b>Battery Charging Rate</b>	≥80%
<b>Compatible Battery Types</b>	1.2V Ni-MH/Ni-Cd AA/AAA, 1.5V Li-ion AA/AAA

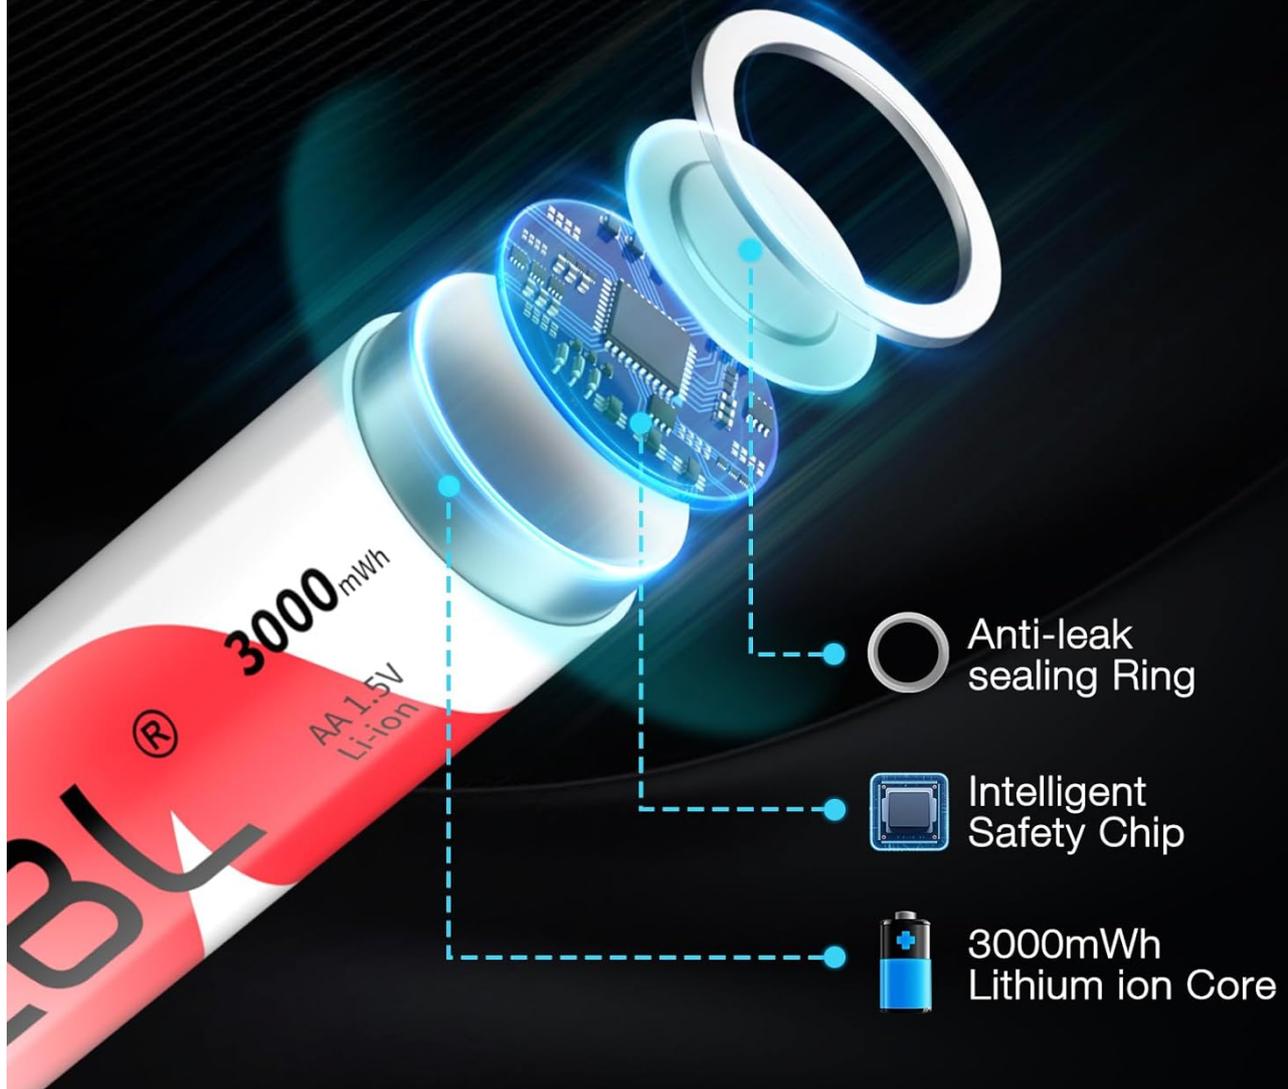

## Safety Information

---

To ensure safe operation and prevent damage, please adhere to the following safety guidelines:

- Do not disassemble, modify, or attempt to repair the batteries or charger.
- Do not expose batteries or charger to fire, high temperatures, or direct sunlight.
- Ensure correct polarity when inserting batteries into the charger or devices. Incorrect insertion can cause damage.
- Do not mix new and old batteries, or different types of batteries (e.g., alkaline with lithium).
- Keep batteries and charger away from water and moisture.
- Store batteries out of reach of children and pets.
- If batteries show signs of leakage, swelling, or damage, discontinue use immediately and dispose of them properly.
- Use only the provided EBL charger or a compatible charger designed for 1.5V Li-ion batteries.

# SAFETY PROTECTION NO LEAKAGE
