CYKOV CY59KT

CYKOV Ergonomic Office Chair with Footrest

MODEL: CY59KT - INSTRUCTION MANUAL

Introduction

Thank you for choosing the CYKOV Ergonomic Office Chair. This manual provides essential information for the proper assembly, operation, and maintenance of your new chair. Designed for optimal comfort and support, this chair features a multi-dimensional adjustment system to enhance your work, gaming, or relaxation experience. Please read these instructions carefully before use and retain them for future reference.

Key Features

- **Retractable Footrest:** Professional-grade, designed for effortless switching between work and relaxation, promoting better blood circulation.
- **Multi-dimensional Adjustment System:** Includes seat height, 2-way lumbar support, 4-way headrest, and armrests for a personalized ergonomic fit.
- **Rock-Solid Stability:** Reinforced footrest mechanism and durable core structure minimize wobbles and squeaks.
- **Thoughtful Materials:** Footrest surface crafted from body-friendly, shock-absorbing material for comfort and non-slip grip.
- **Adjustable Headrest:** 4.72-inch height adjustment with 60° swivel for neck support.
- **Custom Lumbar Support:** 2-inch height and 1.18-inch depth adjustment to hug your lower back.
- **360° Swivel & Height Adjustment:** 4-inch seat height lift and full 360° rotation.
- **Recline Function:** Adjustable from 90° (work) to 160° (nap) with lockable angles.
- **Breathable Mesh Back:** Skin-friendly mesh allows free airflow, preventing sweat and stickiness.
- **Built-in Hanger:** Conveniently located for hanging jackets, headsets, or bags.
- **Heavy-Duty Frame:** Supports up to 350 lbs with high-density foam seat for lasting support.

Setup & Assembly

The CYKOV Ergonomic Office Chair is designed for hassle-free assembly. All necessary hardware is pre-sorted, and straightforward instructions are included in the packaging. Please follow the step-by-step guide provided with your chair to ensure correct and safe assembly. Typically, assembly takes approximately 20-30 minutes.

Operating Instructions

Your CYKOV chair offers multiple adjustments for personalized comfort:

- Seat Height Adjustment:** Locate the lever on the right side beneath the seat. Lift the lever to raise the seat, or apply weight to the seat while lifting the lever to lower it. The seat offers a 4-inch height lift.
- Recline Function:** Use the 'Tilt Lock Adjustment' lever on the left side. Pull the lever outwards to allow recline, and push it inwards to lock the backrest at your desired angle (between 90° and 160°).
- Retractable Footrest:** Pull the footrest out from beneath the seat. Flip the padded section up for support. Adjust its extension to suit your leg length.
- Lumbar Support Adjustment:** On the back of the chair, locate the dial. Rotate the dial to adjust the depth of the lumbar support (up to 1.18 inches). The lumbar support can also be adjusted vertically by 2 inches.
- Headrest Adjustment:** The headrest can be adjusted vertically by 4.72 inches and swiveled by 60° to provide optimal neck and head support.
- Armrest Adjustment:** The armrests are recline-linked and feature soft padding for consistent arm support.
- 360° Swivel:** The chair base allows for full 360° rotation for easy movement and access.

Maintenance

To ensure the longevity and optimal performance of your CYKOV Ergonomic Office Chair, regular maintenance is recommended:

- **Cleaning:** Wipe down mesh and fabric surfaces with a damp cloth and mild soap. Avoid harsh chemicals that may damage materials.
- **Casters:** Periodically check and clean the casters (wheels) to remove any accumulated hair or debris that could hinder smooth movement.
- **Fasteners:** Ensure all screws and bolts are tightened securely. Re-tighten if any looseness is detected to maintain stability.
- **Moving Parts:** Lubricate moving parts, such as the recline mechanism and gas lift, if they become stiff or noisy.

Troubleshooting

If you encounter any issues with your chair, please refer to the following common solutions:

- **Chair Squeaks:** Check and tighten all assembly bolts. Apply a small amount of lubricant to moving metal parts if necessary.
- **Difficulty Adjusting Height:** Ensure the gas lift lever is fully engaged. If the issue persists, the gas lift cylinder may need replacement.
- **Chair Wobbles:** Verify that the base and all connections are securely fastened. Ensure the chair is on a flat, even surface.
- **Footrest Not Extending/Retracting Smoothly:** Check for any obstructions in the mechanism. Ensure the rubber bands are correctly positioned as per assembly instructions.

For persistent issues not covered here, please contact customer support.
