## 6. MAINTENANCE

To ensure the longevity and appearance of your IFGET Modern Buffet Cabinet, follow these maintenance guidelines:

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the finish.
- **Spills:** Clean up spills immediately to prevent staining or damage to the engineered wood.
- **Protection:** Use coasters or placemats under hot or wet items placed on the tabletop to prevent marks.
- **Inspection:** Periodically check all hardware and connections to ensure they remain tight. Tighten as needed.

## 7. TROUBLESHOOTING

### Door Alignment Issues:

If the cabinet doors appear misaligned or have uneven gaps, this can typically be resolved by adjusting the hinges. The hinges are designed with adjustment screws that allow for minor repositioning of the doors horizontally, vertically, and in depth. Refer to the hinge adjustment section in your assembly manual for detailed instructions.

### General Stability:

If the cabinet feels wobbly after assembly, ensure all screws are tightened securely. The adjustable foot pads on the metal legs can also be rotated to compensate for uneven floors, helping to stabilize the unit. Additionally, ensure the anti-tip kit is properly installed and secured to the wall.
