

VGR YS-V334

VGR 334 Foil Shaver User Manual

Model: YS-V334

1. IMPORTANT SAFETY INFORMATION

Please read all instructions carefully before using the VGR 334 Foil Shaver. Keep this manual for future reference.

- Do not use this appliance near water, such as bathtubs, showers, basins, or other vessels containing water.
- Always unplug the shaver from the power source before cleaning.
- Do not use the shaver while it is charging.
- Keep the appliance away from children.
- Do not disassemble or attempt to repair the shaver yourself. Contact qualified service personnel for repairs.
- Ensure the charging cable and adapter are not damaged before use.

2. PRODUCT OVERVIEW

The VGR 334 Foil Shaver is designed for a close and smooth shave on the face, neck, and bald head. It features dual titanium-coated hypoallergenic foils and a powerful motor for efficient grooming.

Included Components:

- VGR 334 Foil Shaver
- Protective Cap
- Cleaning Brush
- USB Charging Cable
- Charging Base
- Travel Pouch

3. SETUP

Initial Charging

Before first use, fully charge the shaver. The VGR 334 is equipped with a 2000mAh lithium-ion battery, providing up to 150 minutes of cordless use on a full charge. A full charge takes approximately 3 hours.

The shaver offers dual charging options:

- **USB Cable:** Connect the USB cable to the shaver and a compatible USB power adapter (not included) or computer.
- **Charging Base:** Place the shaver onto the charging base. Ensure the contacts align for proper charging.

The LED indicator will show the real-time battery status and charging progress.

4. OPERATION

General Shaving Instructions

The VGR 334 Foil Shaver is designed for dry shaving. For best results, ensure your skin is clean and dry before shaving.

1. **Power On:** Press the power button to turn on the shaver. The shaver features a powerful 10000 RPM Vector motor for efficient cutting.
2. **Shaving Technique:** Hold the shaver at a right angle to your skin. Use gentle, circular motions or straight strokes against the direction of hair growth. Stretch your skin with your free hand to ensure a smooth surface.
3. **Target Areas:** The dual titanium-coated hypoallergenic foils are effective for shaving the face, neck, and

bald head, capturing both short stubble and coarse hair without irritation.

4. **Power Off:** Press the power button again to turn off the shaver after use.

Corded and Cordless Use

The VGR 334 Foil Shaver supports both corded and cordless operation. You can use the shaver while it is plugged in and charging, providing uninterrupted use.

5. MAINTENANCE

Cleaning the Shaver

Regular cleaning ensures optimal performance and hygiene.

1. **Power Off:** Ensure the shaver is turned off and unplugged from any power source.
2. **Remove Foil Head:** Press the release button on the side of the shaver to detach the foil head.
3. **Rinse:** Rinse the detached foil head under running water to remove hair clippings. Do not immerse the entire shaver body in water.
4. **Brush:** Use the provided cleaning brush to remove any stubborn hair particles from the foils and the shaver body.
5. **Dry:** Allow the foil head to air dry completely before reattaching it to the shaver body. Wipe the shaver body dry with a clean cloth.

disassembly and cleaning, along with visual steps for rinsing the foil head.

Blade Care

The precision stainless steel blades and titanium foils are designed for long-term durability. To maintain their sharpness, ensure regular cleaning and avoid dropping the shaver, which could damage the foils.

6. TROUBLESHOOTING

If you encounter issues with your VGR 334 Foil Shaver, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Shaver does not turn on.	Low battery or no charge.	Charge the shaver fully (approx. 3 hours). Ensure the charging cable and base are properly connected.
Poor shaving performance / Hair pulling.	Foil head is dirty or damaged. Hair is too long.	Clean the foil head thoroughly. Ensure hair is trimmed short before using the foil shaver for best results. Inspect foils for damage; replace if necessary.
Shaver not charging.	Improper connection or faulty cable/base.	Check USB cable and charging base connections. Ensure the shaver is correctly seated on the base. Try a different USB power source.

If the problem persists after trying these solutions, please contact customer support.
