

TOZO VIZO V1

TOZO VIZO V1 AR Glasses User Manual

Model: VIZO V1

1. INTRODUCTION

The TOZO VIZO V1 AR Glasses provide an immersive visual and audio experience, featuring an ultra-bright display, integrated stereo speakers, and adjustable myopia correction. These glasses are designed for a wide range of applications, including entertainment, gaming, and productivity, offering a large virtual screen compatible with various devices.

2. PACKAGE CONTENTS

Please verify that all items are present in the package:

- TOZO VIZO V1 AR Glasses
- USB-C to USB-C Cable (for connection to compatible devices)
- Cleaning Cloth
- Protective Carrying Case
- User Manual (this document)

3. SETUP AND INITIAL USE

3.1 Connecting to a Device

The TOZO VIZO V1 AR Glasses connect directly to compatible devices via a USB-C port. No internal battery is present in the glasses; power is supplied by the connected device.

1. Ensure your device (iPhone, Mac, PC, Android phone, Steam Deck, etc.) has a functional USB-C port that supports video output (DisplayPort Alternate Mode).
2. Connect one end of the provided USB-C to USB-C cable to the port on the TOZO VIZO V1 AR Glasses.
3. Connect the other end of the cable to the USB-C port on your compatible device.
4. The glasses should automatically power on and display your device's screen.

3.2 Adjusting Myopia Correction

The VIZO V1 glasses feature adjustable myopia correction from 0 to 500 degrees, eliminating the need for prescription glasses or additional lenses.

1. Put on the glasses.
2. Locate the small adjustment dials on the top of each lens frame.
3. Individually turn each dial until the displayed image appears clear and sharp for each eye. This allows for precise focus adjustment for users with varying degrees of nearsightedness.

Figure 2: Myopia adjustment dials for individual eye focus.

3.3 Ensuring Comfortable Fit

The glasses are designed for comfort across various head shapes. Adjust the nose pads and temple arms as

needed to achieve a secure yet comfortable fit for extended use.

Fits All Head Shapes

All-day comfort with an ergonomic build refined through thousands of real-world fit tests.

Figure 3: Ergonomic design for comfortable wear.

4. OPERATING INSTRUCTIONS

4.1 Display Features

The VIZO V1 glasses feature an 1800-nit ultra-bright display, ensuring clear visibility even in bright environments, and project a 118-inch virtual mega screen.

Figure 4: Illustration of the 1800-nit ultra-bright display capability.

Figure 5: Visual representation of the 118-inch virtual mega screen.

4.2 2D/3D Mode Switching

The glasses support seamless switching between 2D and 3D modes for various content types.

1. Locate the mode switching button on the temple arm (refer to Figure 7 for control layout).
2. Press the button to toggle between 2D and 3D display modes.

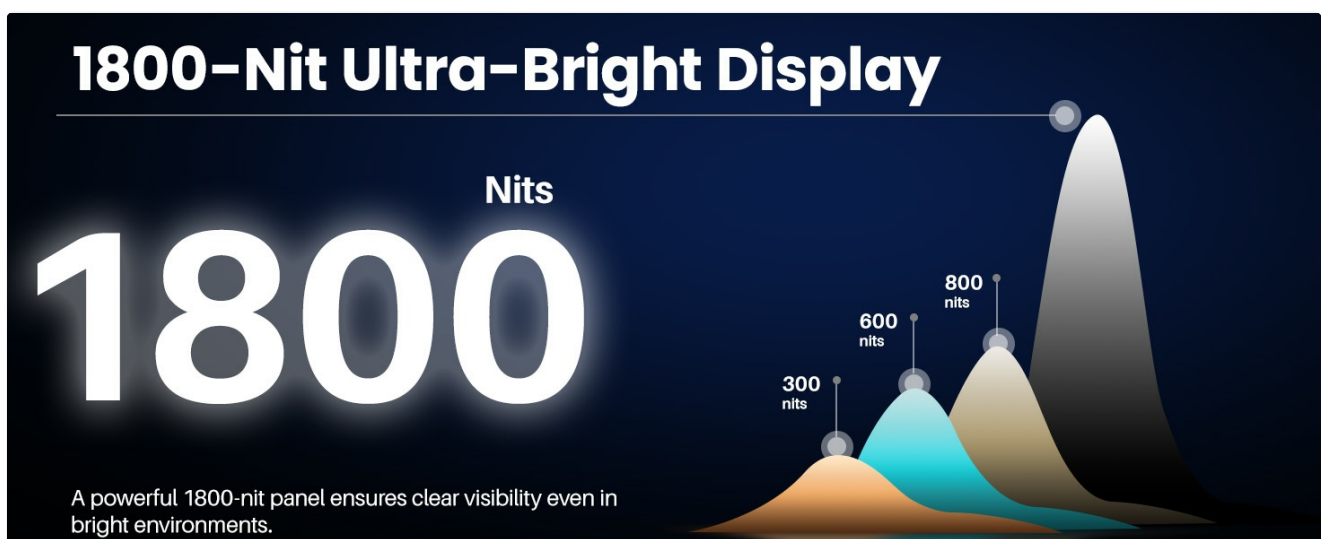

Figure 6: Switching between 2D and 3D viewing modes.

4.3 Audio Output

Built-in stereo speakers provide immersive audio for movies, games, and other content. Volume can be adjusted directly on the glasses.

- 1. Locate the volume control buttons on the temple arm (refer to Figure 7 for control layout).
- 2. Press the '+' button to increase volume and the '-' button to decrease volume.

5. MAINTENANCE AND CARE

Proper maintenance ensures the longevity and optimal performance of your TOZO VIZO V1 AR Glasses.

- **Cleaning the Lenses:** Use the provided cleaning cloth or a soft, lint-free microfiber cloth to gently wipe the lenses. Avoid using abrasive materials, alcohol, or chemical cleaners, as these can damage the lens coatings.
- **Storage:** When not in use, store the glasses in the protective carrying case to prevent scratches and dust accumulation.
- **Avoid Extreme Temperatures:** Do not expose the glasses to extreme heat or cold, as this can affect electronic components and materials.
- **Liquid Exposure:** Avoid contact with liquids. The glasses are not waterproof.
- **Cable Care:** Handle the USB-C cable carefully. Avoid sharp bends or excessive pulling to prevent damage.

6. TROUBLESHOOTING

If you encounter issues with your TOZO VIZO V1 AR Glasses, refer to the following common solutions:

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
No display in glasses.	<ul style="list-style-type: none">◦ Improper cable connection.◦ Device not supporting video output via USB-C.◦ Insufficient power from the device.	<ul style="list-style-type: none">◦ Ensure the USB-C cable is securely connected to both the glasses and the device.◦ Verify your device's USB-C port supports DisplayPort Alternate Mode.◦ Ensure your device has sufficient battery or is connected to power.
Image is blurry or out of focus.	<ul style="list-style-type: none">◦ Myopia correction not adjusted.◦ Lenses are dirty.	<ul style="list-style-type: none">◦ Adjust the myopia correction dials on each lens until the image is clear (refer to Section 3.2).◦ Clean the lenses with the provided cleaning cloth.
No sound from speakers.	<ul style="list-style-type: none">◦ Volume is too low or muted.◦ Audio output settings on the device.	<ul style="list-style-type: none">◦ Increase the volume using the buttons on the glasses or your connected device.◦ Check your device's audio output settings to ensure sound is directed to the glasses.
2D/3D mode not switching.	<ul style="list-style-type: none">◦ Incorrect button press.◦ Content not compatible with 3D.	<ul style="list-style-type: none">◦ Ensure you are pressing the correct button for mode switching (refer to Section 4.2).◦ Verify that the content you are viewing is compatible with 3D display.
