Maintenance

Cleaning the Faux Marble Top

The faux marble tabletop is designed to be scratch-resistant and easy to clean. For daily cleaning, simply wipe away spills and dust with a soft, damp cloth. Avoid using abrasive cleaners, harsh chemicals, or rough sponges, as these can

damage the surface finish.

General Care

- For the fluted side panels and other wood components, wipe with a dry or slightly damp cloth.
- For the gold metal accents and legs, use a soft, dry cloth to remove dust. Avoid liquid cleaners that may tarnish the finish.
- Avoid prolonged exposure to direct sunlight or extreme temperature changes, which can affect the material's integrity.
- Periodically check and tighten all screws and fasteners to maintain stability.

Troubleshooting

Problem	Possible Cause	Solution
Table is wobbly or unstable.	Screws are loose; uneven floor surface.	Check and tighten all assembly screws. Ensure the table is on a level surface. If necessary, use furniture pads under the legs to stabilize.
Drawer does not slide smoothly.	Drawer rails are misaligned; obstruction in the track; drawer overloaded.	Ensure the drawer rails are correctly installed and aligned. Check for any debris or objects obstructing the track. Reduce the weight in the drawer if it is overloaded.
Scratches or marks on the faux marble top.	Sharp objects or abrasive cleaning.	While scratch-resistant, the surface is not scratch-proof. Use coasters and placemats. Avoid dragging objects across the surface. For minor marks, specialized furniture repair kits may be used with caution.
