

EasyUp EA 204-G

EasyUp Dog House User Manual

Model: EA 204-G

INTRODUCTION

This manual provides essential information for the safe and effective use of your EasyUp Dog House. Designed for both indoor and outdoor use, this dog house offers a comfortable and secure shelter for your medium to large dog. Please read these instructions carefully before assembly and use.

Key features include:

- **High Safety:** Equipped with sturdy 63N air rods for stable top opening and closing, protecting pets from accidental harm.
- **Spacious Interior:** Ample room for pets to stand and move freely.
- **Easy Cleaning:** The top opens smoothly for convenient access and cleaning.
- **Weatherproof Design:** Features an asphalt roof, louvered vents, and water outlet holes to protect against various weather conditions.
- **Ventilation:** Louvered vents promote air circulation while preventing rain entry.

PRODUCT DIMENSIONS AND SIZING GUIDE

Understanding the dimensions of your dog house and how to properly size it for your pet is crucial for comfort and safety.

Image: Visual representation of the dog house dimensions and a guide for choosing the right size crate for your dog. The dog house measures approximately 42.87 inches (Length) x 31.61 inches (Width) x 32.95 inches (Height).

To choose the right size for your dog:

1. **Step 1: Length** - Measure your dog from the nose to the tailbone while standing normally.
2. **Step 2: Height** - Measure the distance from your dog's ears or head to its paws while sitting normally.
3. **Step 3: Space** - It is recommended to allow an additional 4 inches of space beyond your dog's length and height measurements for comfortable movement.

SETUP AND ASSEMBLY

The EasyUp Dog House features a modular design for straightforward assembly. While specific step-by-step instructions are not provided here, the general process involves connecting the pre-fabricated panels.

Image: Close-up view highlighting the modular design, sloped roof, louvered windows, and water outlet holes, indicating ease of assembly.

Ensure all components are present before beginning assembly. Follow the detailed assembly instructions included

in the product packaging for best results. A secure and level surface is recommended for placement.

OPERATING INSTRUCTIONS

The EasyUp Dog House is designed for simple operation, focusing on pet comfort and ease of access.

Opening and Closing the Roof

The dog house features a hinged roof supported by 63N air rods (also referred to as hydraulic rods) for smooth and stable operation. To open the roof, gently lift it upwards. The air rods will assist in holding it in the open position. To close, gently push the roof downwards until it securely latches.

Ventilation

Louvered vents are integrated into the design to promote air circulation within the dog house, ensuring a fresh environment for your pet while preventing rain from entering.

MAINTENANCE

Regular maintenance will ensure the longevity and hygiene of your EasyUp Dog House.

Cleaning

The hinged roof allows for easy access to the interior for cleaning. Use mild soap and water to wipe down all surfaces. Rinse thoroughly and allow to air dry completely before your pet re-enters. Avoid harsh chemicals or abrasive cleaners that could damage the material.

Weatherproofing

The dog house features an asphalt roof and a design resistant to wind and rain. Periodically check the roof and seams for any signs of wear or damage. Ensure the water outlet holes around the base are clear of debris to facilitate efficient water drainage and keep the interior dry.

TROUBLESHOOTING

If you encounter any issues with your EasyUp Dog House, consider the following common solutions:

- **Roof not opening/closing smoothly:** Check the air rods for any obstructions or damage. Ensure they are properly seated in their mounts.
- **Water pooling inside:** Verify that the dog house is placed on a level surface. Inspect the water outlet holes for blockages and clear any debris. Check the roof for any cracks or damage that might compromise its waterproof integrity.
- **Instability:** Ensure all modular panels are securely connected and latched according to the assembly instructions. The dog house should be placed on a firm, level ground.

For persistent issues, please refer to the manufacturer's support contact information.
