Initial Setup

Setting up your YOTON WS01 camera is a straightforward process:

1. **Download the Osaio App:** Search for "Osaio" in your smartphone's app store and install it.
2. **Plug in the Camera:** Connect the camera to a power source using the provided power adapter and cable. The camera's indicator light should begin flashing.
3. **Connect to 2.4GHz Wi-Fi:** Open the Osaio app, sign up or log in, and follow the on-screen instructions to add your device. Ensure your phone's Bluetooth is enabled for automatic detection. The camera requires a 2.4GHz Wi-Fi network.
4. **Name Your Camera:** Assign a name to your camera for easy identification within the app (e.g., Living Room, Nursery).

Operating Your Camera

Live View and Two-Way Audio

Access a live feed of your camera from anywhere using the Osaio app. The built-in microphone and speaker enable two-way communication, allowing you to speak to and hear from anyone near the camera.

Storage Options

Choose your preferred storage method for recordings:

- **Local Storage:** Insert a TF card (up to 128GB, sold separately) into the camera for subscription-free local recording.
- **Cloud Storage:** Utilize the optional cloud storage service, which includes a 14-day free trial.

Troubleshooting

If you encounter any issues with your YOTON WS01 camera, please refer to the following common solutions:

- **Connectivity Issues:** Ensure your camera is powered on and within range of your 2.4GHz Wi-Fi network. Verify your Wi-Fi password is correct in the Osaio app.
- **No Live Feed:** Check your internet connection and ensure the camera is not in privacy mode. Restart the camera and the Osaio app.
- **Alerts Not Received:** Confirm that motion and sound detection are enabled in the app settings and that app notifications are allowed on your smartphone. Adjust sensitivity settings if necessary.
- **Poor Video Quality:** Ensure the camera lens is clean and free from obstructions. Check your Wi-Fi signal strength.
- **Two-Way Audio Problems:** Verify that the microphone and speaker functions are enabled in the app and that your phone's volume is up.
