

## TECKNET TK-MS076

# TECKNET Wireless Mouse TK-MS076 Instruction Manual

Model: TK-MS076

## 1. INTRODUCTION

Thank you for choosing the TECKNET Wireless Mouse TK-MS076. This advanced mouse offers versatile connectivity options, a comfortable ergonomic design, and precise control for various tasks. Please read this manual carefully to ensure proper setup and optimal performance.

Key features include:

- **Tri-Mode Connectivity:** Seamlessly switch between Bluetooth 5.0, Bluetooth 3.0, and 2.4G USB-A dongle connections.
- **Rechargeable Battery:** Integrated 700mAh battery provides long-lasting power with convenient Type-C charging.
- **Silent Clicks:** Enjoy a quiet working environment with silent left and right click buttons.
- **Adjustable DPI:** Six customizable DPI levels (800/1200/1600/2400/3200/4800) for precise cursor control.
- **Ergonomic Design:** Crafted for comfort with a left-side thumb rest to reduce wrist strain during extended use.

## 2. PRODUCT OVERVIEW

Familiarize yourself with the components of your TECKNET Wireless Mouse:

Figure 1: TECKNET Wireless Mouse Components. This diagram illustrates the various parts of the mouse, including the left button, right button, scroll wheel, DPI button, DPI indicator, forward button, back button, USB-C port, power switch, channel switch/pairing button, and USB receiver storage.

1. **Left Button:** Primary click function.
2. **Right Button:** Secondary click function.
3. **Scroll Wheel:** For vertical scrolling and clickable for middle-click functions.
4. **DPI Button:** Press to cycle through DPI settings.
5. **DPI Indicator:** LED light indicating current DPI level.
6. **Forward Button:** Navigates forward in web browsers or file explorers (not available on Mac).
7. **Back Button:** Navigates backward in web browsers or file explorers (not available on Mac).
8. **USB-C Port:** For charging the mouse.
9. **Power Switch:** Turns the mouse On/Off.
10. **Channel Switch / Pairing Button:** Switches between 2.4G, Bluetooth 1, and Bluetooth 2 modes, and initiates Bluetooth pairing.
11. **USB Receiver:** Stores the 2.4G wireless dongle.

## 3. SETUP

### 3.1 Charging the Mouse

Before first use, it is recommended to fully charge the mouse.

1. Connect the provided USB-C charging cable to the USB-C port on the front of the mouse.
2. Connect the other end of the cable to a USB-A power source (e.g., computer USB port, USB wall adapter).
3. The battery indicator light will illuminate during charging and change color or turn off when fully charged.

Figure 2: USB-C Rechargeable Mouse. The image shows the mouse connected via a USB-C cable for charging, highlighting its 700mAh battery capacity and quick charging capability.

A full charge takes approximately 2 hours and can provide up to 3 months of standby time.

### 3.2 Connectivity Modes

The TECKNET TK-MS076 mouse supports three connection modes: 2.4G wireless via USB receiver, Bluetooth 1 (BT5.0), and Bluetooth 2 (BT3.0). You can connect to up to three devices simultaneously and switch between them.

Your browser does not support the video tag.

Video 1: TECKNET Wireless Mouse Bluetooth 5.0/3.0 & 2.4G Rechargeable. This video provides a brief overview of the mouse's features, including its tri-mode connectivity and ergonomic design.

#### 2.4G Wireless Connection:

1. Locate the USB receiver stored in the compartment at the bottom of the mouse.
2. Plug the USB receiver into an available USB-A port on your computer.
3. Turn on the mouse using the power switch at the bottom.
4. Press the Channel Switch button until the indicator light for 2.4G (usually a specific color or position) is active. The mouse should connect automatically.

#### Bluetooth Connection (BT1 / BT2):

1. Turn on the mouse using the power switch.
2. Press the Channel Switch button to select either BT1 or BT2 mode. The corresponding indicator light will blink slowly.
3. To enter pairing mode, press and hold the Channel Switch/Pairing Button for 3-5 seconds until the indicator light blinks rapidly.
4. On your device (laptop, tablet, etc.), enable Bluetooth and search for new devices.
5. Select "TECKNET Mouse" or a similar name from the list of available devices to pair.
6. Once paired, the indicator light on the mouse will stop blinking and remain solid for a few seconds before turning off.

## 4. OPERATING INSTRUCTIONS

### 4.1 DPI Adjustment

The mouse features 6 adjustable DPI levels to suit your precision needs:

- 800 DPI
- 1200 DPI
- 1600 DPI (Default)
- 2400 DPI
- 3200 DPI
- 4800 DPI

To change the DPI, press the DPI button located below the scroll wheel. The DPI indicator light will flash to confirm the current setting (e.g., one flash for 800 DPI, two for 1200 DPI, etc.).

### Sensitivity up to 4800 DPI

Equipped with 6 Adjustable DPI Levels and a memory function (default DPI 1600) to meet your diverse requirement

### 4.2 Button Functions

The mouse is equipped with 6 buttons for enhanced productivity:

- **Left & Right Buttons:** Designed for silent clicks, minimizing noise in quiet environments. Tested for up to 6 million clicks.
- **Scroll Wheel:** Provides smooth scrolling and can be pressed for a middle-click function.
- **DPI Button:** Changes cursor sensitivity.
- **Forward & Backward Buttons:** Convenient for navigating web pages and documents. *Note: These buttons are not available on Mac systems.*

## Light Weight & Travel-Friendly

Just for reference

A(Palm Length)

B(Palm Width)

S	<17cm/6.7in	<8cm/3.2in
M	17-19cm/6.7-7.5in	8-10cm/3.2-3.9in
L	>19cm/7.5in	>10cm/3.9in

**Recommended Size: S-M**

Figure 5: Multi-Button Control. This image highlights the six buttons on the mouse, including the forward and backward side buttons, and emphasizes the silent click feature and durability.

### 4.3 Ergonomic Design

The mouse features an ergonomic design with a unique left-side thumb contour to provide a comfortable grip and reduce wrist strain during prolonged use. This design helps maintain a neutral alignment for your wrist and palm.

## 4.4 Wide Compatibility

The TECKNET Wireless Mouse is compatible with a wide range of operating systems and devices:

- Windows
- Android
- macOS
- iOS

It works seamlessly with tablets, laptops, and desktop computers, making it a versatile tool for various computing needs.

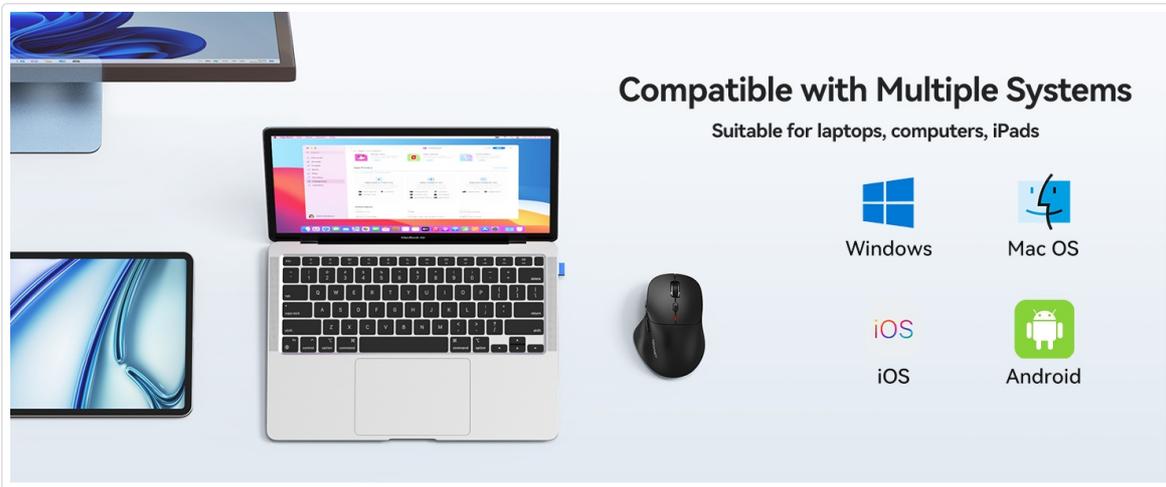

Figure 7: Multi-System Compatibility. This image displays the mouse alongside various devices and operating system logos (Windows, Mac OS, iOS, Android), indicating its broad compatibility.

## 5. MAINTENANCE

To ensure the longevity and optimal performance of your TECKNET Wireless Mouse, follow these maintenance guidelines:

- **Cleaning:** Regularly wipe the mouse surface with a soft, slightly damp cloth. Avoid using harsh chemicals or abrasive cleaners.
- **Sensor Care:** Keep the optical sensor at the bottom of the mouse clean and free from dust or debris to ensure accurate tracking.
- **Battery Care:** Charge the mouse regularly to maintain battery health. Avoid fully discharging the battery frequently. Store the mouse in a cool, dry place when not in use for extended periods.
- **Storage:** When transporting the mouse, ensure the USB receiver is securely stored in its dedicated compartment to prevent loss.

## 6. TROUBLESHOOTING

If you encounter any issues with your TECKNET Wireless Mouse, please refer to the following troubleshooting steps:

### 6.1 Mouse Not Connecting / Unresponsive

1. **Check Power:** Ensure the mouse is turned ON using the power switch at the bottom.
2. **Verify Mode:** Press the Channel Switch button to confirm you are in the correct mode (2.4G, BT1, or BT2) for your connected device.
3. **Re-pair Bluetooth:** If using Bluetooth, go to your device's Bluetooth settings, remove the mouse from the list of paired devices, and then re-initiate the pairing process as described in Section 3.2.
4. **Check USB Receiver:** If using 2.4G, ensure the USB receiver is securely plugged into a working USB-A port on your computer. Try a different USB port if necessary.
5. **Charge Battery:** Connect the mouse to a power source using the USB-C cable to ensure it has sufficient charge.

## 6.2 Cursor Erratic or Unresponsive

1. **Adjust DPI:** Press the DPI button to cycle through different sensitivity levels. A lower DPI might provide more stable tracking.
2. **Clean Sensor:** Gently clean the optical sensor at the bottom of the mouse with a soft, dry cloth to remove any dust or debris.
3. **Change Surface:** Try using the mouse on a different surface or a mouse pad. Highly reflective or uneven surfaces can affect tracking performance.

## 6.3 Buttons Not Working

1. **Re-connect Mouse:** Try turning the mouse off and then on again, or re-connecting it to your device.
2. **Check Compatibility:** Remember that Forward and Back buttons are not functional on Mac systems.

## 7. SPECIFICATIONS

Feature	Description
Model Number	TK-MS076
Connectivity Technology	Bluetooth 5.0, Bluetooth 3.0, 2.4G USB
DPI Levels	800/1200/1600 (Default)/2400/3200/4800
Buttons	6 (Left, Right, Scroll Wheel, DPI, Forward, Back)
Battery Capacity	700mAh Rechargeable (1 Nonstandard Battery included)
Charging Port	USB-C
Battery Life	Up to 3 months on a single charge
