

Garvee BLOWERS-M

Garvee 20V Electric Cordless Leaf Blower (Model BLOWERS-M) Instruction Manual

Your comprehensive guide to safe and efficient operation.

INTRODUCTION

Thank you for choosing the Garvee 20V Electric Cordless Leaf Blower. This manual provides essential information for the safe operation, maintenance, and troubleshooting of your new tool. Please read this manual thoroughly before first use and keep it for future reference.

IMPORTANT SAFETY INFORMATION

Always follow basic safety precautions to reduce the risk of fire, electric shock, and personal injury.

- Read all instructions before operating the appliance.
- Wear appropriate personal protective equipment (PPE), including eye protection and hearing protection.
- Keep children and bystanders away while operating the blower.
- Do not operate the blower in wet conditions or near water.
- Ensure the battery is fully charged before use.
- Never point the blower nozzle at people or animals.
- Inspect the blower for any damage before each use. Do not operate if damaged.
- Store the blower and battery in a dry, secure location away from direct sunlight and extreme temperatures.

WHAT'S IN THE BOX

Your Garvee Leaf Blower package includes the following components:

- Garvee Cordless Leaf Blower Unit
- 20V 4.0Ah Li-ion Battery (1x)

- Fast Charge Base (1x)
- User Manual (1x)

Figure 1: Included components of the Garvee Leaf Blower kit.

SETUP

1. Assembling the Blower Tube

1. Align the blower tube with the main unit's outlet.
2. Push the tube firmly onto the unit until it clicks into place. Ensure it is securely attached before operation.

Figure 2: Securely attach the blower tube to the main unit.

2. Inserting the Battery

1. Ensure the blower is turned off.
2. Slide the 20V 4.0Ah Li-ion battery into the battery slot on the blower unit until it locks securely.
3. To remove, press the battery release button and slide the battery out.

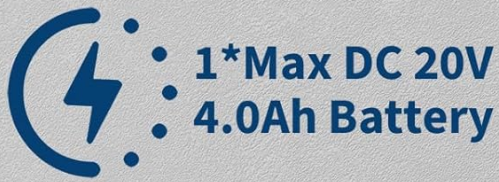

Figure 3: The battery slides into the designated slot on the blower.

3. Charging the Battery

1. Connect the fast charge base to a standard electrical outlet.
2. Slide the 20V 4.0Ah Li-ion battery onto the charge base.
3. The LED indicator on the charger will show red during charging and turn green when fully charged.
4. A full charge typically takes approximately 1 hour.
5. **Important:** For optimal battery lifespan, fully charge the battery before first use and allow a 5-minute cooldown after use. For long-term storage, recharge the battery every six months.

1 HOUR FAST CHARGING

NOTE: This battery is designed ONLY for this Garvee leaf blower model.

Figure 4: The battery charging on its dedicated fast charge base.

OPERATING INSTRUCTIONS

1. Powering On/Off and Speed Modes

- To power on the blower, press the trigger.
- The blower features two speed modes:
 - **Speed 1 (Low):** Ideal for light debris and dust, offering up to 100 MPH air speed.
 - **Speed 2 (High/Turbo):** For stubborn, wet leaves and heavier debris, boosting air speed up to an impressive 200 MPH. This mode consumes more battery power.
- Adjust the speed by using the speed selector switch located on the handle.
- To power off, release the trigger.

Figure 5: Speed adjustment and battery status indicators.

2. General Usage Tips

- For optimal performance, use the blower on dry surfaces.
- Start with the lower speed setting for general cleanup and switch to higher speed for tougher tasks.
- Maintain a comfortable distance from the debris to maximize airflow effectiveness.
- The lightweight and ergonomic design allows for comfortable one-handed operation, reducing user fatigue.

SAFETY LOCKOUT & LIGHTWEIGHT DESIGN

Safety Lock & One-Handed Control

Weights Only 8.6 lbs

MAINTENANCE

1. Battery Care

- The battery is equipped with overheat protection. If the battery becomes too hot, it will automatically shut down. Allow it to cool before resuming use.
- After each use, allow the battery to cool down for 5 minutes before recharging.
- For long-term storage, recharge the battery every six months to maintain peak performance and extend its lifespan.

2. General Cleaning

- Ensure the blower is turned off and the battery is removed before cleaning.
- Wipe the exterior of the blower with a clean, damp cloth. Do not use harsh chemicals or abrasive cleaners.
- Clear any debris from the air intake and blower nozzle to ensure unobstructed airflow.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Blower does not start.	Battery not inserted correctly or not charged.	Ensure battery is fully inserted and charged.
Low airflow or power.	Battery low, nozzle obstructed, or operating in low speed.	Recharge battery, clear nozzle, or switch to higher speed mode.

Problem	Possible Cause	Solution
Battery overheats and shuts down.	Prolonged high-power use.	Allow battery to cool down for 5 minutes before resuming use or recharging.

SPECIFICATIONS

- Brand:** Garvee
- Model Name:** BLOWERS-M
- Power Source:** Battery Powered
- Voltage:** 20 Volts
- Battery Type:** 4.0Ah Lithium-Ion
- Air Speed:** Up to 200 MPH (Turbo Mode)
- Air Volume:** 650 CFM
- Form Factor:** Handheld
- Item Weight:** 8.69 pounds
- Product Dimensions:** 7.28"L x 12.6"W x 36.2"H
- Special Features:** Adjustable Speed, Lightweight, Portable, Rechargeable

WARRANTY AND SUPPORT

Garvee products are designed and manufactured to the highest quality standards. This product comes with a 1-year limited warranty from the date of purchase, covering defects in materials and workmanship.
