DUMOS MCJ-SD01-TOT-WT-A, MCJ-SD01-TOT-WT-B

DUMOS Wood Twin Over Twin House Bunk Bed Instruction Manual

Model: MCJ-SD01-TOT-WT-A, MCJ-SD01-TOT-WT-B

1. Product Overview

The DUMOS Wood Twin Over Twin House Bunk Bed is designed to provide a space-saving and imaginative sleeping solution for children and juniors. This bunk bed features a twin-over-twin configuration, a charming house-shaped roof, and integrated safety features.

- **Space-Saving Design:** Twin-over-twin layout optimizes floor space, ideal for shared rooms.
- **Charming House Design:** Features a decorative roof and window, allowing for creative customization with personal decorations (not included).
- **Durable Construction:** Built from sturdy pine and rubber wood with reinforced plywood slats, supporting up to 350 lbs per level.
- **Safety Features:** Includes a 12.7-inch safety guardrail for the upper bunk and a secure, built-in ladder for easy access.
- **Convenient Platform Design:** Eliminates the need for a box spring and is compatible with mattresses up to 6 inches thick (mattresses not included).

2. Safety Information

Please read and follow all safety instructions carefully to ensure safe use of the DUMOS Wood Twin Over Twin House Bunk Bed.

- Always assemble the bunk bed strictly according to the provided instructions to prevent instability and potential hazards.
- Do not exceed the maximum weight capacity of 350 lbs (approximately 158 kg) per sleeping level.
- Ensure the safety guardrail is properly installed and secured at all times for the upper bunk.
- Exercise caution when using the ladder. Ensure it is stable and children are supervised during ascent and descent.
- Keep the bed away from sharp objects, open flames, and potential pinch points.
- Regularly check all bolts and connections to ensure they remain tight. Retighten as necessary.
- Only use mattresses that comply with the recommended dimensions and thickness (up to 6 inches) to maintain proper guardrail height.
- This bunk bed is intended for children and juniors. Adult supervision is recommended for younger children.

3. Assembly Instructions

Assembly of the DUMOS Wood Twin Over Twin House Bunk Bed is required. A detailed installation manual is included in the product packaging.

Please ensure all components are present and undamaged before beginning assembly. It is recommended to assemble the bed with at least two adults.

1. Unpack all components and lay them out on a clean, soft surface to prevent scratches.
2. Identify all parts and hardware by comparing them with the parts list in the included manual.
3. Follow the step-by-step diagrams and instructions provided in the manual carefully.
4. Do not overtighten screws or bolts during initial assembly; tighten them fully once the entire structure is aligned.
5. Ensure all connections are secure before using the bed.

If any parts are missing or damaged, please contact DUMOS customer support for assistance.

4. Usage and Operation

This bunk bed is designed for sleeping and light recreational use within its weight limits.

- **Mattress Compatibility:** Use twin-size mattresses with a maximum thickness of 6 inches for both the upper and lower bunks.
- **Upper Bunk Access:** Use the built-in ladder to access the upper bunk. Always face the ladder when climbing up or down.
- **Weight Distribution:** Distribute weight evenly across the sleeping surface. Avoid concentrated weight in one area.
- **Customization:** The house roof design can be decorated with lightweight items like ribbons, string lights, or curtains (not included) to personalize the space. Ensure any decorations are securely attached and do not pose a choking or entanglement hazard.
- **Compact Shelf:** Utilize the integrated compact shelf for placing small essentials like books or a nightlight. Do not overload the shelf.

Image: A close-up of the compact shelf integrated into the house structure and a view of the low-to-ground lower bunk, highlighting accessibility and convenience.

5. Maintenance and Care

Proper maintenance will extend the life and appearance of your DUMOS bunk bed.

- **Cleaning:** Wipe the bed frame with a dry, soft cloth. Avoid using harsh chemicals, abrasive cleaners, or excessive moisture, as these can damage the wood finish.
- **Hardware Check:** Periodically inspect all bolts, screws, and connections. Retighten any loose hardware to maintain structural integrity and safety.
- **Environmental Conditions:** Avoid placing the bed in direct sunlight or near heat sources, which can cause wood to warp or fade. Maintain a stable room temperature and humidity.
- **Moving the Bed:** When moving the bed, lift it rather than dragging it to prevent damage to the frame and floor.

6. Troubleshooting

If you encounter any issues with your DUMOS bunk bed, refer to the following common solutions:

- **Squeaking Noises:** Squeaking often indicates loose hardware. Check and retighten all bolts and screws. Ensure the bed is on a level surface.

- **Instability/Wobbling:** This is typically caused by uneven assembly or loose connections. Disassemble and reassemble the affected sections, ensuring all parts are correctly aligned and tightened. Verify the bed is on a flat, stable floor.
- **Missing Parts:** If you discover missing parts during assembly, do not proceed. Contact DUMOS customer support immediately for replacement parts.
- **Damaged Components:** If any part is damaged upon arrival, do not attempt to assemble or use the bed. Contact DUMOS customer support for a replacement.

7. Specifications

Feature	Detail
Brand	DUMOS
Model Numbers	MCJ-SD01-TOT-WT-A, MCJ-SD01-TOT-WT-B
