Slevoo DD-01

Slevoo Sliding Glass Dog Door Instruction Manual

Model: DD-01 (Medium)

Introduction

This manual provides detailed instructions for the installation, operation, and maintenance of your Slevoo Sliding Glass Dog Door. Please read this manual thoroughly before installation and use to ensure proper function and safety. This product is designed to provide a convenient and secure passage for your pet through a sliding glass door.

Safety Information

- Always supervise your pet during initial use of the dog door.
- Ensure the pet door is securely installed to prevent accidental dislodgement.
- Regularly inspect the flap and frame for any signs of wear or damage. Replace components as necessary.
- Keep children away from the pet door during installation and operation.
- Utilize the included lock kit to secure your home when the pet door is not in use or during periods of absence.
- The tempered glass is designed for safety, but avoid applying excessive force or impact.

Package Contents

Verify that all components are present before beginning installation:

- Slevoo Sliding Glass Dog Door Panel (Medium)
- Upgraded Silicone Flap (pre-installed)
- Secure Lock Kit (includes latch and hardware)
- Installation Hardware (screws, weather stripping)
- Instruction Manual

Product Dimensions and Sizing Guide

The Slevoo Sliding Glass Dog Door is designed to fit standard residential sliding door heights. Ensure your sliding door

track measurements are within the specified range for proper fit.

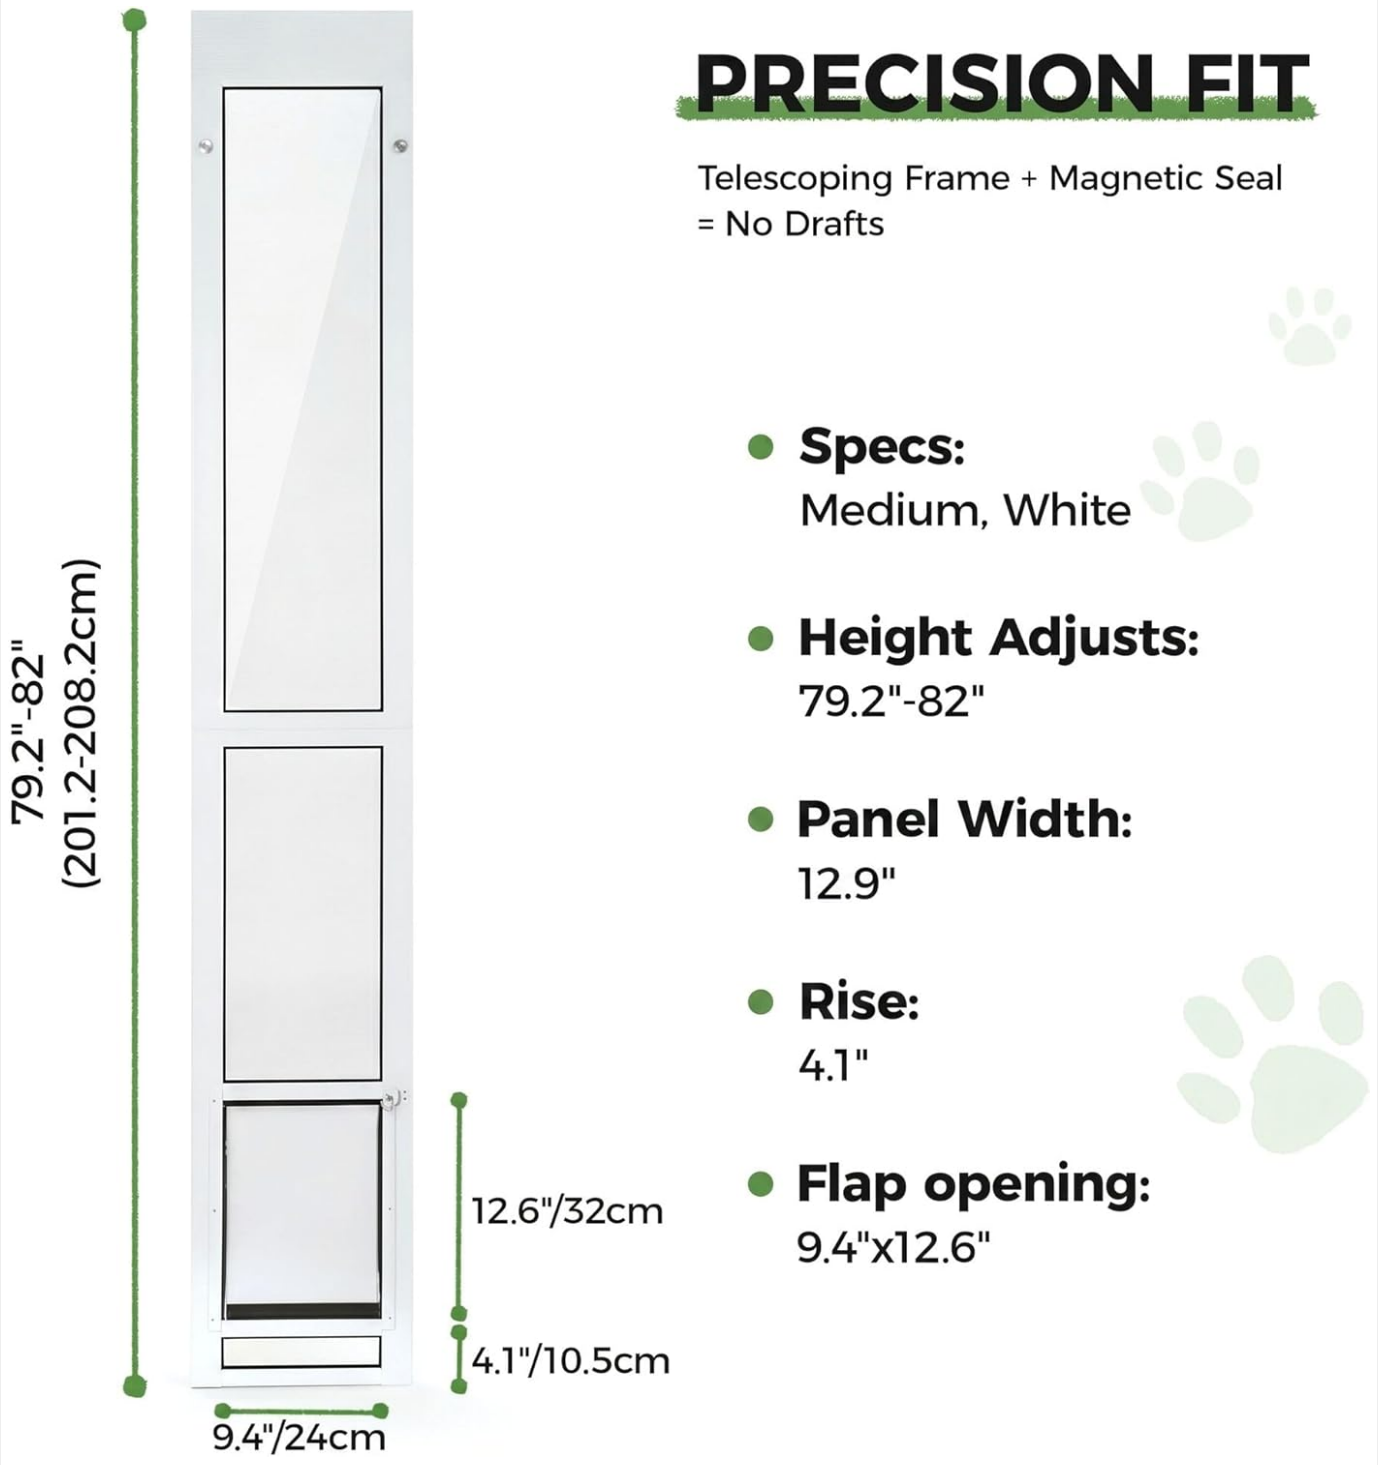

Figure 1: Slevoo Sliding Glass Dog Door Medium Dimensions. Height adjusts from 79.2" to 82" (201.2-208.2cm). Flap opening is 9.4"W x 12.6"H with a 4.1" rise.

To select the appropriate size for your pet, consider their weight and shoulder height:

Figure 2: Pet Sizing Guide. The Medium option supports pets up to 40 lbs with a 9.4"W x 12.6"H flap opening and 4.1" rise.

- **Medium Option:** Flap opening 9.4"W x 12.6"H, 4.1" threshold rise. Supports pets up to 40 lbs.
- **Large Option:** Flap opening 11.4"W x 17.3"H, 4.1"/8.1" threshold rise. Supports pets up to 100–130 lbs.

Setup and Installation

The Slevoo Sliding Glass Dog Door features a no-cut installation design, making it suitable for apartments and rental homes. It is fully removable without permanent modifications.

Installation Steps:

1. **Measure Your Sliding Door:** Measure the height from the inside of the upper track to the inside of the lower track of your sliding glass door. Ensure this measurement falls within the adjustable height range of 79 1/5" to 82".
2. **Prepare the Opening:** Clean the sliding door tracks to ensure a smooth installation.
3. **Insert the Pet Door Panel:** Tilt the top of the pet door panel into the upper track of your sliding glass door. Then,

align the bottom of the panel with the lower track and lower it into place.

4. **Adjust Height:** The panel features a height-adjustable spring mechanism. Gently push up on the top section of the panel to extend it until it fits snugly within the door frame.
5. **Secure the Panel:** Use the provided screws to secure the pet door panel to the sliding door frame, if desired, for added stability. This step is optional but recommended for long-term use.
6. **Install Weather Stripping:** Apply the included weather stripping along the edges of the pet door panel and the sliding glass door to create a weather-tight seal and prevent drafts.
7. **Install Lock Kit:** Attach the secure lock kit (latch and hardware) to your existing sliding door and the pet door panel. This allows you to lock the sliding door to the pet door panel for enhanced security.

Figure 3: Installation Process. The pet door slides into the existing track and adjusts for height.

Operating Instructions

Using the Pet Flap:

The Slevoo Sliding Glass Dog Door features an upgraded silicone flap with magnetic sealing. Your pet can push through the flap to enter or exit. The magnetic edges ensure the flap closes securely behind them, minimizing drafts.

Figure 5: Pets Using the Door. The silicone flap allows pets to pass through easily.

Securing the Door:

When you need to prevent your pet from using the door or to enhance home security, use the provided closing panel and lock kit.

- **Closing Panel:** A rigid panel can be inserted into the flap opening to completely block access.
- **Lock Kit:** Engage the latch from the secure lock kit to lock your main sliding glass door to the pet door panel.

Maintenance

Regular maintenance will ensure the longevity and optimal performance of your Slevoo Sliding Glass Dog Door.

- **Cleaning the Frame:** Wipe the aluminum frame with a damp cloth and mild detergent as needed. Avoid abrasive cleaners.
- **Cleaning the Flap:** The silicone flap can be cleaned with soap and water. Ensure it is dry before re-use.

- **Track Maintenance:** Periodically clean the sliding door tracks to remove dirt and debris that could impede smooth operation.
- **Inspect Seals:** Check the weather stripping and magnetic seals regularly for wear or damage. Replace if necessary to maintain weatherproofing.

Figure 6: Upgraded Silicone Flap. The durable silicone flap is designed for easy cleaning and long-term use.

TROUBLESHOOTING

Common Issues and Solutions:

- **Drafts or Air Leaks:**
  Solution: Ensure the pet door panel is properly seated in the tracks and fully extended. Re-apply or adjust weather stripping along all edges. Check the magnetic seal on the flap for obstructions.
- **Sliding Door Does Not Close Properly:**

Solution: Verify that the pet door panel is correctly aligned and not obstructing the sliding door's path. Check for debris in the tracks.

- **Pet Hesitates to Use the Door:**
  Solution: Gently guide your pet through the flap several times, using treats or positive reinforcement. Hold the flap open initially to help them understand the passage. Never force your pet through the door.
- **Flap Does Not Seal Completely:**
  Solution: Inspect the magnetic strips on the flap and frame for dirt or damage. Clean or replace if necessary. Ensure the flap is not warped or obstructed.
