## IMIPAW 3L

# IMIPAW Automatic Cat Feeder 3L - Instruction Manual

Model: 3L

## 1. INTRODUCTION

---

Thank you for choosing the IMIPAW Automatic Cat Feeder 3L. This device is designed to provide a convenient and reliable feeding solution for your small pets, ensuring they receive meals according to a programmed schedule. This manual will guide you through the setup, operation, and maintenance of your new feeder.

## 2. PRODUCT COMPONENTS

The IMIPAW Automatic Cat Feeder 3L includes the following main components:

- Main Feeder Unit (with control panel)
- Food Storage Container (3L capacity)
- Lid with Desiccant Compartment

- Stainless Steel Feeding Bowl
- Power Adapter (5V/1A)
- USB Cable
- Instruction Manual

The feeder features a dual rotor structure to prevent food from getting stuck and a six-compartment rotor design for consistent portions. The internal tilt angle ensures smooth food delivery.

### 3. SETUP

1. **Assemble the Feeder:** Attach the food storage container to the main feeder unit. Ensure it clicks securely into place.
2. **Attach Feeding Bowl:** Slide the stainless steel feeding bowl onto the designated slot at the base of the main unit.
3. **Power Connection:** Connect the USB cable to the feeder's power port (located at the bottom) and plug the power adapter into a standard electrical outlet. For dual power backup, insert 3 alkaline D batteries (not included) into the battery compartment at the bottom of the unit.

4. **Fill Food Container:** Open the lid of the food storage container and fill it with dry pet food. Ensure the kibble size is between 2-10mm to prevent clogging.
5. **Insert Desiccant:** Place the desiccant packet into the designated compartment under the lid to maintain food freshness. Close the lid securely.

## 4. OPERATING INSTRUCTIONS

### 4.1 Programming Timed Feeding

The feeder allows you to set a personalized feeding schedule for your pet. You can program 1-10 meals per day and 1-15 portions per meal (1 portion is approximately 7-9 grams).

1. **Unlock the Device:** Press and hold the 'Lock' button for 3 seconds to unlock the control panel. If the unit is not operated within 25 seconds, it will automatically lock.
2. **Set Time:** Use the 'Set' button to navigate through time settings (hours, minutes). Use the arrow buttons to adjust values.
3. **Set Meals and Portions:** Use the 'Set' button to select the meal number (M1-M10) and then adjust the desired portions (P1-P15) for each meal using the arrow buttons.
4. **Save Settings:** After setting all desired meals and portions, press and hold the 'Set' button to save your schedule.

## Kibble Never Get Stuck Inside

Suitable for all kinds of kibble under 2-10mm

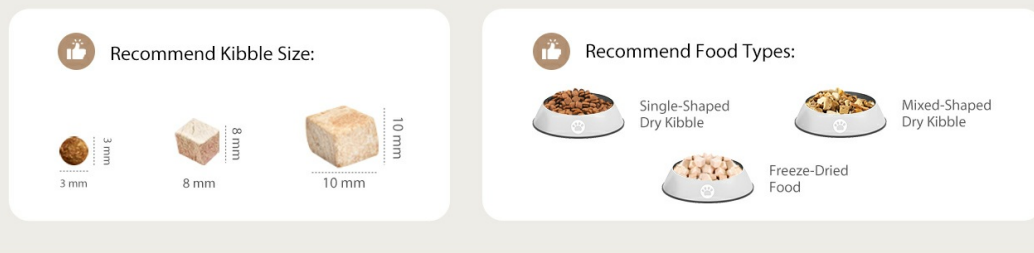

Image 4.1: Visual representation of setting up a daily feeding schedule with multiple meal times and portion sizes.

### 4.2 Manual Feeding

To manually dispense one portion of pet food:

1. **Unlock the Device:** Press and hold the 'Lock' button for 3 seconds.
2. **Dispense Food:** Press the 'FEED' button once. One portion of food will be dispensed instantly. Manual feeding will not interfere with the established feeding schedule.

Video 4.1: This video demonstrates the process of manually dispensing food from the IMIPAW Automatic Cat Feeder by pressing the feed button.

### 4.3 App Control (PetNetizen APP)

The automatic cat feeder can be controlled through the 'PetNetizen' APP for convenient scheduling and monitoring. Remote control is not supported; proximity operation within 10 meters is required.

1. **Download App:** Download the 'PetNetizen' APP from your device's app store.
2. **Connect Device:** Follow the in-app instructions to connect your feeder to the app. This typically involves pressing the 'SET' button on the feeder for 6 seconds in the unlocked state to initiate the linking process.
3. **Schedule Feeding:** Use the app interface to schedule healthy and reasonable feeding times and portions for your pet.
4. **Monitor Feeding Log:** View the automatic pet feeder's feeding log within the app to ensure your pet is eating according to the set schedule.

## 5. MAINTENANCE & CLEANING

Regular cleaning ensures the longevity and hygienic operation of your feeder.

1. **Disassemble:** Unplug the feeder and remove the food storage container, lid, and feeding bowl.
2. **Clean Components:** The stainless steel feeding bowl and the food storage container can be washed with mild soap and water. Ensure all parts are thoroughly rinsed and dried before reassembly.
3. **Wipe Main Unit:** Wipe the main feeder unit with a damp cloth. Do not submerge the main unit in water.
4. **Replace Desiccant:** Replace the desiccant packet every 1-2 months to maintain optimal food freshness.
5. **Reassemble:** Reassemble all components once completely dry.

Image 5.2: Diagram illustrating the anti-clog design with dual rotors and internal tilt angle for smooth food discharge.

## 6. TROUBLESHOOTING

- **Feeder not dispensing food:** Check if the food container is empty. Ensure kibble size is appropriate (2-10mm). Verify power connection or battery level. Check for any food blockages in the dispenser mechanism.
- **Incorrect feeding times/portions:** Re-check your programmed schedule via the control panel or the PetNetizen APP. Ensure the device is unlocked before making changes.
- **App connectivity issues:** Ensure your mobile device is within 10 meters of the feeder. Check your Wi-Fi connection. Try resetting the feeder's network connection by pressing the 'SET' button for 6 seconds.
- **Power outage:** The dual power backup (D batteries) will ensure continuous feeding during a power outage. Check battery levels regularly.

### 6.1 How to Restore Factory Settings

If you encounter persistent issues or wish to clear all settings, you can restore the feeder to its factory defaults.
