## Homiflex MAHfleP9JoT

# Homiflex 26-in-1 Cat Wall Shelves and Tree System Instruction Manual

Model: MAHfleP9JoT

## 1. INTRODUCTION

Welcome to the Homiflex 26-in-1 Cat Wall Shelves and Tree System. This comprehensive pet furniture set is designed to provide your cat with a stimulating and comfortable environment for climbing, jumping, scratching, and resting. This manual provides detailed instructions for safe assembly, installation, and maintenance of your new cat wall system.

### Product Features

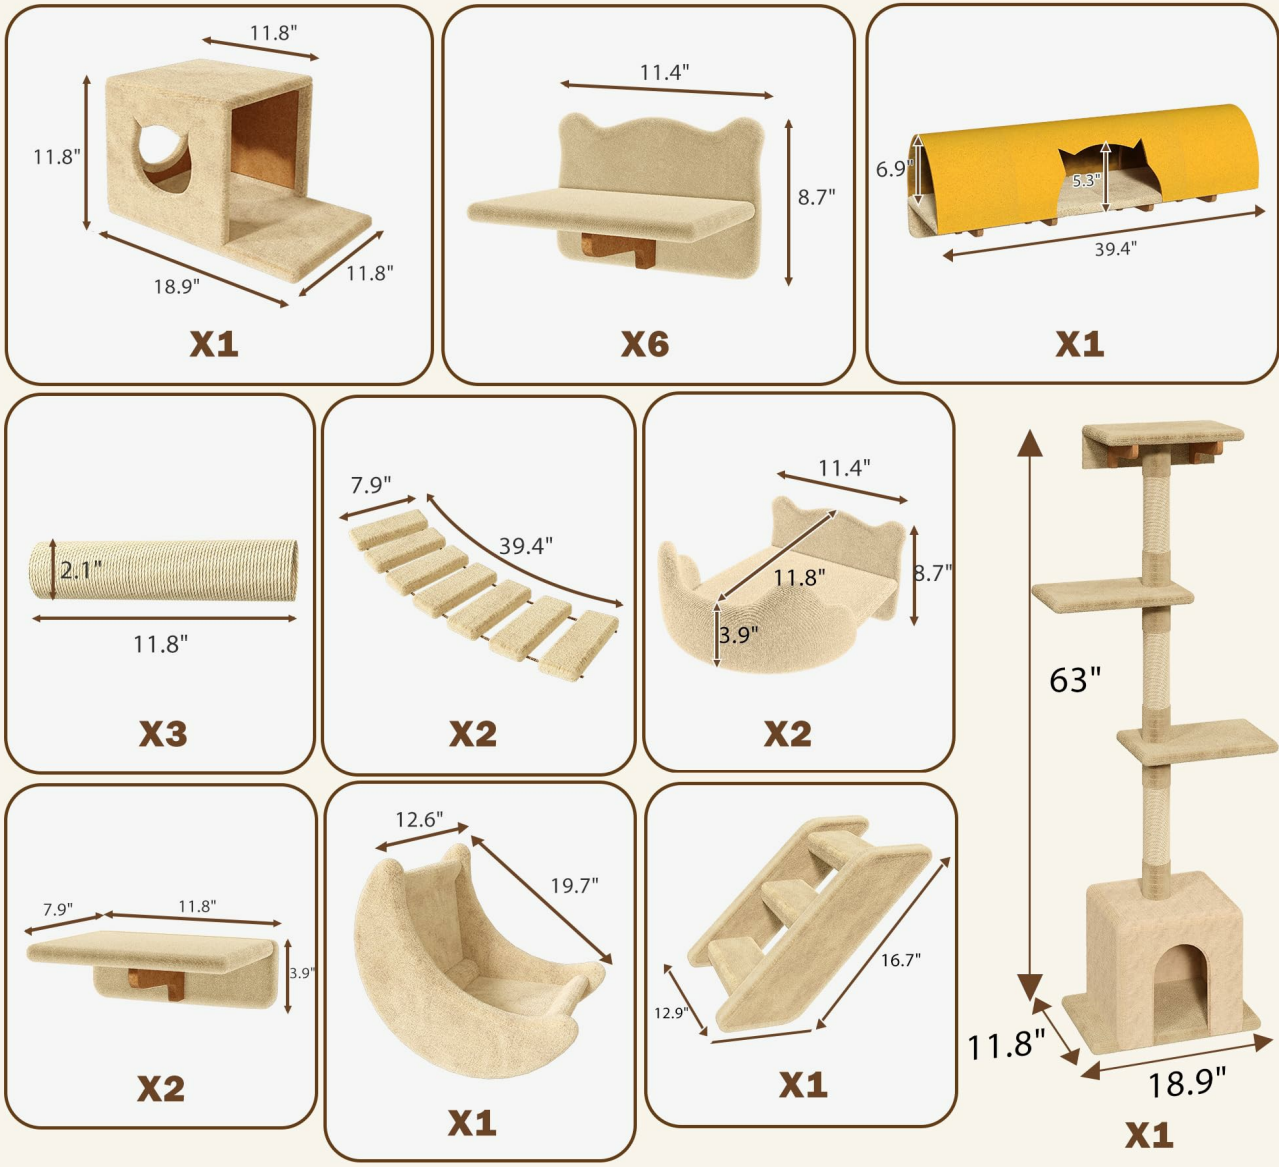

- **Soft Plush Fabric:** Provides a comfortable resting spot. Sturdy brackets and wide platforms ensure secure exploration.
- **26-in-1 Modular Design:** Includes a 63"H cat tower, 40"L tunnel, moon hammock, cat house, scratch post, spacious shelves, and bridge ladder. Customizable layout to suit your space and cat's preferences.
- **Space-Saving:** Wall-mounted design maximizes vertical space, keeping floors clear. Ideal for small apartments or multi-cat households.
- **Spacious & Multi-Cat Friendly:** Accommodates most cats, including Maine Coons. Multiple platforms and a 63"H cat tower offer ample space for play and rest, reducing conflicts in multi-cat homes.
- **Quick & Simple Assembly:** User-friendly design with clear, step-by-step instructions for fast and easy setup.

### Package Contents

The Homiflex 26-in-1 Cat Wall Shelves and Tree System includes:

- 1 x Accessory Kit (mounting hardware)
- 1 x Cat Wall Shelves Set (various components as described in the 26-in-1 feature)
- 1 x Instruction Manual (this document)

# PRODUCT SIZE

**Figure 1:** This image illustrates the individual components of the Homiflex 26-in-1 Cat Wall Shelves and Tree System, including their approximate dimensions and quantities. Components include various shelves, a cat house, a tunnel, scratching posts, and a bridge.

## 2. IMPORTANT SAFETY INFORMATION

- Ensure all components are securely fastened to a sturdy wall stud using appropriate hardware.
- Do not exceed the recommended weight capacity for individual shelves or the entire system. The system is designed to accommodate cats up to 40 lbs per individual shelf.
- Regularly inspect all parts for wear and tear, especially scratching posts and plush surfaces. Replace damaged parts immediately.
- Keep small children away from the assembly area during installation.
- This product is designed for indoor cat use only.
- Do not modify the product in any way not specified in this manual.

# Designed to Accommodate

up  
to **40 LBS**

**Figure 2:** This image demonstrates the weight capacity of the shelves, indicating they are designed to accommodate cats up to 40 lbs.

## 3. SETUP AND INSTALLATION

### Before You Begin

- Unpack all components and verify against the parts list.
- Gather necessary tools: drill, stud finder, level, measuring tape, pencil, screwdriver.
- Choose a suitable wall location. Ensure the wall can support the weight of the cat furniture and your cats.
- Read all instructions carefully before starting assembly.

### Step-by-Step Assembly

1. **Identify Wall Studs:** Use a stud finder to locate and mark the wall studs where the shelves and tower will be mounted. Secure mounting is crucial for stability.
2. **Assemble Individual Components:** Follow the specific instructions provided with each component (e.g., cat

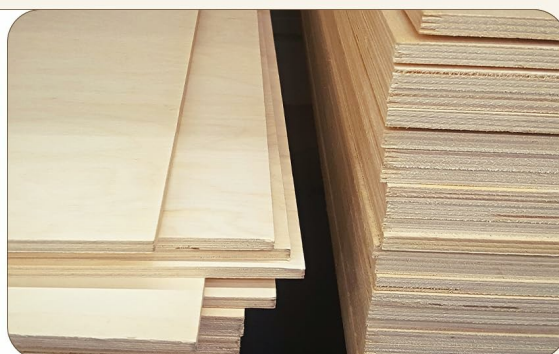

house, tunnel, shelves) to assemble them before mounting to the wall. Ensure all screws are tightened.

3. **Mount the Cat Tower:** Position the 63-inch cat tower base on the floor against the wall. Secure the tower to the wall studs using the provided brackets and screws. Use a level to ensure it is straight.
4. **Install Shelves and Platforms:** Starting from the lowest desired point, mark the positions for the shelves and platforms on the wall, aligning them with studs where possible. Drill pilot holes and secure each shelf using the appropriate mounting hardware. Ensure each piece is level and firmly attached.
5. **Connect Bridges and Steps:** Attach the floating bridge and steps between platforms as desired, ensuring they are taut and securely fastened at both ends. Verify stability before allowing cats to use them.
6. **Install Tunnel and Hammock:** Mount the 40-inch tunnel and moon hammock to the wall according to your preferred layout, ensuring all attachment points are secure.
7. **Final Check:** After all components are installed, gently test each piece for stability and security. Ensure there are no loose parts or sharp edges.

## THOUGHTFULLY DESIGNED FOR YOUR CAT'S CONVENIENCE

### PARTICLE BOARD

Made with sustainable, safe materials to ensure total safety during playtime

### SOFT PLUSH COVERING

Through the densely woven plush fabric, your cat experiences unmatched coziness

### REINFORCED SISAL ROPE

The durable sisal rope is strong enough to withstand constant scratching, satisfying your kittens instincts

**Figure 3:** This image details the construction materials: durable particle board for structural integrity, soft plush fabric for comfort, and reinforced sisal rope for scratching posts, designed to withstand cat activity.

**Figure 4:** This image illustrates key features of the cat tree, including a jumping platform, soft fabric material, a durable woven scratching post, and a cozy base cat house.

## 4. OPERATION AND USAGE

The Homiflex Cat Wall Shelves and Tree System provides a dynamic environment for your cat.

- **Encouraging Use:** Place treats or catnip on different levels to encourage your cat to explore the new structure.
- **Scratching:** The sisal-wrapped posts are designed for scratching. Redirect your cat to these posts if they scratch other furniture.
- **Resting:** The plush-covered platforms, cat house, and moon hammock offer comfortable spots for napping and observing their surroundings.
- **Climbing and Jumping:** The multi-level design, steps, and bridge allow for natural climbing and jumping behaviors, promoting exercise and mental stimulation.

# WALL-MOUNTED CAT HOUSE

Allows your cat to jump, explore, & relax easily

**Figure 5:** This image shows several cats actively using the wall-mounted system, illustrating how they can jump, explore, and relax on the various platforms and the bridge.

## MULTI-PLATFORM CAT ZONE FOR PEACEFUL RESTING

**Figure 6:** This image displays cats enjoying the multi-platform cat zone, featuring a tunnel and various shelves, providing peaceful resting and play areas.

### 5. MAINTENANCE AND CARE

- **Cleaning:**
  - For plush surfaces, use a vacuum cleaner with a brush attachment to remove loose fur and dust.
  - Spot clean any soiled areas with a mild pet-safe cleaner and a damp cloth. Avoid excessive moisture.
  - Allow to air dry completely before your cat uses the area.
- **Inspection:**
  - Periodically check all screws and mounting hardware for tightness. Retighten as necessary.
  - Inspect sisal scratching posts for significant wear. While designed to be durable, heavy use may require replacement of individual posts over time.
  - Examine all platforms and structural components for any signs of damage or instability.
- **Longevity:** Regular cleaning and inspection will extend the life of your cat wall system and ensure continued

safety for your pets.

## 6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Shelves feel wobbly or unstable	Loose mounting screws; not mounted into a stud; insufficient anchors	Ensure all screws are tightened. Verify that shelves are mounted into wall studs. Use appropriate heavy-duty wall anchors if mounting into drywall without a stud (consult a professional if unsure).
Cat is not using the system	Unfamiliarity; preference for other areas; system not appealing	Place treats, catnip, or favorite toys on the shelves to encourage exploration. Spend time with your cat near the system. Ensure the system is easily accessible and not in a high-traffic, noisy area.
Scratching posts are fraying quickly	Normal wear and tear; very active scratching	Fraying is normal for sisal posts. Continue to encourage use. If severely damaged, individual posts may be replaceable (contact Homiflex support for parts).
Plush fabric is shedding or worn	Normal use; cat grooming	Vacuum regularly. Minor shedding is normal. If large areas are worn, consider adding a soft blanket or mat to the platform for comfort.

## 7. PRODUCT SPECIFICATIONS

Feature	Detail
Model Number	MAHfleP9JoT
Product Dimensions (Overall)	102.36"L x 11.81"W x 78.74"H
Item Weight	68.78 Pounds
Material	Cotton Blend, Engineered Wood
Mounting Type	Wall Mount
Number of Levels	9
Color	Beige
Recommended Pet Type	Cat
Specific Uses	Climbing, Jumping, Running, Scratching

Feature	Detail
Recommended Use Environment	Indoor
Manufacturer	Homiflex
