

iCan GJS-D013

iCAN Monitor Light Bar GJS-D013 User Manual

Model: GJS-D013

1. INTRODUCTION

Thank you for choosing the iCAN Monitor Light Bar GJS-D013. This product is designed to provide optimized, flicker-free lighting for your workspace, reducing eye strain during extended use. Its adjustable color temperature and brightness, along with convenient USB power and wireless remote control, make it suitable for various tasks and environments, from gaming to office work.

Please read this manual thoroughly before installation and operation to ensure proper use and to maximize the product's lifespan.

2. SAFETY INFORMATION

- Ensure the power source is 5V USB. Using an incompatible power source may damage the device.
- Do not disassemble or modify the light bar. This may void the warranty and pose safety risks.
- Keep the device away from water and high humidity environments.
- Avoid direct eye exposure to the light source for prolonged periods.
- Clean the light bar with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- This product is intended for indoor use only.

3. PACKAGE CONTENTS

Please check the package contents upon opening. If any items are missing or damaged, contact customer support.

- iCAN Monitor Light Bar (GJS-D013)
- Wireless Remote Control
- USB Power Cable
- User Manual (this document)

4. PRODUCT OVERVIEW

Familiarize yourself with the components of your iCAN Monitor Light Bar.

Figure 4.1: Front view of the iCAN Monitor Light Bar, showing the light source and main body.

Figure 4.2: Top-down view of the light bar, highlighting the integrated mounting clip for monitor attachment.

Figure 4.3: Side view of the light bar, illustrating the USB power input port.

5. SETUP

The iCAN Monitor Light Bar features a tool-free installation process.

1. **Attach to Monitor:** Gently place the light bar's mounting clip onto the top edge of your monitor. Ensure the light bar is centered and stable. The clip is designed to fit most monitor thicknesses.

Figure 5.1: The light bar securely mounted on top of a monitor.

2. **Connect Power:** Connect the provided USB power cable to the USB port on the light bar. Plug the other end of the USB cable into an available USB port on your computer, monitor, or a 5V USB power adapter (not included).

Figure 5.2: Close-up of the USB cable being connected to the light bar's power input.

3. **Positioning:** Adjust the angle of the light bar to direct illumination onto your desk area, minimizing glare on the screen.

6. OPERATING INSTRUCTIONS

The iCAN Monitor Light Bar is controlled via its wireless remote.

Figure 6.1: The wireless remote control for adjusting light settings.

- **Power On/Off:** Press the power button on the remote control to turn the light bar on or off.
- **Adjust Brightness:** Use the brightness adjustment buttons (usually marked with '+' and '-') on the remote to increase or decrease the light intensity.
- **Adjust Color Temperature:** Use the color temperature adjustment buttons (often marked with a sun icon or 'K' for Kelvin) to cycle through or fine-tune the color temperature from warm (2900K) to cool white (6000K).
- **Automatic Mode (if available):** Some models may feature an automatic light sensor. Refer to the remote control's specific markings for this function.

7. MAINTENANCE

Proper maintenance ensures the longevity and performance of your light bar.

- **Cleaning:** Disconnect the power before cleaning. Use a soft, dry, lint-free cloth to wipe the surface of the light bar and remote control. Do not use liquid cleaners, sprays, or abrasive materials.
- **Storage:** If storing the light bar for an extended period, disconnect it from power and store it in a cool, dry place, away from

direct sunlight.

8. TROUBLESHOOTING

Refer to the following table for common issues and their solutions.

Problem	Possible Cause	Solution
Light bar does not turn on.	No power or loose connection.	Ensure the USB cable is securely connected to both the light bar and a working USB power source. Try a different USB port or power adapter.
Remote control is not working.	Dead batteries or interference.	Replace the batteries in the remote control. Ensure there are no obstructions between the remote and the light bar.
Light flickers or is unstable.	Insufficient power or faulty cable.	Ensure the USB power source provides sufficient current (e.g., a dedicated USB wall adapter). Try a different USB cable.
Cannot adjust brightness/color temperature.	Remote control issue or light bar malfunction.	Check remote batteries. Ensure the remote is within range and pointed towards the light bar. If the issue persists, contact customer support.

9. SPECIFICATIONS

Model:	GJS-D013
Brand:	iCan
Color Temperature:	2900K-6000K (Adjustable)
Input Voltage:	5V USB
Rated Power:	3.5W
Material:	Aluminum Alloy + ABS
Product Weight:	0.56 kg
Product Dimensions (L x W x H):	42 x 12.4 x 4 cm
Color:	Black
