SEDETA 2 person desk

SEDETA 94.5-inch Two-Person Gaming and Office Desk Instruction Manual

Model: 2 Person Desk

INTRODUCTION

This manual provides comprehensive instructions for the assembly, operation, maintenance, and troubleshooting of your SEDETA 94.5-inch Two-Person Gaming and Office Desk. This versatile desk is designed to accommodate two users simultaneously, offering ample workspace and integrated features for an enhanced experience. Key features include a spacious desktop, a two-layer storage shelf, an RGB LED light strip, a recessed power strip with USB ports, a keyboard tray, and a monitor stand. The desk is constructed with P2 degree engineered wood and a sturdy metal frame, ensuring durability and stability.

Figure 1: Overview of the SEDETA 94.5-inch Two-Person Gaming and Office Desk, showcasing its spacious design and integrated features.

IMPORTANT SAFETY INFORMATION

- Always assemble the desk on a flat, stable surface to prevent tipping or instability.
- Do not exceed the maximum weight limit of **325 lbs (147 kg)**. Overloading the desk can lead to structural damage or injury.
- Exercise caution with sharp edges and components during assembly and use. Wear appropriate protective gear if necessary.
- Strictly follow all provided assembly instructions to ensure safe and correct installation.
- Keep all small parts and packaging materials away from children to prevent choking hazards.

SETUP AND ASSEMBLY

The SEDETA desk is designed for straightforward assembly, with clear instructions and necessary tools included. However,

due to its size and number of components, assembly can be time-consuming. It is highly recommended to have two people for assembly.

Unpacking

- The desk is packaged efficiently into a compact box. While heavy, it is not awkward to move.
- For easier unpacking, lay the box flat and carefully cut the cardboard along the edges with a shallow box-cutting blade. This prevents components from scattering.
- All wooden corners are protected during shipping.
- Parts bags are designed for easy access to components. If a label is missing, use the provided diagrams to identify parts.

Assembly Process

- **Location:** It is strongly recommended to assemble the desk in its final intended location. The desk is very long and heavy once assembled, making relocation difficult. Consider assembling the metal frame first, then moving it into place before attaching the wooden panels.
- **Modular Design:** The keyboard tray and monitor stand can be installed on either side of the desk to suit your preference. Plan your layout before beginning assembly.
- **Step-by-Step:** Follow the provided instruction manual carefully. The steps are optimized for efficient construction.
- **Fasteners:** Thread all bolts into their respective holes loosely first to hold components in place, then tighten everything securely once all parts are aligned.
- **Keyboard Tray:** This component may require extra attention during assembly. If you are working alone, consider using masking tape to hold the sliding rails in place while inserting screws. Ensure screw holes align correctly; some parts may appear identical but have slight variations in hole placement.
- **Adjustable Leg Pads:** The desk includes adjustable leg pads to ensure stability on uneven surfaces, including carpets. Adjust these as needed after assembly to level the desk.

4 Ways to Use

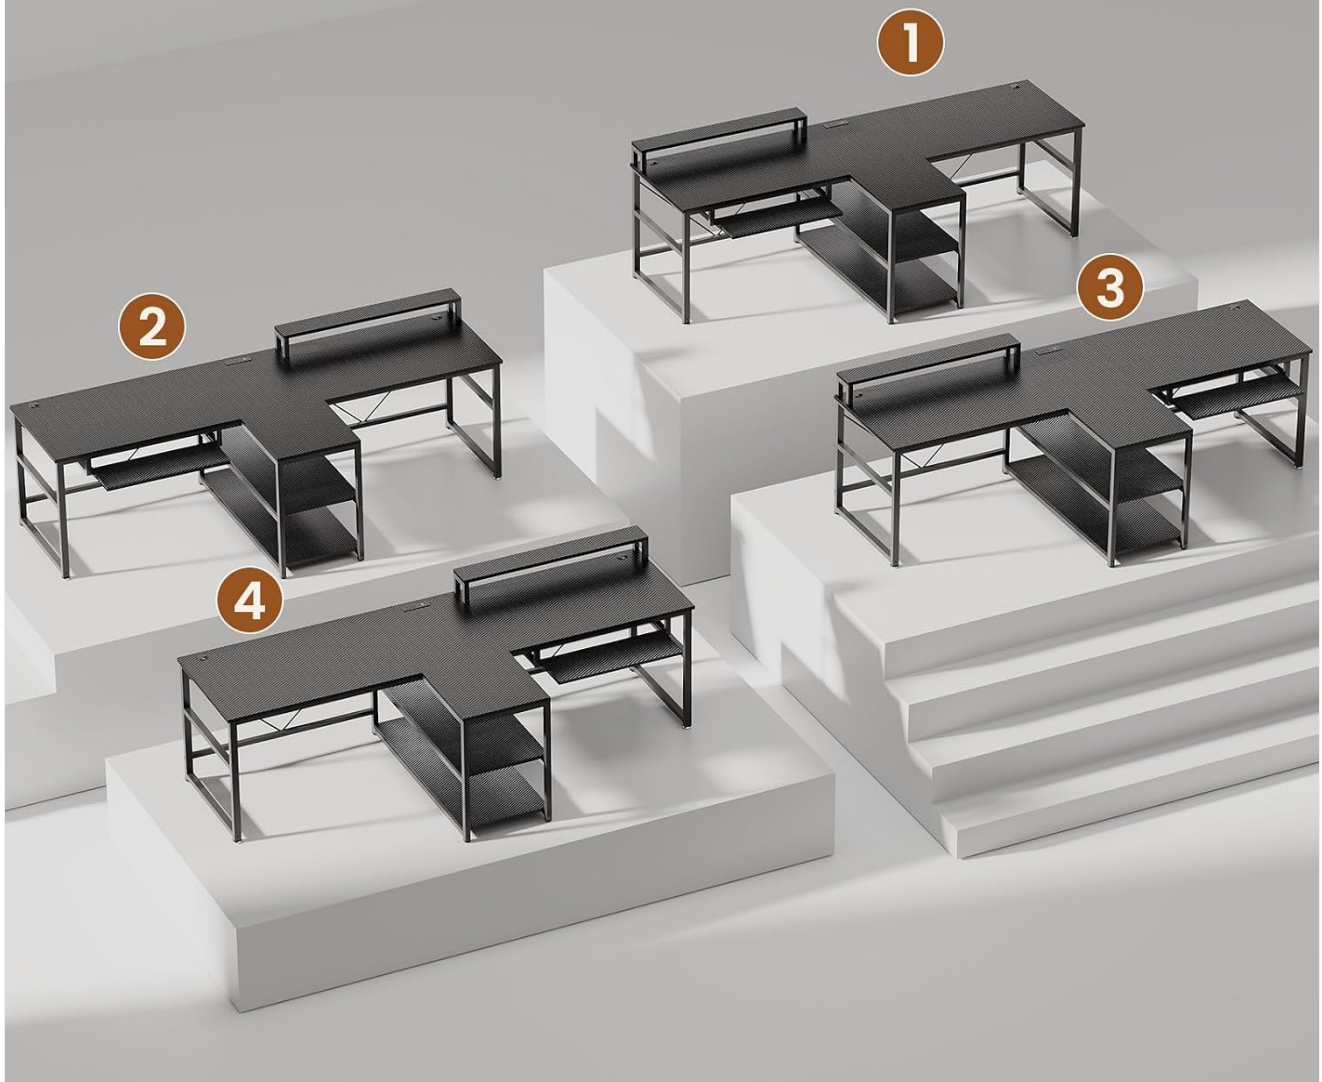

Figure 2: The modular design allows for four different configurations, adapting to various office or gaming setups.

Figure 3: Adjustable leg pads ensure desk stability on uneven floors.

OPERATING INSTRUCTIONS

LED Light Strip

The SEDETA desk features an RGB LED light strip to enhance your gaming or working atmosphere. Control the lights via a dedicated mobile application or the integrated key control.

- **Color Options:** Choose from over 60,000 colors and 29 flashing modes.
- **Music Sync:** The built-in sensitivity-adjustable microphone allows the LED lights to change color with the rhythm of sound and music.
- **Timer Function:** Utilize the timer function for automated lighting control.

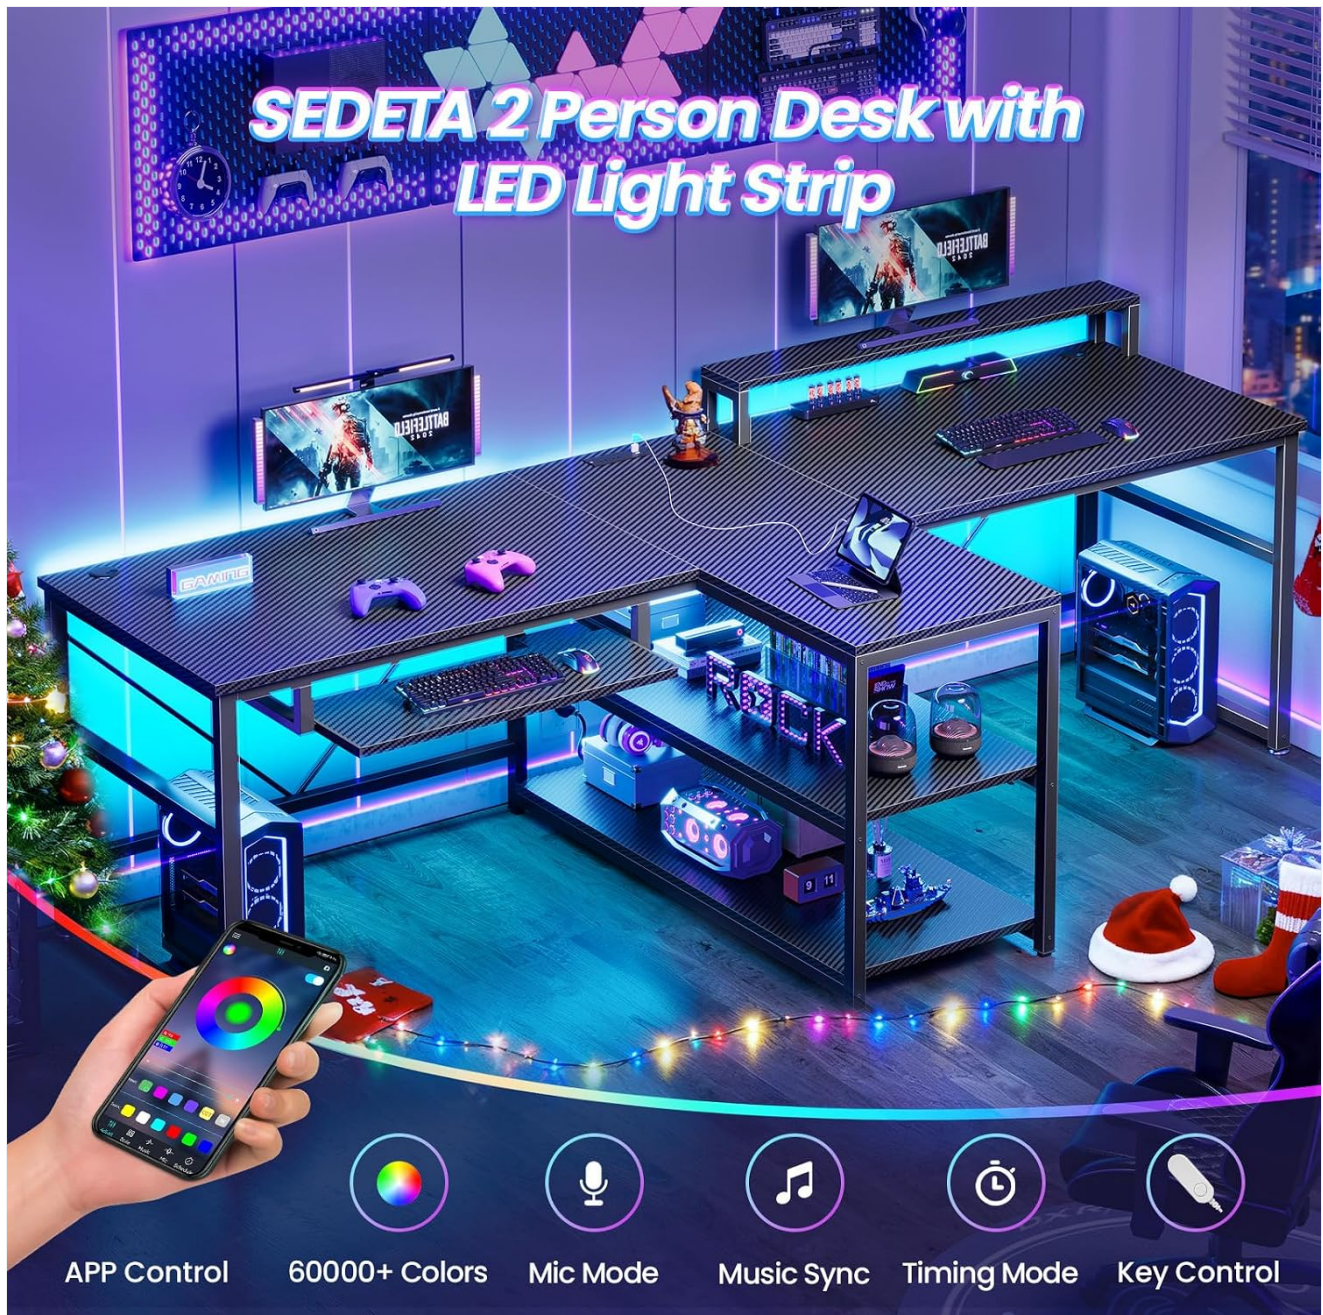

Figure 4: The RGB LED light strip can be controlled via an app, offering numerous colors, music sync, and timer functions.

Recessed Power Strip

The desk includes a convenient recessed power strip to power your devices directly from your workspace.

- **Outlets:** Equipped with 2 AC outlets (120V/12A).
- **USB Charging:** Features 1 USB-A port (5V/2A) and 1 USB-C port (5V/2A) for charging up to two devices simultaneously.

Keyboard Tray

The extra-large keyboard tray is designed to accommodate most standard keyboards and mice, freeing up desktop space.

- Ideal for 108-key or 87-key keyboards plus a mouse.
- Slides smoothly for comfortable typing and storage.

21.7" Extra Large Keyboard Tray

Perfect for any **108**-key or **87**-key keyboard+mouse

Figure 6: The spacious keyboard tray provides an ergonomic setup for keyboard and mouse, reducing strain.

Monitor Stand

The monitor stand elevates your display(s) to an optimal viewing height, promoting better posture and reducing neck and back tension.

- Designed to comfortably hold two monitors.
- Contributes to an ergonomic workstation setup.

Cable Management

Integrated cable grommets help organize and route cables, keeping your desktop tidy.

Figure 7: Cable grommets facilitate organized cable routing.

MAINTENANCE AND CARE

Proper care will ensure the longevity and appearance of your SEDETA desk.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that could damage the finish.
- **Surface Protection:** The desk surface is made of P2 degree engineered wood with high resistance to scratches and friction. It also features a water-resistant finish. However, it is advisable to use coasters for drinks and pads for heavy or sharp objects to prevent potential damage.
- **Structural Integrity:** Periodically check all bolts and fasteners to ensure they remain tight. Re-tighten if necessary to maintain desk stability.
- **LED Strip:** If the LED strip adhesive weakens over time, reinforcement with additional adhesive may be required.

Figure 8: The desk surface is designed with water resistance for easy cleaning and durability.

TROUBLESHOOTING

Assembly Challenges

- **Misaligned Holes:** If screw holes do not align perfectly, double-check that you are using the correct parts for each step. Some components may appear similar but have slight variations. Gentle manipulation may be required, or contact support if significant misalignment prevents assembly.
- **Missing Screw Holes:** In rare cases, some wooden panels might lack pre-drilled exit holes. If this occurs, carefully mark the correct position and use a small drill bit (smaller than the screw diameter) to create a pilot hole. Exercise extreme caution to avoid damaging the material.
- **Gaps Between Panels:** Ensure all connecting bolts are fully tightened. If a gap persists, re-check the alignment of the frame and panels.

LED Light Strip Issues

- **Lights Not Working:** Check all connections to the power source and the LED controller. Ensure the power strip is receiving power. If the LED strip is defective, contact customer support for assistance.
- **Adhesive Failure:** If the LED strip adhesive loses its effectiveness, you may need to reinforce it with stronger

adhesive tape or clips.

Power Strip Issues

- **No Power:** Verify that the power strip's main plug is securely connected to a functioning wall outlet. Check for tripped circuit breakers.
- **USB Charging Not Working:** Ensure the device is properly connected. Try a different USB cable or device to rule out cable/device issues.

PRODUCT SPECIFICATIONS

Brand	SEDETA
Model Number	2 person desk
Product Dimensions (D x W x H)	19.7"D x 94.5"W x 30"H (50cm x 240cm x 76cm)
Item Weight	68 Pounds (30.8 kg)
Maximum Weight Recommendation	325 Pounds (147 kg)
Material	Engineered Wood (P2 Grade), Metal
Finish Type	Powder Coated
Color	Carbon Fiber Black
Special Features	Built-In USB Outlet, LED Lights, Keyboard Tray, Monitor Stand, Storage Shelves
Number of Shelves	2 (open shelves)
Required Assembly	Yes
