Panana BOCDLYXMJ

Panana 37-inch Standing Desk Converter Instruction Manual

Model: BOCDLYXMJ

INTRODUCTION

Thank you for choosing the Panana 37-inch Standing Desk Converter. This height-adjustable workstation is designed to transform your existing desk into an ergonomic sit-to-stand setup, promoting better posture and productivity. This manual provides essential information for safe assembly, operation, and maintenance of your new desk converter.

SAFETY INFORMATION

- Read all instructions carefully before assembly and use.
- Do not exceed the maximum weight capacity of 33 lbs (15 kg). Overloading can cause instability and damage.
- Ensure the desk converter is placed on a stable, level surface.
- Keep hands and fingers clear of moving parts during height adjustment to prevent pinching.
- Distribute weight evenly on the desktop and keyboard tray.
- Do not allow children to operate or play with the desk converter.
- Regularly check all fasteners to ensure they are tight.

PACKAGE CONTENTS

The Panana Standing Desk Converter arrives almost fully assembled. Please verify that all components are present and undamaged.

- Main Desk Converter Unit (pre-assembled)
- Keyboard Tray
- Mounting Hardware for Keyboard Tray
- Instruction Manual (this document)

SETUP AND ASSEMBLY

The Panana Standing Desk Converter requires minimal assembly. Follow these steps to prepare your workstation:

1. **Unpack the Unit:** Carefully remove the main desk converter unit and the keyboard tray from its packaging.
2. **Attach the Keyboard Tray:**
 - Locate the pre-drilled holes on the underside of the main unit and on the keyboard tray.
 - Align the keyboard tray with the attachment points.
 - Secure the keyboard tray using the provided mounting hardware (screws). Ensure it is firmly attached.
3. **Position on Desk:** Place the assembled desk converter on your existing desk. Ensure it is centered and stable.
4. **Arrange Equipment:** Place your monitors, laptop, and other office essentials on the top platform. Position your keyboard and mouse on the lower tray.

Height Adjustable

Easy to use with Simple assembly required
Easy to Use with Simple Assembly Process

OPERATING INSTRUCTIONS

The Panana Standing Desk Converter features a gas spring lift system for smooth height adjustments.

1. Adjusting Height:

- To raise the desk: Gently squeeze the adjustment levers located on the sides of the top platform. While holding the levers, lift the platform to your desired standing height. Release the levers to lock it in place.
- To lower the desk: Gently squeeze the adjustment levers. While holding the levers, apply slight downward pressure to lower the platform to your desired sitting height. Release the levers to lock it in place.

2. Optimal Ergonomics:

- When standing, ensure your monitor is at eye level and your elbows are at a 90-degree angle when typing.
- When sitting, maintain good posture with your feet flat on the floor and your back supported.

MAINTENANCE

To ensure the longevity and proper function of your Panana Standing Desk Converter, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the surfaces with a dry cloth. Avoid abrasive cleaners or harsh chemicals that may damage the finish.
- **Inspection:** Periodically check all screws and connections to ensure they remain tight. Tighten any loose fasteners as needed.
- **Movement:** Ensure the gas spring mechanism operates smoothly. If you notice any stiffness, ensure no obstructions are present.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Desk is difficult to raise or lower.	Overloaded beyond weight capacity. Lever not fully engaged. Obstruction in the lifting mechanism.	Remove excess weight; ensure total load is under 33 lbs. Ensure both levers are squeezed completely. Check for any objects obstructing the moving parts.
Desk feels unstable or wobbly.	Loose fasteners. Uneven surface. Weight not evenly distributed.	Tighten all assembly screws. Place the converter on a flat, stable desk surface. Rearrange items to distribute weight evenly.
Keyboard tray is loose.	Mounting screws are loose.	Tighten the screws securing the keyboard tray to the main unit.
