- **Photo and Wi-Fi Button:** Press to take photos or activate Wi-Fi for smartphone connection.
- **Magnetic Charging Contacts/Ports:** For secure and effortless charging.
- **Indicator Light:** Shows camera status (on, recording, charging).
- **Bottom Cover Area:** Contains the TF card slot, USB-C port, and reset button.

The camera's compact size and light weight make it an ideal portable companion for capturing moments.

Setup

1. Charging the Camera

Before first use, fully charge the camera. Connect the included USB-C cable to the camera's USB-C port and a power source (e.g., computer, USB wall adapter). The indicator light will show charging status.

The camera features a USB-C port for quick and convenient charging and data transfer.

2. Inserting the MicroSD Card

The camera comes with a pre-installed 64GB microSD card. To access the slot, open the bottom cover. Gently insert the microSD card with the gold contacts facing down until it clicks into place. Ensure the card is properly seated for recording.

The camera supports a 64GB microSD card for ample storage and intelligent loop recording.

3. Powering On/Off

Press and hold the Power/Record button for a few seconds to turn the camera on or off.

4. Connecting to the App (Wi-Fi)

To connect your camera to your smartphone for live preview and file transfer:

1. Download the dedicated app from your smartphone's app store.
2. Turn on the camera's Wi-Fi by pressing the Photo/Wi-Fi button.
3. On your smartphone, go to Wi-Fi settings and connect to the camera's Wi-Fi network (SSID and password usually found on the camera screen or manual).
4. Open the app to view live footage, control recording, and transfer files.

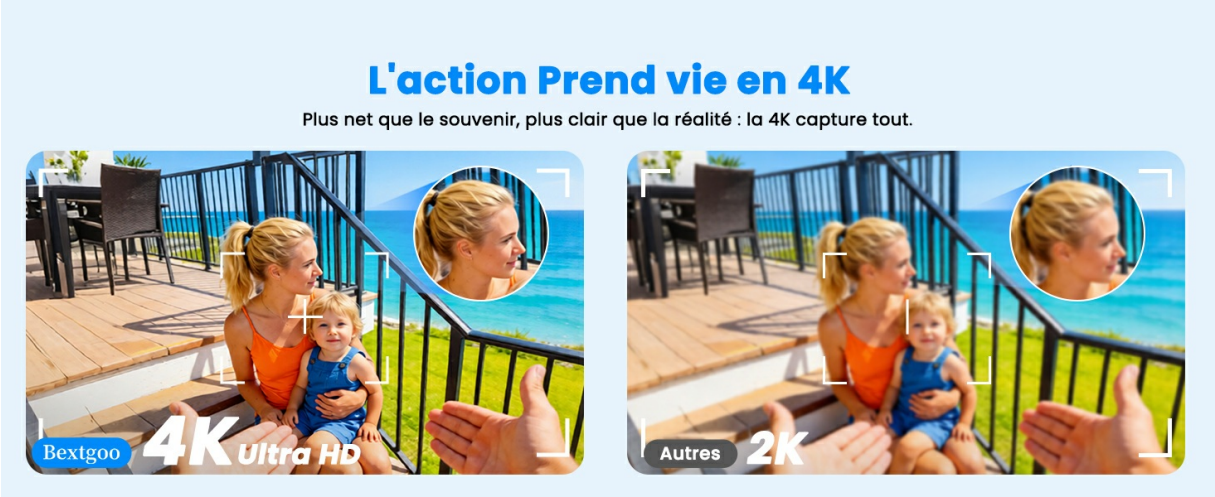

Wirelessly transfer your captured photos and videos to your smartphone instantly for viewing and sharing.

Operating the Camera

Maintenance

1. Water and Weather Resistance

The camera is IP65 rated, making it resistant to dust and low-pressure water jets. It is suitable for use in rain, snow, and splashes. It can operate in extreme temperatures from -20°C to 60°C.

- **Resistant to Rain and Splashes:** Ideal for outdoor activities in wet conditions.
- **Resistant to Cold and Snow:** Functions reliably in snowy environments.
- **Resistant to Heat and Dust:** Suitable for desert or hot, dusty conditions.

The camera's IP65 rating ensures protection against various weather conditions, from water splashes to extreme temperatures.

2. Cleaning

Use a soft, dry cloth to clean the camera body. For the lens, use a specialized lens cleaning cloth and solution to avoid scratches.

Troubleshooting

If you encounter issues with your Bextgoo 4K Mini Action Camera, refer to the following common problems and solutions:

- **Camera does not power on:**
  Ensure the battery is charged. Connect the camera to a power source using the USB-C cable. If it still doesn't turn on, try pressing the reset button located under the bottom cover.
- **Cannot record video/take photos:**
  Check if the microSD card is properly inserted and has sufficient free space. The camera supports loop recording, so older files may be overwritten if the card is full. Ensure the camera is not in Wi-Fi mode if you intend to record.
- **Wi-Fi connection issues:**
  Make sure the camera's Wi-Fi is enabled. Restart both the camera and your smartphone. Ensure you are within range of the camera's Wi-Fi signal.
- **Poor image/video quality:**
  Ensure the lens is clean and free from smudges. Check that you are recording in 4K resolution in the settings. For stable footage, ensure EIS is enabled.

- **Short battery life:**
  Battery life can vary based on usage and recording settings (e.g., 4K recording consumes more power). Ensure the camera is fully charged before use. Operating in extreme cold can also reduce battery performance.
