Zomolither 4G+64G

Zomolither Android 15 Car Stereo for Honda CRV (2007-2011) - User Manual

Model: 4G+64G

1. INTRODUCTION

Thank you for choosing the Zomolither Android 15 Car Stereo. This 9-inch Incell Touchscreen Head Unit is designed to enhance your driving experience with advanced features such as Wireless CarPlay, Android Auto, Bluetooth 5.0, GPS Navigation, WiFi, FM/RDS Radio, Mirror Link, and support for Steering Wheel Control (SWC) and AHD Backup Camera. This manual provides detailed instructions for installation, setup, and operation to ensure optimal performance and user satisfaction.

2. SAFETY INFORMATION

- Always ensure the vehicle is parked safely before operating the car stereo.
- Do not attempt to install or repair the unit if you are not qualified. Seek professional assistance.
- Avoid prolonged exposure to direct sunlight or extreme temperatures.
- Keep the unit away from water and moisture.
- Ensure all wiring is correctly connected to prevent damage to the unit or vehicle.

3. PACKAGE CONTENTS

Please check the package for the following items:

- 1 x Car Stereo
- 1 x Power Cable
- 1 x GPS Antenna
- 1 x Rear Camera Input Cable
- 1 x RCA Cable
- 2 x USB Cable

- 1 x User Manual

4. INSTALLATION

Installation of the Zomolither Android 15 Car Stereo requires careful attention to wiring and panel removal. It is recommended to have this process performed by a professional installer.

4.1 Wiring Diagram

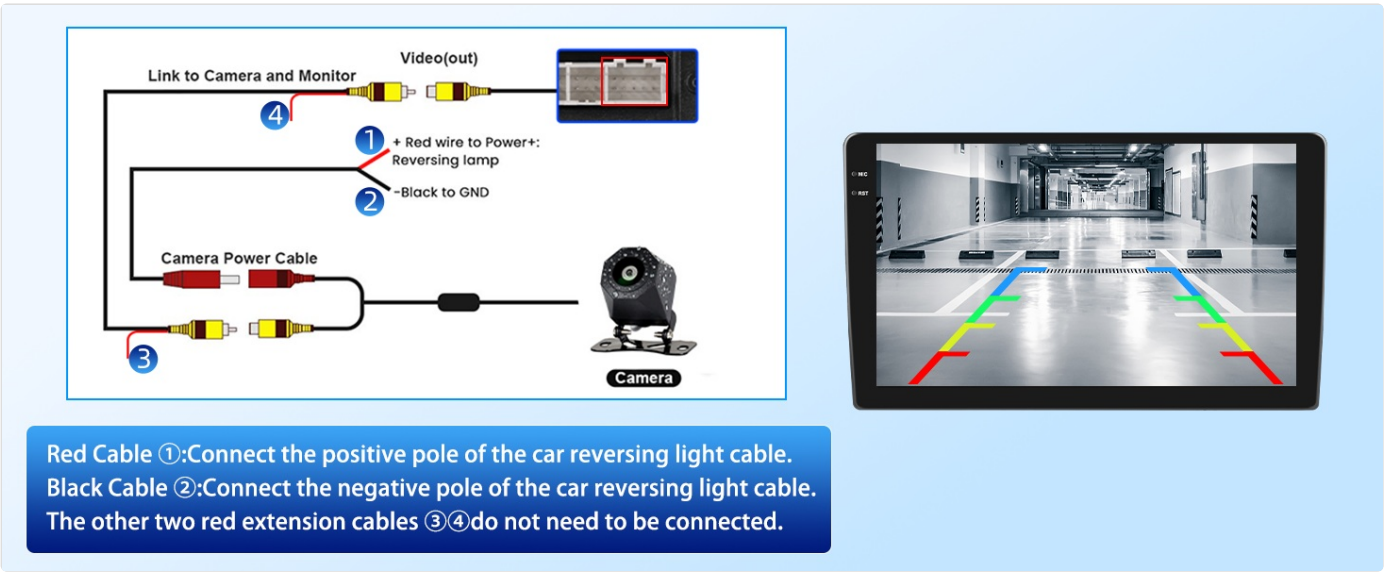

Image: Detailed wiring diagram for connecting the car stereo, including power, speakers, and accessories.

4.2 Installation Process Overview

The installation typically involves removing the existing car stereo, connecting the new unit's wiring harness, and securing the new head unit into the dashboard. Ensure all connections are firm and insulated.

4.3 Installation Video Guide

For a visual guide on the installation process, please refer to the video below. This video demonstrates the steps for installing a car stereo in a Honda CRV 2007-2011 model.

Video: Installation guide for a car stereo in a Honda CRV 2007-2011, demonstrating panel removal and unit placement.

5. SETUP & INITIAL CONFIGURATION

After installation, perform the initial setup to customize your car stereo. Many settings can be adjusted through the 'Settings' menu.

5.1 General Settings Overview

The following video provides a comprehensive overview of various settings, including language, time, Wi-Fi, display brightness, touch calibration, key learning, and more.

Video: Detailed instructions on adjusting various settings such as language, time, Wi-Fi, display, touch calibration, and key learning on the Android car stereo.

5.2 CAN Settings

If your vehicle supports CAN-Bus, configure the CAN settings under 'Factory Setup' (password 1234) to ensure proper communication between the stereo and your car's systems.

6. OPERATING INSTRUCTIONS

6.1 Wireless CarPlay & Android Auto

Connect your smartphone wirelessly to access navigation, music, calls, and messages directly on the car stereo display. Ensure Bluetooth is enabled on both devices.

Wireless Carplay & Android Auto & Mirror Link

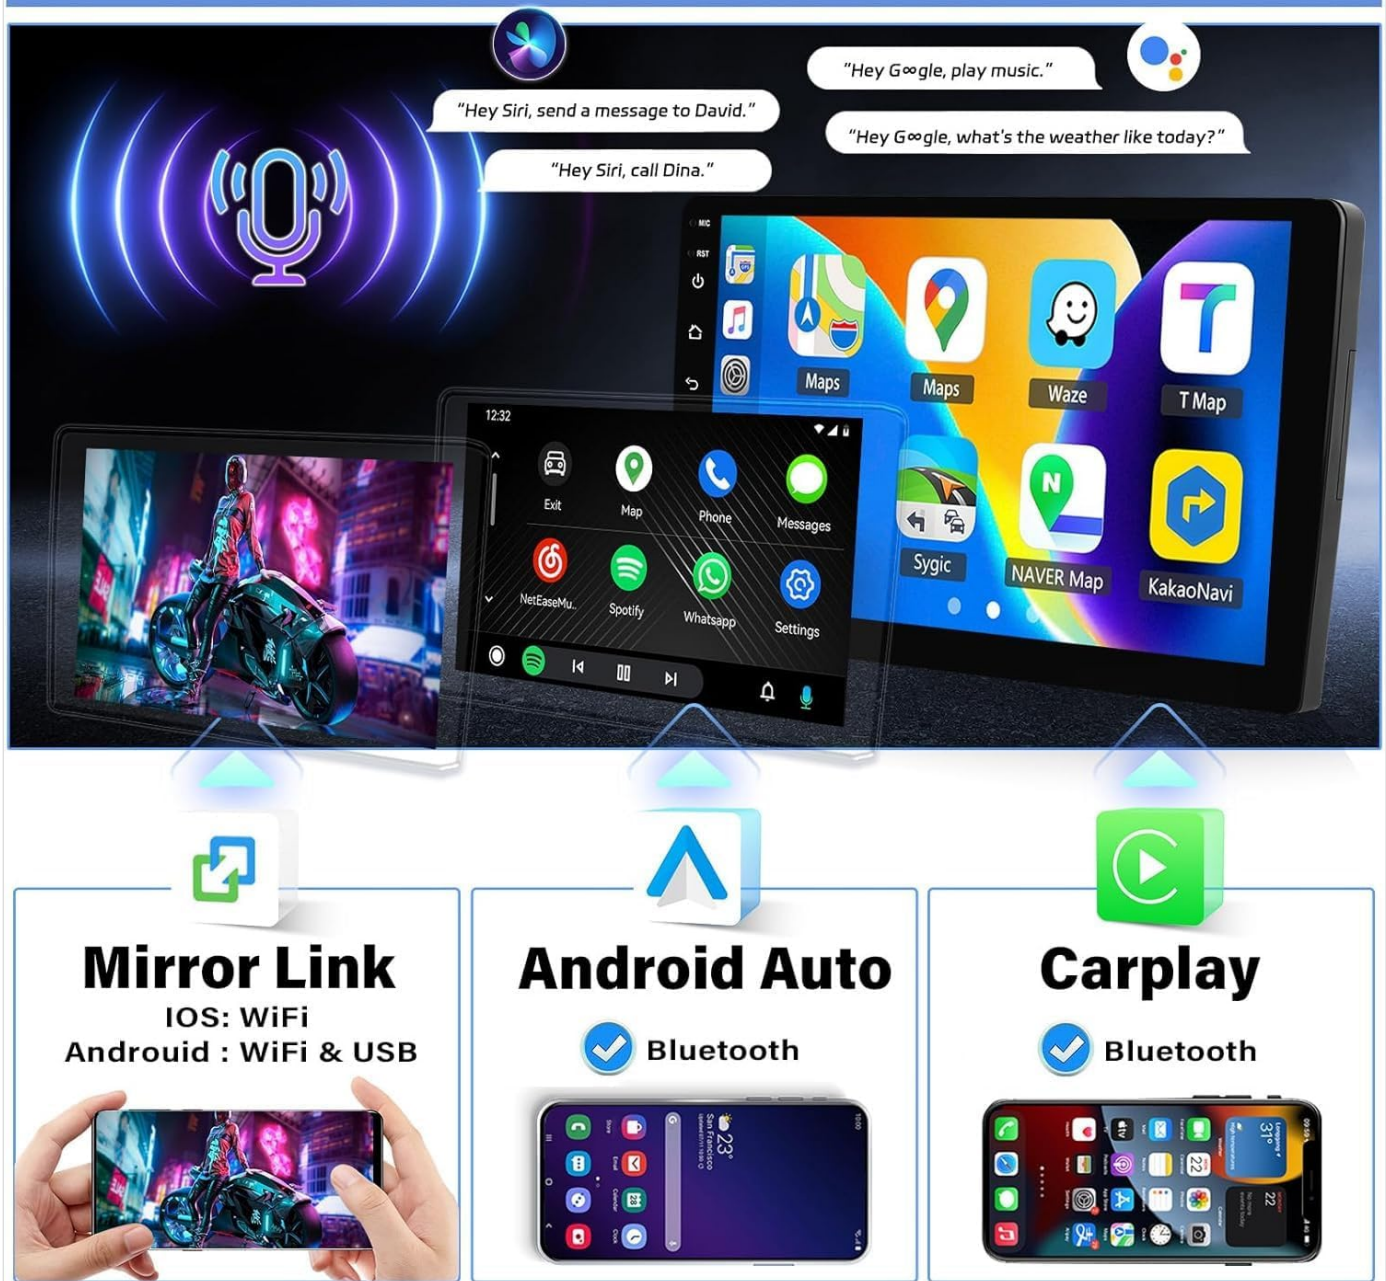

Image: Depicts the seamless integration of Wireless CarPlay, Android Auto, and Mirror Link with the car stereo display.

6.1.1 Wireless CarPlay Connection

Follow these steps to connect your iPhone to Wireless CarPlay:

1. Open the 'S-Play' application on the car stereo.
2. On your iPhone, go to Bluetooth settings and pair with the car stereo's Bluetooth name (e.g., 'BLINK_UNW2652').
3. Confirm the pairing request on both devices.
4. Allow contacts and favorites sync if prompted.
5. Once connected, CarPlay will launch automatically.

Video: Step-by-step guide on how to connect your iPhone to the car stereo using Wireless CarPlay.

6.1.2 Wireless Android Auto Connection

Follow these steps to connect your Android phone to Wireless Android Auto:

1. Open the 'S-Play' application on the car stereo.

2. On your Android phone, go to Bluetooth settings and pair with the car stereo's Bluetooth name.
3. Confirm the pairing request on both devices.
4. Allow contacts access if prompted.
5. Once connected, Android Auto will launch automatically.

Video: Demonstrates the connection process for Wireless Android Auto with the car stereo.

6.2 Bluetooth 5.0

The built-in Bluetooth 5.0 module allows for stable hands-free calling and high-quality music streaming. Pair your phone via Bluetooth settings on the stereo.

Image: Highlights the Bluetooth 5.0, WiFi, and GPS navigation capabilities of the car stereo.

6.3 GPS Navigation

The car stereo features a GPS navigation system supporting both offline maps and real-time traffic updates via WiFi. Download your preferred navigation apps from the Play Store.

6.4 WiFi & Mirror Link

Connect to WiFi to download apps like Waze or Spotify. The Mirror Link function allows you to sync your phone's screen to the 9-inch display for sharing videos or using apps.

6.4.1 Wireless Mirrorlink Connection

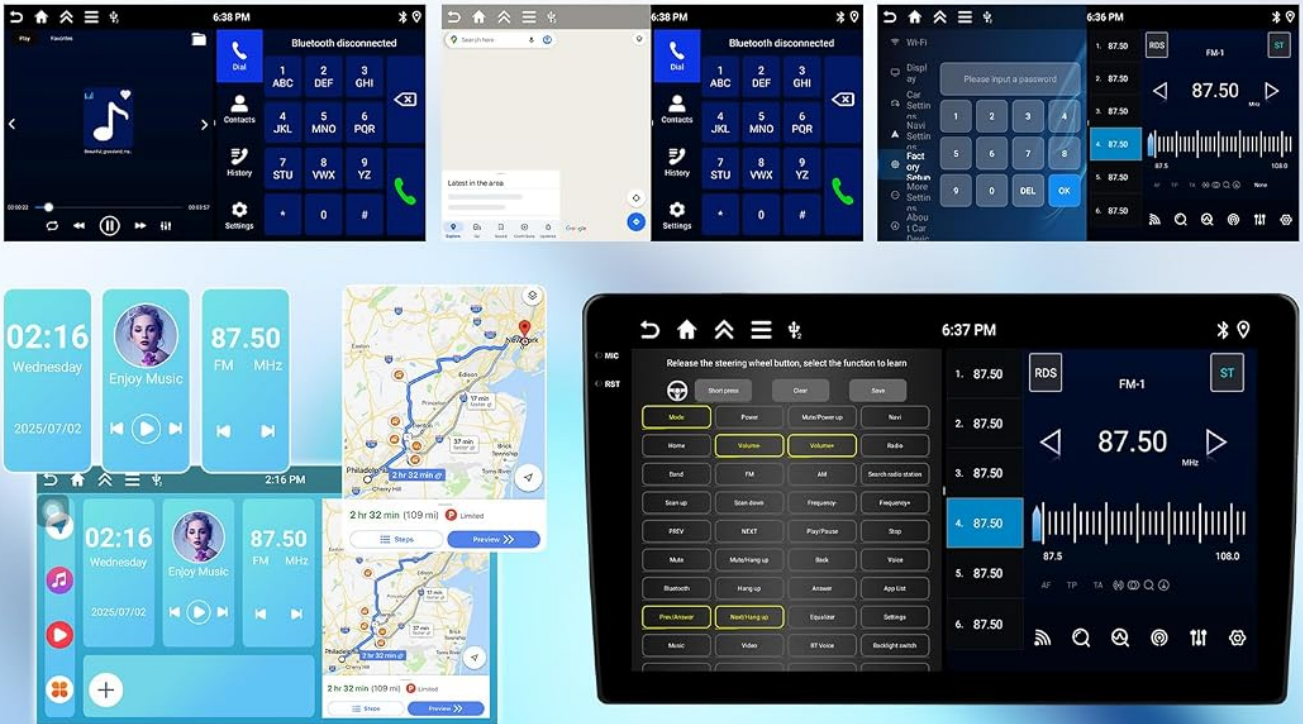

Learn how to connect your iOS or Android device using Wireless Mirrorlink:

Video: Instructions for connecting both iOS and Android devices to the car stereo using Wireless Mirrorlink.

6.5 Multiple UI Choice & Split Screen

Personalize your device's appearance with multiple user interface themes. The split-screen function allows you to run two applications simultaneously, such as navigation and music.

Split Screen

Multiple UI Themes

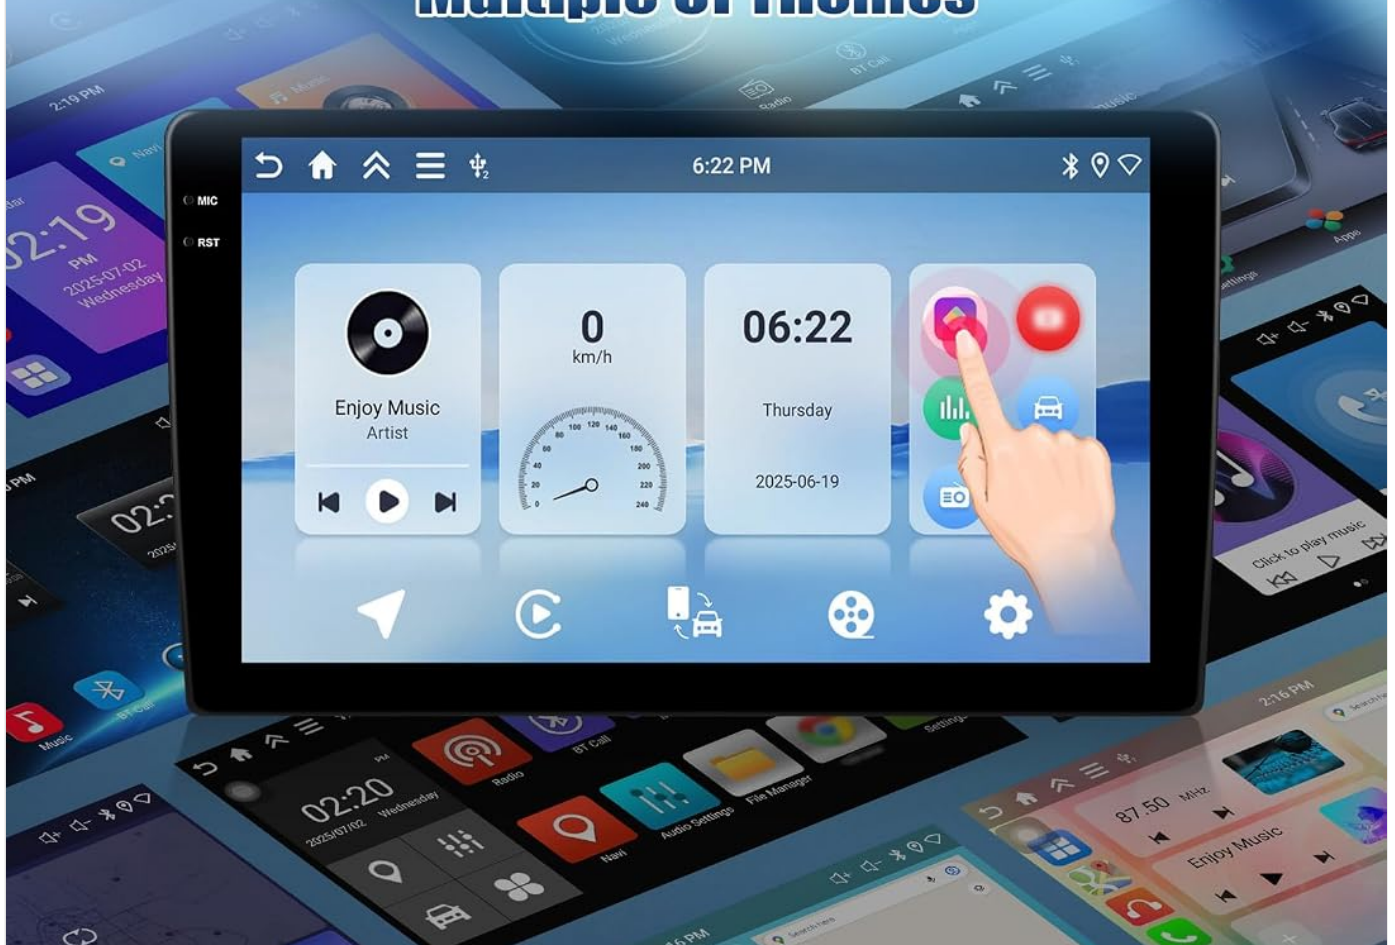

Image: Demonstrates the split-screen capability and various customizable UI themes available on the car stereo.

6.6 FM/RDS Radio & 32EQ

Enjoy clear radio signals with the built-in FM/RDS Radio. Customize your audio experience with the 32-band equalizer

(32EQ) for optimal sound quality.

Image: Illustrates the FM/RDS radio interface and the 32-band equalizer for sound customization.

6.7 AHD Backup Camera + SWC

The optional AHD backup camera automatically activates when reversing, providing clear visuals for safe parking. Steering wheel controls allow you to operate the stereo without taking your hands off the wheel.

Image: Shows the AHD backup camera view and the integration of steering wheel controls for convenient operation.

7. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the screen and unit. Avoid abrasive cleaners.
- **Software Updates:** Periodically check for software updates to ensure optimal performance and access to new features. Updates can usually be found on the manufacturer's website or through the device's settings.
- **Temperature:** The unit is designed to operate within a wide temperature range (-20°C to 70°C), but extreme conditions should be avoided for prolonged periods.

Image: Illustrates the car stereo's ability to function reliably across a wide range of operating temperatures, from cold to hot environments.

8. TROUBLESHOOTING

- **No Power:** Check all power connections and fuses. Ensure the ignition is on.
- **No Sound:** Verify speaker connections and volume settings. Check the audio output settings.
- **Touchscreen Unresponsive:** Perform a touch calibration (refer to Setup section). If issues persist, a factory reset may be necessary.
- **GPS Not Working:** Ensure the GPS antenna is properly installed and has a clear view of the sky. Check GPS settings.
- **Bluetooth/CarPlay/Android Auto Connection Issues:** Ensure Bluetooth is enabled on both devices and the car stereo. Try unpairing and re-pairing the devices. Check for any software updates.
