Vipbear S39-DG-6P

Vipbear 160" Oversized Modular Sectional Sofa

MODEL: S39-DG-6P

Your guide to assembling, operating, and maintaining your Vipbear modular sofa.

Product Overview

The Vipbear 160" Oversized Modular Sectional Sofa is designed for comfort and versatility. Featuring 12-inch thickened seat cushions with high-resiliency foam, it offers a soft, cloud-like seating experience. Its modular design allows for free combination, adapting to various space configurations such as L-shape, U-shape, chaises, or even temporary beds. The sofa is upholstered in premium chenille fabric, providing a modern and elegant aesthetic while ensuring a warm and cozy feel. With its extra-wide and 23.6" extra-deep seat design, it offers generous seating space for entertaining or family relaxation.

Setup Instructions

This modular sectional sofa is designed for tool-free assembly, typically completed within 30 minutes with 2 people. All necessary assembly tools are included.

1. Unboxing and Component Identification

The sofa arrives in multiple boxes. Carefully open each box and identify all components. Cushions are vacuum-compressed and will require 24-48 hours to fully expand after unpacking. The instruction manual and small components like legs are often stored within the armrest compartments or other hidden sections of the packaging.

2. Attaching Legs

For each base module and ottoman, screw the provided legs into the designated holes on the bottom. Ensure they are securely tightened.

3. Connecting Modules

Arrange the base modules and armrests in your desired configuration. Connect the modules using the integrated dowel plates and brackets. Simply slide the pieces together until they lock securely. The backrests attach to the base modules by inserting side pegs into corresponding slots.

4. Placing Cushions

Once the frame is assembled, place the expanded seat and back cushions onto their respective modules. The seat cushions may have Velcro fasteners on the underside to secure them to the base.

Operating Instructions: Modular Configuration

The Vipbear modular sectional sofa offers exceptional flexibility in arrangement. Its individual modules and movable ottomans allow you to customize your seating layout to suit various needs and spaces.

1. Reconfiguring the Sofa

To change the sofa's configuration (e.g., from U-shape to L-shape, or to create separate seating), simply lift the modules slightly to disengage the connecting brackets. Re-arrange the modules as desired and reconnect them by sliding the brackets into place. The movable ottomans can be positioned to extend seating, create chaises, or function as standalone footrests.

2. Creating a Bed-like Area

For a large, bed-like lounging area, arrange the modules side-by-side and place the ottomans to fill any gaps, creating a continuous flat surface.

Maintenance

Proper care will extend the life and appearance of your Vipbear sectional sofa.

1. Cleaning the Chenille Fabric

The premium chenille fabric is designed to clean well. For minor spills, blot immediately with a clean, dry cloth. For more stubborn stains, a mild fabric cleaner can be used, following the product's instructions and testing on an inconspicuous area first.

2. Removable Covers

The back cushions feature removable covers with zippers, allowing for easy cleaning. It is recommended to follow the care instructions on the fabric label for washing or dry cleaning to maintain fabric integrity.

3. Cushion Care

To maintain the shape and loft of your high-resiliency foam cushions, periodically fluff and rotate them. This helps ensure even wear and prolongs their lifespan.

Troubleshooting

While the Vipbear sectional sofa is designed for easy assembly and durability, here are some common points to consider:

- **Cushions not fully expanded:** Allow 24-48 hours for vacuum-packed cushions to fully regain their shape and firmness. Gentle fluffing can assist the process.
- **Modules not connecting securely:** Ensure that the connecting brackets are properly aligned and fully engaged. Sometimes a firm push or slight adjustment is needed to lock them into place.
- **Slight chemical smell:** New furniture may have a temporary 'new product' smell. This typically dissipates within a few days with good ventilation.

Specifications

Feature	Detail
Brand	Vipbear
Model Number	S39-DG-6P
Type	Sectional
Color	Dark Grey
Material Type	Chenille
Frame Material Type	Wood
Product Dimensions (D x W x H)	61"D x 160"W x 36.8"H
Seating Capacity	6.0
Weight Limit	2500 Pounds
Seat Depth	22.8 inches
Seat Height	23.6 Inches
Assembly Required	Yes
Recommended People for Assembly	2
Tool Free Assembly	Yes
Back Cushion Removability	Removable
