

Beghelli Salvalavita Phone SLV30N-GPS Plus

Beghelli Salvalavita Phone SLV30N-GPS Plus Ecodesign User Manual

Model: SLV30N-GPS Plus

INTRODUCTION

The Beghelli Salvalavita Phone SLV30N-GPS Plus is a mobile phone designed for ease of use and enhanced safety, particularly for seniors or individuals seeking reliable protection. It features a dedicated SOS button, GPS and Wi-Fi localization, and an automatic fall sensor to ensure help can be summoned quickly in emergencies. Its large, backlit keys and intuitive interface make it simple to operate, while essential functions like a flashlight and FM radio add convenience. This device is also compatible with the Beghelli Salvalavita bracelet for extended monitoring capabilities.

WHAT'S IN THE BOX

Upon unboxing your Beghelli Salvalavita Phone, please verify that all the following items are included:

- Beghelli Salvalavita Phone SLV30N-GPS Plus
- Charging Base
- USB-A to USB-C Charging Cable

In dotazione: Base di ricarica e cavo USB-A to USB-C

SETUP

1. Inserting the SIM Card

The Salvalavita Phone requires a Nano-SIM card for voice calls and SMS services. The SIM card is not included with the phone and must be purchased separately from your preferred mobile carrier.

1. Locate the SIM card slot on the device.
2. Carefully insert the Nano-SIM card into the designated slot, ensuring the correct orientation as indicated on the phone or in the quick start guide.
3. Close the SIM card tray securely.

(SIM non compresa nella confezione)

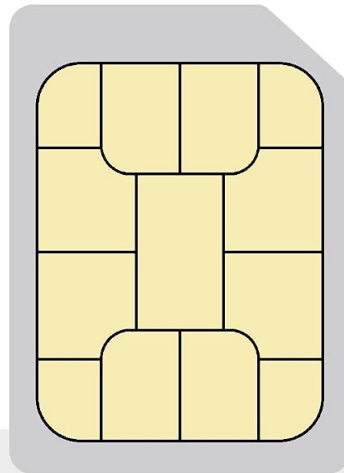

Figure 2: Nano-SIM card required for phone operation.

Figure 3: Phone display indicating SIM card insertion.

2. Charging the Phone

Before first use, fully charge the phone. Use the provided charging base and USB cable.

1. Connect the USB-A end of the charging cable to a compatible USB power adapter (not included).
2. Connect the USB-C end of the cable to the charging base.
3. Place the phone into the charging base, ensuring it is seated correctly. The phone display will indicate charging status.

3. Setting Emergency Numbers

The SOS function allows the phone to automatically call and send SMS messages with your location to up

to 9 pre-set emergency contacts.

1. Access the phone's menu to find the "Emergency Numbers" or "SOS Settings" option.
2. Enter up to 9 contact numbers that will receive alerts in case of an emergency.
3. Save the settings.

4. Pairing with Salvalavita Band (Optional)

The phone can be paired with the Beghelli Salvalavita Band Plus (Code 9202, sold separately) for additional safety features.

Abbinabile al braccialetto Salvalavita Band Plus (Cod. 9202 non incluso)

Figure 4: Beghelli Salvalavita Band Plus, compatible with the phone.

1. Refer to the Salvalavita Band's instruction manual for specific pairing procedures.
2. Ensure both devices are powered on and within range during the pairing process.

OPERATING INSTRUCTIONS

Making Calls

- **Standard Dialing:** Enter the desired phone number using the large keypad and press the green call button.
- **Quick Dial (M1, M2, M3):** The phone features three dedicated quick-dial buttons (M1, M2, M3).

These can be programmed with frequently called numbers. To use, simply press and hold the assigned M button.

- **Answering Calls:** Press the green call button to answer an incoming call.
- **Ending Calls:** Press the red end call button to terminate a call.

SOS Emergency Function

The SOS function is a critical safety feature designed for immediate assistance.

- **Activating SOS Manually:** Press and hold the dedicated SOS button located on the back of the phone for at least 2 seconds. The phone will initiate calls and send SMS messages with your location to the pre-set emergency numbers. Calls are made in hands-free mode.
- **Automatic Fall Sensor:** The phone is equipped with an automatic fall sensor. If a significant fall or impact is detected, the phone will automatically activate the SOS function, sending alerts to your emergency contacts without manual intervention.

Tasto Salvalavita,
che se premuto
per 2 secondi,
lancia chiamate
in vivavoce e
SMS ai numeri
di emergenza
impostati

Localization (GPS and Wi-Fi)

The phone integrates GPS and Wi-Fi localization technologies to provide precise location information during an emergency. When the SOS function is activated, your location data is automatically sent to your emergency contacts via SMS, facilitating rapid assistance.

Additional Features

- **Flashlight:** The phone includes an integrated flashlight for convenience in low-light conditions. Refer to the phone's menu for activation.
- **FM Radio:** An FM radio function is available for entertainment.
- **Loud Volume:** The phone is designed with powerful audio output for clear communication, especially beneficial for users with hearing impairments.

MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your Beghelli Salvalavita Phone.

- **Cleaning:** Use a soft, dry cloth to clean the phone's exterior. Avoid abrasive cleaners or solvents.
- **Water and Dust Resistance:** The phone is resistant to dust and water splashes. However, it is not

fully waterproof. Avoid submerging the device in water or exposing it to heavy rain.

- **Battery Care:** The phone features optimized charging management to extend battery life. For best results, avoid extreme temperatures and do not leave the phone fully discharged for extended periods. The battery is designed to retain 80% of its capacity after 500 charging cycles.
- **Accidental Drops:** The Ecodesign compliance ensures greater resistance to accidental drops, but care should still be taken to prevent damage.

Telefono compatibile con la normativa Ecodesign 2025*:

- Maggiore resistenza alle cadute accidentali
- Batteria a maggiore autonomia
(80% della capacità dopo 500 cicli di ricarica)
- Resistente a polvere e spruzzi d'acqua
- Gestione ottimizzata della ricarica per aumentare la vita utile della batteria
- Pezzi di ricambio disponibili per 7 anni

* Reg. (UE) 2023/1670

TROUBLESHOOTING

If you encounter issues with your Beghelli Salvalavita Phone, refer to the following common troubleshooting steps:

- **Phone does not turn on:**
 - Ensure the battery is charged. Place the phone on the charging base for at least 30 minutes.
 - Press and hold the power button for several seconds.
- **Cannot make or receive calls/SMS:**
 - Check if the SIM card is correctly inserted (refer to "Inserting the SIM Card" section).
 - Verify that your SIM card has an active plan and sufficient credit/data.
 - Check for network signal strength. Move to an area with better reception if needed.

- Restart the phone.
- **SOS function not working:**
 - Ensure emergency numbers are correctly programmed in the phone's settings.
 - Verify that the phone has network signal to send calls and SMS.
 - Test the SOS function in a non-emergency situation to confirm it is working.
- **Poor audio quality during calls:**
 - Adjust the call volume using the side buttons.
 - Ensure the speaker and microphone are not obstructed.
 - Move to an area with better network reception.
- **Phone is unresponsive:**
 - If the battery is user-removable, remove and reinsert it, then restart the phone. If not, press and hold the power button for an extended period (e.g., 10-15 seconds) to force a restart.
