Ailltopd C5

Ailltopd C5 Portable Carpet & Upholstery Cleaner Machine User Manual

Model: C5 | Brand: Ailltopd

1. PRODUCT OVERVIEW

The Ailltopd C5 Portable Carpet & Upholstery Cleaner is engineered for effective deep cleaning of various fabric surfaces. Featuring a powerful 500W motor, it delivers 15Kpa of suction to tackle stubborn stains from carpets, upholstery, car interiors, and more. Its compact and lightweight design ensures easy portability and convenient storage.

This versatile machine utilizes a three-step cleaning process: spraying cleaning solution, scrubbing the stain, and powerful suction to extract dirt and moisture, promoting quick drying of cleaned areas.

2. PACKAGE CONTENTS

Your Ailltopd C5 Portable Carpet & Upholstery Cleaner package includes the following components:

- Ailltopd C5 Main Unit
- Flexible Hose with Integrated Spray/Suction Tool
- Wide Brush Head (for larger areas)
- Slim Brush Head (for tight spots)
- Clean Water Tank
- Dirty Water Tank
- Power Cord
- Accessory Storage Brackets

Accessory List

Figure 1: Included Accessories. The image displays the main unit, flexible hose, two brush heads (large and small), clean and dirty water tanks, and storage hooks.

3. SETUP

1. **Fill Clean Water Tank:** Remove the clean water tank (located on the right side of the unit). Unscrew the cap and fill with water and your preferred cleaning solution. Ensure the solution-to-water ratio follows the cleaning solution's instructions. Do not exceed the MAX fill line. Securely replace the cap and reattach the tank to the main unit.
2. **Attach Hose and Tool:** Connect the flexible hose to the main unit. Select the appropriate brush head (wide for large areas, slim for tight spots) and attach it to the end of the hose.
3. **Power Connection:** Unwind the 16.4ft power cord from its storage brackets and plug the unit into a standard electrical outlet.

Professional Fabric Cleaning

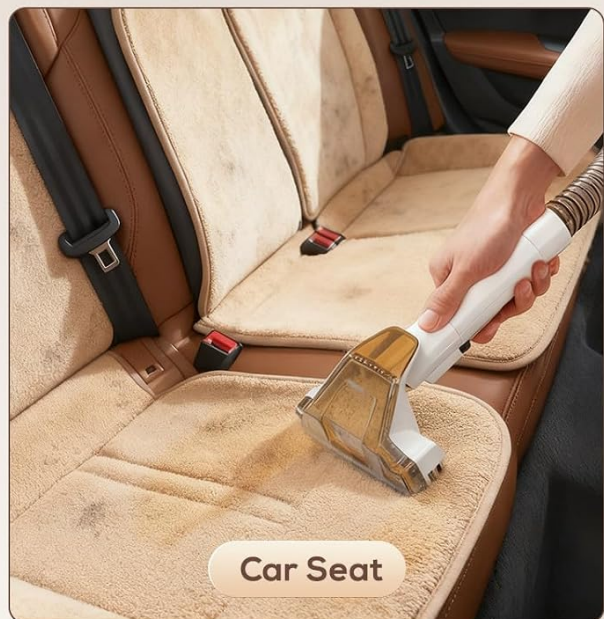

Figure 2: Removable Tanks. The image shows the clean water tank (50.72 oz) and dirty water tank (27.05 oz) detached from the main unit, highlighting their easy removal for filling and emptying.

4. OPERATING INSTRUCTIONS

1. **Power On:** Press the power button on the main unit to turn on the cleaner.
2. **Spray:** Hold the spray/suction tool over the stained area. Press the spray trigger to release cleaning solution onto the fabric. Allow the solution to penetrate the stain for a few seconds.
3. **Scrub:** Gently scrub the stained area with the brush head to agitate the stain and loosen dirt.
4. **Suction:** Release the spray trigger and apply firm, even pressure with the suction nozzle over the cleaned area to extract the dirty solution. Repeat steps 2-4 as needed until the stain is removed and the extracted water appears clean.
5. **Drying:** Continue to suction the area without spraying to remove as much moisture as possible, promoting

faster drying.

1. Powerful Solution
Ratio: 4 oz (Formula) : 1 gallon (Water)

2. Large Clean Water Tank
(1500mL)

3. Easy to Drain
(800mL Sewage Tank)

Figure 3: Three-Step Cleaning Process. This image illustrates the 'Spray', 'Scrub', and 'Suction' steps for effective stain removal.

Figure 4: Versatile Cleaning Applications. The image shows the cleaner being used on a sofa, carpet, stairs, and car seat,

demonstrating its adaptability to various fabric surfaces.

5. MAINTENANCE AND CLEANING

1. **Empty Dirty Water Tank:** After each use, remove the dirty water tank (located on the left side of the unit). Carefully pour out the collected dirty water into a drain.
2. **Rinse Tanks:** Rinse both the clean and dirty water tanks thoroughly with clean water to prevent residue buildup and odors. Allow them to air dry completely before reassembling.
3. **Clean Brush Heads:** Detach the brush head(s) from the hose. Rinse them under running water to remove any trapped debris or residue. The brush heads are designed for easy disassembly for thorough cleaning.
4. **Self-Cleaning Function:** The unit features a self-cleaning function for the hose. Attach the self-cleaning cap (if provided) to the hose nozzle, place it in the designated self-cleaning port (if available), and run clean water through the system as per the manual's specific instructions.
5. **Store:** Once all components are clean and dry, reassemble the unit. Wrap the hose and power cord around their respective storage brackets. Store the cleaner in a cool, dry place.

Figure 5: Tank Cleaning Process. This image shows the steps for preparing cleaning solution, filling the clean water tank, and easily draining the dirty water tank.

6. TROUBLESHOOTING

- **No Suction:** Check if the dirty water tank is full and needs emptying. Ensure all tank lids are securely closed and the hose is properly attached. Verify there are no blockages in the hose or nozzle.
- **No Spray:** Confirm the clean water tank is filled with water and solution. Check if the spray nozzle is clogged. Ensure the spray trigger is fully depressed.
- **Unit Not Turning On:** Verify the power cord is securely plugged into a working electrical outlet. Check the power button for proper engagement.
- **Water Leaking:** Ensure all tanks and attachments are correctly and securely installed. Check for any cracks or damage to the tanks or seals.

7. SPECIFICATIONS

Feature	Specification
---------	---------------

Brand	Ailltopd
Model Name	C5
Item Weight	11.36 pounds (5.16 Kilograms)
Product Dimensions	6.81"D x 12.83"W x 12.04"H
Suction Power	15Kpa
Motor Power	500W
