

Logilink BT0076

LogiLink BT0076 Wireless Car Adapter User Manual

Model: BT0076

INTRODUCTION

The LogiLink BT0076 Wireless Car Adapter converts your vehicle's wired CarPlay or Android Auto system into a wireless connection. This allows for seamless navigation, music playback, and hands-free calls using dual-band Wi-Fi and Bluetooth 5.0, without the need to physically connect your phone. The adapter features a plug-and-play setup and automatic reconnection for a convenient driving experience. It is compatible with over 800 car models from 2017 onwards.

PACKAGE CONTENTS

Please verify that all items listed below are included in your package:

- 1 x LogiLink Wireless Car Adapter (BT0076)
- 1 x USB-A to USB-C Adapter
- 1 x User Manual

SETUP INSTRUCTIONS

1. **Identify USB Port:** Locate an available USB-A or USB-C port in your vehicle that supports wired CarPlay or Android Auto.
2. **Connect Adapter:**
 - If your car has a USB-A port, plug the LogiLink BT0076 adapter directly into it.
 - If your car has a USB-C port, first connect the provided USB-A to USB-C adapter to the car's port, then plug the LogiLink BT0076 adapter into the USB-A end of the converter.

3. **Vehicle System Activation:** Start your vehicle. The car's infotainment system should detect the adapter and prompt for connection.
4. **Pair with Phone:** On your smartphone, enable Bluetooth and Wi-Fi. Search for the LogiLink adapter in your Bluetooth settings and pair with it. Follow any on-screen prompts on your phone and car display to complete the connection.
5. **Automatic Reconnection:** Once successfully paired, the adapter will automatically connect to your phone each time you start your car, provided Bluetooth and Wi-Fi are enabled on your phone.

OPERATING INSTRUCTIONS

After successful setup, your LogiLink BT0076 adapter enables wireless use of CarPlay or Android Auto.

- **Accessing CarPlay/Android Auto:** Once connected, your car's infotainment system will display the CarPlay or Android Auto interface. You can navigate through apps, make calls, send messages, and use navigation wirelessly.
- **Using Car Controls:** The adapter supports all original vehicle controls, including physical buttons, touch screen, voice commands, and steering wheel controls. Operate your car's system as you normally would.
- **Media Playback:** Stream music and podcasts directly from your phone to your car's audio system via the wireless connection.
- **Navigation:** Utilize your preferred navigation apps (e.g., Apple Maps, Google Maps, Waze) on your car's display for real-time directions.

MAINTENANCE

To ensure the longevity and optimal performance of your LogiLink BT0076 Wireless Car Adapter, follow these simple maintenance guidelines:

- **Cleaning:** Gently wipe the adapter with a soft, dry, lint-free cloth. Do not use liquid cleaners, aerosols, or solvents, as these may damage the device.
- **Storage:** When not in use for extended periods, store the adapter in a cool, dry place, away from direct sunlight and extreme temperatures.
- **Handling:** Avoid dropping the adapter or subjecting it to strong impacts. Do not attempt to disassemble the device, as this will void the warranty.

TROUBLESHOOTING

If you encounter issues with your LogiLink BT0076 Wireless Car Adapter, please refer to the following common solutions:

Problem	Solution
Adapter not detected by car.	◦ Ensure the adapter is fully inserted into the USB port. ◦ Try a different USB port in your vehicle. ◦ Verify your car supports wired CarPlay or Android Auto. ◦ Restart your car's infotainment system.
Phone not connecting wirelessly.	◦ Ensure Bluetooth and Wi-Fi are enabled on your phone. ◦ Forget the adapter from your phone's Bluetooth settings and re-pair. ◦ Restart your phone. ◦ Check for any software updates for your car's infotainment system or your phone.
Intermittent connection or audio issues.	◦ Ensure there are no other strong wireless interference sources nearby. ◦ Move your phone closer to the adapter if possible. ◦ Restart both the car's system and your phone.
