1. INTRODUCTION

Thank you for choosing the HelloBaby HB30 Video Baby Monitor. This device is designed to provide a secure and reliable way to monitor your baby, offering peace of mind without requiring a Wi-Fi connection. This manual provides essential information for the safe and effective use of your monitor.

2. SAFETY INFORMATION

- No Wi-Fi, Enhanced Privacy:** The HelloBaby HB30 operates on 2.4GHz FHSS technology, ensuring a private and secure connection that is not susceptible to internet hacking.
- Strangulation Hazard:** Keep all power cords and cables out of reach of children. Ensure the camera unit and its power cord are at least 3 feet (0.9 meters) away from the crib or playpen. Never place the camera or cords inside the crib.
- Power Source:** Use only the provided power adapters. Do not use other adapters as this may damage the unit or pose a safety risk.
- Water and Heat:** Keep the monitor and camera away from water sources (e.g., bathtubs, sinks) and heat sources (e.g., radiators, stoves).
- Ventilation:** Ensure proper ventilation around both units. Do not cover them with blankets or towels.

3. PACKAGE CONTENTS

Upon unboxing your HelloBaby HB30 Video Baby Monitor, please verify that all components are present:

- Parent Unit (Monitor)
- Baby Unit (Camera)

- Power Adapter for Parent Unit
- Power Adapter for Baby Unit

4. PRODUCT OVERVIEW

The HelloBaby HB30 is a feature-rich video baby monitor designed for simplicity and security. It includes a portable parent unit with a 2.4-inch color LCD screen and a camera unit with infrared night vision.

Key Features:

- **Secure 2.4GHz FHSS Technology:** Ensures a private connection without Wi-Fi.
- **2.4-inch Color LCD Display:** Provides a clear view of your baby.
- **Automatic Infrared Night Vision:** Monitors your baby clearly in low light or darkness.
- **VOX Mode (Sound-Activated Screen):** The screen activates when sound is detected, conserving battery.
- **Two-Way Talk:** Allows you to comfort your baby remotely.
- **2x Digital Zoom:** Get a closer look at your baby.
- **Expandable System:** Supports up to 4 cameras (additional cameras sold separately).
- **Temperature Monitoring:** Displays the room temperature.
- **Lullabies:** Built-in melodies to soothe your baby.
- **Feeding Timer:** Set reminders for feeding times.
- **Long Transmission Range:** Up to 1000ft in open areas.

5. SETUP

5.1. Charging the Parent Unit

Before first use, fully charge the parent unit for approximately 8 hours. Connect the small end of the power adapter to the parent unit and the other end to a power outlet. The battery indicator on the screen will show charging status.

5.2. Positioning the Camera Unit

Place the camera unit in a location that provides a clear view of your baby. Ensure the camera is at least 3 feet (0.9 meters) away from the crib to prevent entanglement with the power cord. The camera can be placed on a flat surface or mounted to a wall using the provided kit.

6. OPERATING INSTRUCTIONS

6.1. Basic Controls

Use the arrow buttons on the parent unit to navigate through menus and adjust settings. The 'OK' button confirms selections, and the 'Return' button goes back to the previous screen or live view.

6.2. Video Display & Zoom

The parent unit displays live video from the camera. Press the zoom button (magnifying glass icon) to activate 2x digital zoom. Use the arrow keys to pan the zoomed image.

6.3. VOX Mode (Sound-Activated Screen)

VOX mode conserves battery by turning off the screen when no sound is detected. The screen will automatically turn on

when your baby makes a sound. You can adjust the VOX sensitivity (Low, Medium, High) in the settings menu.

6.4. Two-Way Talk

Press and hold the microphone button on the parent unit to speak to your baby through the camera's speaker. Release the button to hear your baby again.

6.5. Night Vision

The camera automatically switches to infrared night vision in low light conditions, providing a clear black and white image of your baby.

6.6. Feeding Timer

Access the 'Timer' option in the menu to set reminders for feeding. You can choose various intervals (e.g., 30 minutes, 1 hour, 2 hours).

6.7. Multiple Cameras

The HB30 system can support up to four camera units. To add or switch between cameras, navigate to the 'Camera' setting in the menu.

Your browser does not support the video tag.

7. MAINTENANCE

- Cleaning:** Use a soft, dry cloth to clean the surfaces of the monitor and camera units. Do not use abrasive cleaners or solvents.
- Lens Care:** Gently wipe the camera lens with a soft, lint-free cloth to ensure clear image quality.
- Battery Care:** To prolong battery life, avoid fully discharging the parent unit frequently. Charge it regularly.
- Storage:** If storing the unit for an extended period, ensure the battery is partially charged and store in a cool, dry place.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
No image/sound on parent unit	Units are not powered on or connected. Out of range.	Ensure both units are plugged in and powered on. Move parent unit closer to camera.
Poor image quality	Low light conditions (night vision active). Camera lens dirty. Out of range.	Image quality is typically black and white in night vision. Clean camera lens. Move units closer.
No sound or low sound	Volume too low. VOX mode active.	Increase volume on parent unit. Adjust VOX sensitivity or disable it.
Interference	Other 2.4GHz devices nearby.	Move the monitor away from other wireless devices (e.g., Wi-Fi routers, microwaves).
Parent unit battery drains quickly	VOX mode off (screen always on). Old battery.	Enable VOX mode to conserve battery. Contact support if battery life remains poor after full charge.
