5. MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your Ant Master 01 keyboard.

- **Cleaning:**
 - Disconnect the keyboard from your computer before cleaning.
 - Use a soft, lint-free cloth slightly dampened with water or a mild cleaning solution to

- wipe the keycaps and surface.
- For dust and debris between keys, use compressed air.
- Avoid using harsh chemicals, abrasive cleaners, or excessive moisture.
- **Spill Prevention:** Avoid placing liquids near the keyboard to prevent accidental spills, which can cause permanent damage.
- **Storage:** When not in use for extended periods, store the keyboard in a clean, dry environment away from direct sunlight and extreme temperatures.
- **Durability Feature:** The keyboard is coated with Silver Zinc Zeolite, which provides lasting protection against wear from long-term daily use.

6. TROUBLESHOOTING

If you encounter any issues with your Ant Master 01 keyboard, refer to the following common troubleshooting steps:

- **Keyboard Not Responding:**
 - Ensure the USB cable is securely connected to both the keyboard and the computer.
 - Try connecting the keyboard to a different USB port on your computer.
 - Restart your computer.
 - Test the keyboard on another computer to determine if the issue is with the keyboard or the original computer.
- **Specific Keys Not Working:**
 - Check for any physical obstructions or debris under the keycap. Use compressed air to clear.
 - Ensure the keyboard is clean and free from spills.
 - If the issue persists, it may indicate a hardware malfunction.
- **Multimedia Keys Not Functioning:**

- Ensure your operating system's media player or audio settings are correctly configured.
- Some applications may override keyboard multimedia controls.

If these steps do not resolve the issue, please refer to the warranty and support section for further assistance.
