## PVWIIK Twin Montessori Floor Bed

# PVWIIK Twin Montessori Floor Bed with Guardrails - Instruction Manual

Model: Twin Montessori Floor Bed

## INTRODUCTION

---

Thank you for choosing the PVWIIK Twin Montessori Floor Bed with Guardrails. This bed is designed to provide a safe, comfortable, and independent sleeping environment for children, featuring a low-to-the-ground design and protective guardrails. This manual contains important information regarding the assembly, safe operation, and maintenance of your new bed. Please read it thoroughly before assembly and retain it for future reference.

## SAFETY INFORMATION

---

**WARNING:** Failure to follow these safety instructions could result in serious injury.

- Always use the guardrails to prevent falls.
- Ensure the bed is assembled correctly and securely to avoid instability.
- Keep the assembly manual handy for reference during assembly and for future maintenance checks.
- Regularly check all bolts and fasteners to ensure they are tight. Retighten as necessary.
- Do not allow children to jump on the bed.
- Do not use the bed if any parts are missing, damaged, or broken. Contact customer support for replacement parts.
- Keep small parts away from children during assembly to prevent choking hazards.
- This bed is designed for a twin-size mattress. Do not use a mattress that is too thick, as it may compromise the effectiveness of the guardrails. Suggested mattress thickness: 6 inches or less.
- Maximum weight capacity: 200 lbs.

## PACKAGE CONTENTS

---

Your PVWIIK Twin Montessori Floor Bed package includes the following components. Please verify all parts are present before beginning assembly.

- Pine wood frame components (headboard, footboard, side rails, guardrails, tent-shaped roof structure)

- Plywood slats (7 pieces)
- Hardware kit (screws, bolts, nuts, Allen wrench)
- Assembly Manual

## SETUP AND ASSEMBLY INSTRUCTIONS

---

Assembly is required for this product. It is recommended that two adults assemble the bed. Please follow these steps carefully.

1. **Unpack and Identify Parts:** Carefully unpack all components and lay them out on a clean, soft surface (e.g., a carpet or blanket) to prevent scratches. Identify each part using the provided parts list in the separate assembly manual.
2. **Assemble Side Rails:** Attach the side rails to the headboard and footboard using the provided hardware. Ensure all connections are secure but do not fully tighten bolts until the entire frame is assembled.

3. **Install Guardrails:** Secure the guardrails to the side rails as indicated in the assembly manual. Note the entrance opening for easy access.
4. **Attach Slats:** Place the plywood slats across the bed frame and secure them using the designated screws. Ensure even spacing for proper mattress support.
5. **Assemble Tent-shaped Roof Structure:** Connect the roof frame components according to the manual. Attach the completed roof structure to the main bed frame.
6. **Final Tightening:** Once all components are in place and aligned, fully tighten all bolts and screws. Do not overtighten.
7. **Final Check:** Verify that the bed is stable and all connections are secure before use.

## UNIT INCH

## OPERATING INSTRUCTIONS (USAGE)

The PVWIK Twin Montessori Floor Bed is designed for children transitioning from a crib or for those who benefit from an independent sleeping space. Its low height allows children to get in and out of bed safely on their own, fostering independence.

- Place a twin-size mattress (6 inches or less in thickness is recommended) directly onto the provided slats.
- Ensure the bed is positioned in a safe area of the room, away from windows, cords, or other potential hazards.
- The guardrails provide a protective barrier, but adult supervision is always recommended, especially for younger children.
- The tent-shaped structure can be used for decorative purposes or to create a cozy, enclosed sleeping space.

## MAINTENANCE

---

Proper maintenance will extend the life and appearance of your bed.

- **Cleaning:** Wipe the bed frame with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners, as they may damage the finish.
- **Hardware Check:** Periodically check all bolts, screws, and fasteners to ensure they remain tight. Retighten as needed to maintain stability.
- **Wood Care:** The bed is made from pine wood. Protect it from excessive moisture and direct sunlight to prevent warping or fading.
- **Mattress Care:** Follow the manufacturer's instructions for mattress care. Rotate and flip the mattress regularly if applicable.

## TROUBLESHOOTING

---

If you encounter any issues with your bed, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Bed feels wobbly or unstable.	Loose hardware.	Check and tighten all bolts and screws. Ensure all parts are correctly aligned.
Squeaking noises.	Loose connections or friction between wood parts.	Tighten all hardware. If squeaking persists, disassemble and reassemble the affected section, ensuring all parts are properly seated. A small amount of wax or lubricant on contact points can sometimes help.
Parts do not fit together.	Incorrect orientation of parts or manufacturing defect.	Review the assembly manual to ensure parts are oriented correctly. If parts are still not fitting, contact customer support.

## SPECIFICATIONS

---
