Kaidrus Golf Rangefinder

Kaidrus Golf Rangefinder L-14 1500 Yards Instruction Manual

Model: Golf Rangefinder

Product Overview

The Kaidrus L-14 Golf Rangefinder is designed for precision distance measurement in golfing and hunting. It features advanced slope-switch technology, flag lock with vibration feedback, and 7X magnification for clear views up to 1500 yards. Its rechargeable design and magnetic mount enhance convenience and usability.

- **0.5 Second Pin Lock:** Quickly and accurately locks onto targets.
- **Slope-Switch Technology:** Provides precise compensated distance readings based on incline or decline, easily toggled for tournament legality.
- **Flag Lock with Vibration Feedback:** Confirms target acquisition with a reassuring vibration.
- **1500-Yard Range & 7X Magnification:** Delivers sharp, crystal-clear views of distant targets.
- **Magnetic Mount:** Securely attaches to golf carts or metal surfaces for easy access.
- **Rechargeable Design:** No batteries required, features a convenient USB-C rechargeable design.

What's in the Box

Your Kaidrus Golf Rangefinder package includes everything you need to get started:

- Upgraded Golf Rangefinder
- Premium Case
- Carabiner
- Hang String
- Charging Cable (USB-C)
- Lens Cloth
- User Manual

Setup

1. Charging the Device

The Kaidrus Golf Rangefinder features a built-in 800mAh rechargeable Lithium-Ion Polymer battery. Use the provided USB-C charging cable to charge the device. A full charge ensures extended use on the course.

2. Adjusting the Eyepiece

To ensure a clear view, rotate the eyepiece to adjust the focus according to your vision. This allows for optimal clarity of the LCD display and targets.

3. Attaching the Hang String

If desired, attach the included hang string to the designated loop on the rangefinder for secure carrying around your wrist or attaching to other gear.

Operating Instructions

1. Powering On/Off

Press the Power button (usually marked with a power symbol) to turn the device on. The device will automatically power off after 8 seconds of inactivity to conserve battery.

2. Switching Measurement Modes

The rangefinder offers multiple modes for different scenarios:

- **Standard Mode:** For basic distance measurement.
- **Pin Seeking Mode:** Designed to lock onto the flag, ignoring background objects.
- **Slope Mode:** Provides compensated distance based on elevation changes.
- **Continuous Scan Mode:** Allows for continuous measurement as you pan across targets.

Press the 'MODE' button to cycle through the available measurement modes. The active mode will be indicated on the LCD display.

3. Flag Lock with Vibration

In Pin Seeking Mode, aim at the flag and press the Power button briefly. Once the rangefinder successfully locks onto the flag, it will provide a short vibration alert to confirm the measurement.

Image: The rangefinder's display showing a flag target locked, accompanied by a vibration icon, indicating successful flag lock with haptic feedback.

4. Slope-Switch Technology

To activate or deactivate the slope compensation feature, use the dedicated slope switch located on the side of the device. Slide the switch to the 'ON' position for slope-adjusted distances or 'OFF' for tournament-legal play (straight-line distance).

Image: A visual representation of how slope compensation works, showing the actual distance versus the slope-adjusted distance, with the physical slope switch highlighted.

5. Switching Units (Yards/Meters/Feet)

To change the unit of measurement (Yards, Meters, or Feet), short press the 'MODE' button while the device is on until your desired unit is displayed.

6. Using the Magnetic Mount

The rangefinder features a strong magnetic strip on its side. This allows you to conveniently attach it to any metal surface, such as a golf cart frame, for quick and easy access during your game.

Maintenance

1. Cleaning the Lenses

Use the provided microfiber cloth to gently clean the lenses. Avoid using abrasive materials or harsh chemicals that could scratch the lens coating. Regularly cleaning ensures optimal clarity and accuracy.

2. Storage

When not in use, store the rangefinder in its premium carrying case to protect it from dust, moisture, and physical damage. Store in a cool, dry place away from direct sunlight.

Troubleshooting

1. Device Not Powering On

- Ensure the battery is charged. Connect the device to the USB-C charging cable and allow it to charge.
- Press and hold the Power button for a few seconds to ensure it's not just a quick press.

2. Inaccurate Readings

- Ensure the lenses are clean and free from smudges or debris.
- Verify that the correct measurement mode is selected for your target (e.g., Pin Seeking for flags).
- Environmental factors such as heavy rain, snow, fog, or haze can affect accuracy.
- Ensure the target is within the specified measuring range (5-1500 yards).

3. Display Not Clear

- Adjust the eyepiece focus ring until the display is sharp and clear.
- Clean the eyepiece and objective lens with the provided lens cloth.
