Video Description: This video illustrates the functionality of the Yaber L2 Plus Projector's ports and remote control. It shows how to connect devices to the USB and HDMI ports and demonstrates basic remote control operations.

Adjustable Stand

Wireless Speed that Keeps Up with You

Reliable WiFi for a Smoother Online Experience.

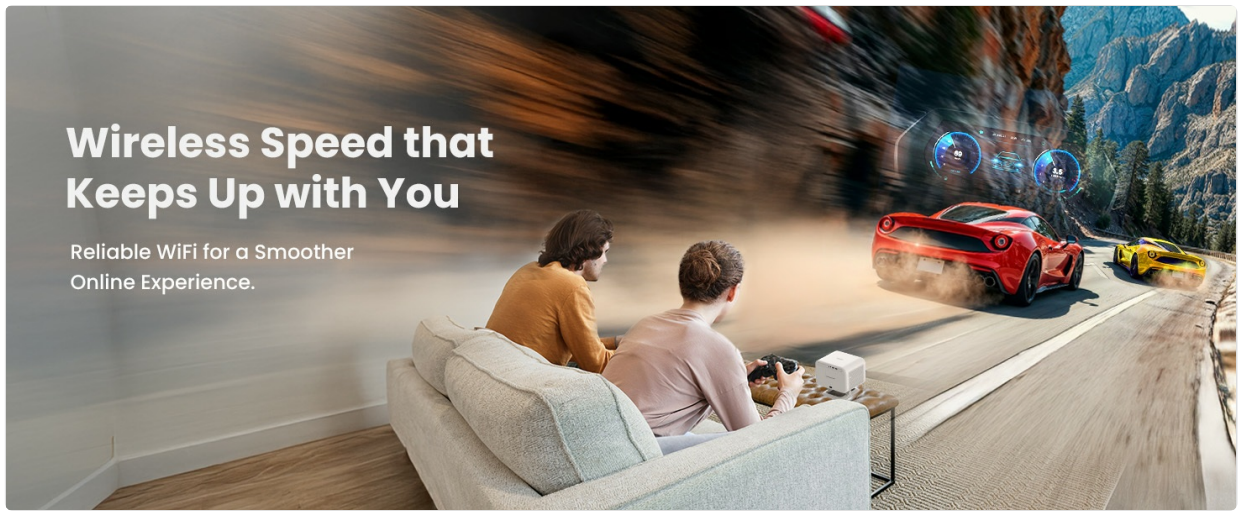

Image Description: The Yaber L2 Plus Projector is shown with its integrated adjustable stand, demonstrating its ability to tilt the projection angle up to 20 degrees for flexible placement.

The projector features an integrated adjustable stand, allowing for flexible projection angles up to 20 degrees. This ensures optimal image positioning from various surfaces.

SETUP

Follow these steps for initial setup and configuration of your Yaber L2 Plus Projector.

Initial Power-On & Language Selection

1. Connect the power cord to the projector and a power outlet.
2. Press the power button on the projector or remote control to turn it on.
3. On the welcome screen, use the remote control to select your preferred language.

Auto Focus & Keystone Correction

The Yaber L2 Plus features advanced AI-powered auto-focus and keystone correction for a clear and perfectly aligned image.

Your browser does not support the video tag.

Video Description: This video guides users through the process of setting up auto-focus and keystone correction on the Yaber L2 Plus Projector. It demonstrates how the projector automatically adjusts the image for clarity and proper geometry.

- **Auto Focus:** The projector will automatically adjust the lens for a sharp image. This can be triggered manually via the remote if needed.
- **Auto Keystone Correction:** The projector automatically corrects image distortion (trapezoid effect) when projected at an angle.
- **Auto Screen Alignment:** Automatically adjusts the image to fit the screen boundaries.
- **Obstacle Avoidance:** The projector can detect and adjust the image to avoid obstacles in the projection path.
- **Manual Keystone Correction:** If auto-correction is not perfect, you can fine-tune the image corners manually using the remote control settings.

Network & Bluetooth Connection

Connect your projector to a wireless network and pair Bluetooth devices for enhanced functionality.

- **Wi-Fi 6:** Navigate to Settings > Network & Internet > Wi-Fi to connect to your 5G/2.4G dual-band Wi-Fi network.

- **Bluetooth:** Go to Settings > Bluetooth to scan for and pair with external Bluetooth speakers or other devices.

OPERATING

The Yaber L2 Plus Projector offers a versatile operating system with built-in apps and external device support.

Built-in Streaming Apps

Image Description: The Yaber L2 Plus Projector displays its smart TV interface with pre-installed apps like Netflix, YouTube, and Prime Video, ready for streaming.

The projector comes with a smart TV OS and officially licensed Netflix, YouTube, Prime Video, Hulu, and Disney+ apps pre-installed. No external streaming sticks are required.

- Use the remote control to navigate the home screen and select your desired app.
- Ensure you are connected to Wi-Fi for streaming content.

External Device Connection

Connect laptops, gaming consoles, or other media players via the HDMI port.

- Connect your device to the HDMI port using an HDMI cable.
- Select the HDMI input source from the projector's menu.

Screen Mirroring

Mirror content from your smartphone, tablet, or laptop wirelessly.

- Ensure your mobile device and projector are connected to the same Wi-Fi network.
- Access the Screen Share function on the projector's home screen.
- On your mobile device, enable screen mirroring (e.g., AirPlay for iOS, Cast for Android) and select the projector.

Audio Modes

Utilize the built-in JBL speakers or connect external audio devices.

Image Description: The Yaber L2 Plus Projector is shown in a living room setting, playing music from a smartphone connected via Bluetooth, highlighting its dual function as a standalone Bluetooth speaker.

- **Built-in JBL Speakers:** Enjoy rich, cinematic sound with Dolby Audio support.
- **Bluetooth Speaker Mode:** The projector can function as a standalone Bluetooth speaker. Connect your phone via Bluetooth to play music.
- **External Audio:** Connect headphones or external sound systems via the 3.5mm audio output jack.

Projection Distance and Screen Size

Image Description: A visual guide illustrating recommended projection distances for various screen sizes (40" to 150") for the Yaber L2 Plus Projector.

The projector supports screen sizes from 40" to 150". Adjust the distance from the projection surface to achieve your desired screen size. The auto-focus and keystone correction features will help optimize the image.

MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your projector.

Cleaning the Dust Filter

Image Description: An exploded view of the Yaber L2 Plus Projector highlighting its built-in dust filter and the airflow path, indicating how it blocks dust.

Your browser does not support the video tag.

Video Description: This video provides a step-by-step guide on how to clean and maintain the Yaber L2 Plus Projector, focusing on the dust filter and lens cleaning to ensure clear projection and extend product life.

- The projector has a built-in dust filter to prevent dust accumulation.
- Clean the dust filter once every 3-6 months, or more frequently depending on usage and environment.
- Refer to the detailed instructions in the included User Manual for specific cleaning procedures.

Lens Cleaning

- Use the provided cleaning cloth or a soft, lint-free cloth to gently wipe the projection lens.
- Avoid using abrasive cleaners or excessive force, as this may damage the lens.

Product Dimensions	8 x 7.24 x 8.93 inches
Item Weight	5.4 pounds
Manufacturer	Yaber PROJECTOR

TROUBLESHOOTING

If you encounter any issues with your Yaber L2 Plus Projector, please refer to the following common solutions:

- **No Image:** Ensure the power cord is securely connected and the projector is turned on. Check the input source selection if using an external device.
- **Blurry Image:** Allow the auto-focus feature to complete. If still blurry, try manual focus adjustment in the settings.
- **Distorted Image:** Allow auto keystone correction to complete. If needed, use manual keystone correction in the settings to adjust the image corners.
- **No Sound:** Check the volume level on the projector and your source device. Ensure external speakers are properly connected or Bluetooth is paired correctly.
- **Wi-Fi Connectivity Issues:** Verify your Wi-Fi password and ensure the projector is within range of your router. Try restarting both the projector and your router.
- **Remote Control Not Responding:** Ensure the remote has fresh batteries. Point the remote directly at the projector's IR sensor.

WARRANTY AND SUPPORT

Yaber PROJECTOR offers comprehensive customer support for your L2 Plus Projector.

- **Customer Support:** For any inquiries or assistance, please contact service@yaber.com.
- **Lifetime Technical Support:** Yaber provides lifetime technical support for your product.
- **30-Day Hassle-Free Returns:** Enjoy peace of mind with a 30-day return policy.
