PETLIBRO PLAF103

PETLIBRO PLAF103 Automatic Pet Feeder User Manual

Model: PLAF103

1. INTRODUCTION

Thank you for choosing the PETLIBRO PLAF103 Automatic Pet Feeder. This device is designed to provide scheduled and portion-controlled meals for your cats, dogs, and small animals, ensuring they maintain a consistent feeding routine. Featuring dual-band Wi-Fi connectivity (2.4GHz & 5GHz), app control, and freshness preservation, this feeder simplifies pet care. Please read this manual thoroughly before use to ensure proper operation and maintenance.

2. SAFETY INFORMATION

- Use only dry kibble with a diameter between 2-15mm. Do not use wet pet food or kibble larger than 15mm.
- Replace the desiccant bag every two weeks to maintain food freshness.
- Do not wash the feeder base. The electronic components are located in the base and can be damaged by water.
- Wipe all detachable parts dry completely before reassembly and use.
- This product is intended for indoor use only.
- Keep the feeder out of reach of children and pets to prevent accidental operation or damage.
- Ensure the power adapter is securely connected and use the recommended power source.

3. PACKAGE CONTENTS

Verify that all items are present in the package:

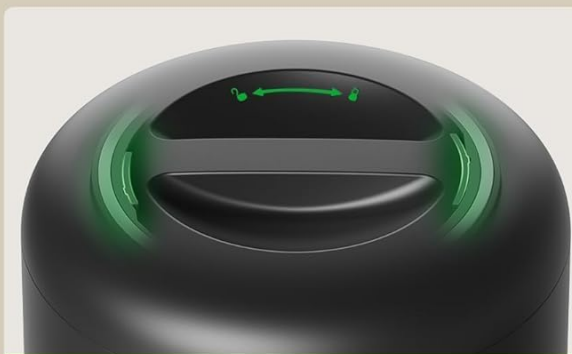

- Wi-Fi Automatic Pet Feeder x 1
- Charger x 1
- Desiccant Bag x 1
- Quick Guide x 1
- User Manual x 1

4. PRODUCT FEATURES

- **Dual-Band Wi-Fi Connectivity:** Supports both 2.4GHz and 5GHz Wi-Fi networks for stable connection and remote control via the PETLIBRO app.
- **Scheduled Feeding:** Program up to 10 meals per day with 1-48 portions per meal (1/12 cup each).
- **Freshness Preservation:** Features a secure twist-lock lid, patented rotor, silicone sealing strip, and a desiccant bag to keep food dry and fresh.
- **Personalized Meal Calls:** Record up to 10 custom voice messages (≤10s) to play at meal times.
- **Smart Alerts:** Receive real-time app notifications for low food levels, low battery, or food jams.
- **Anti-Stuck Design:** An infrared sensor prevents food from jamming the dispenser outlet, ensuring reliable feeding.
- **Dual Power Source:** Operates with an adapter and can use battery backup (not included) for uninterrupted feeding during power outages.
- **Easy Cleaning:** Removable food tank and stainless steel bowl are washable for hygiene.

Sealed for freshness

The secure seal protects the nutrition and flavor in every bite

Secure twist-lock lid

Desiccant bag

Silicone sealing strip

Patented rotor design

Personalized Meal Calls For Pet

Record a voice message for up to 10 seconds and easily adjust the volume in the app

Hey, baby,
it's time to eat!

Image: Detailed view of the feeder's freshness features, including the secure twist-lock lid, desiccant bag compartment, silicone sealing strip, and patented rotor design.

Equally Divided Vane Design & Wide Food Outlet

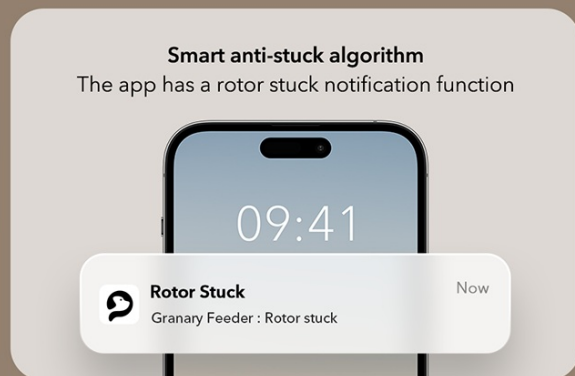

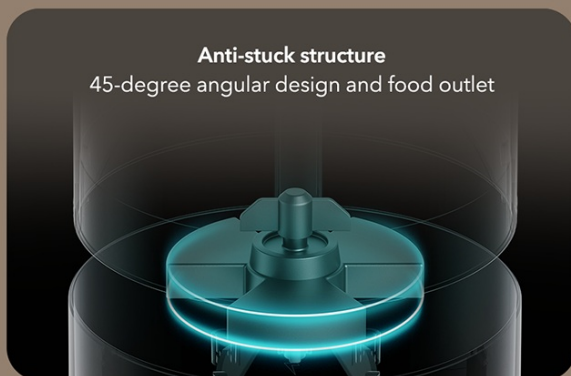

Image: Illustration of the anti-stuck structure with a 45-degree angular design and a wide food outlet, alongside an app notification

indicating a 'Rotor Stuck' alert.

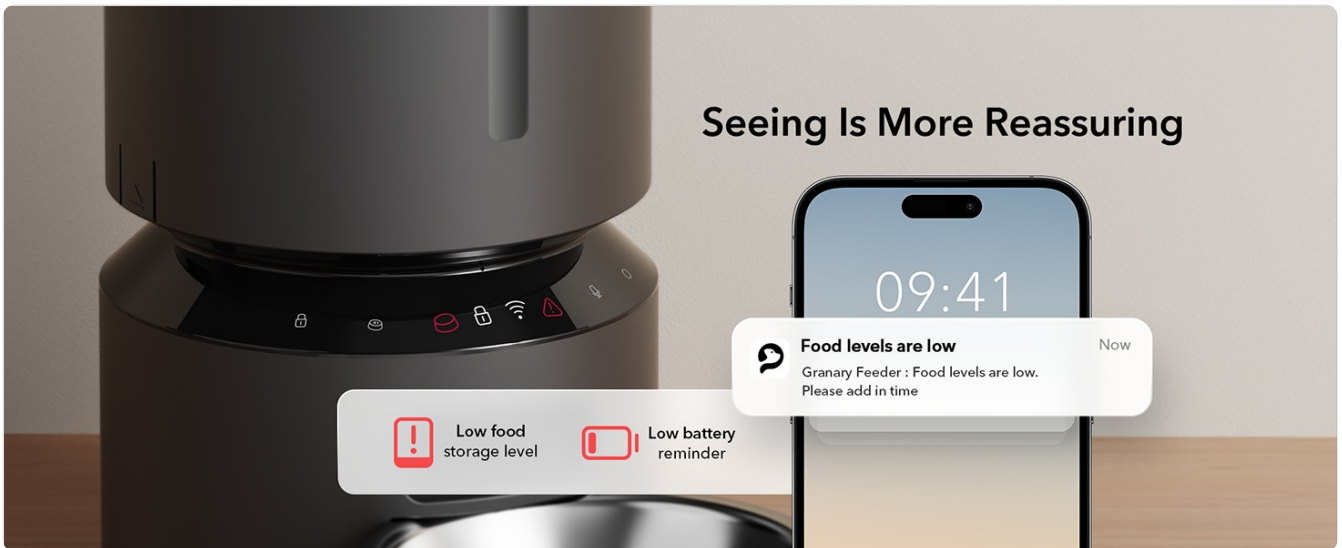

Image: The feeder's control panel showing indicator lights for low food storage level and low battery, accompanied by an app notification for 'Food levels are low'.

Image: The feeder connected to a power adapter with batteries installed, illustrating how food dispensing continues during a power outage. Note: Batteries are not included.

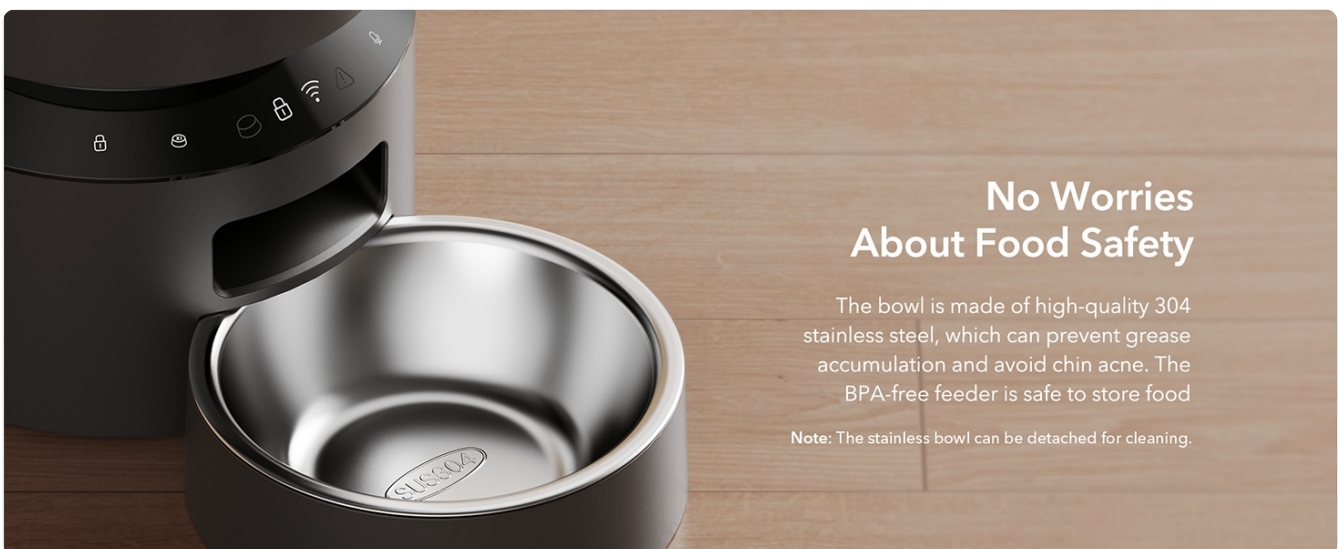

Image: Close-up of the high-quality 304 stainless steel bowl, designed for hygiene and to prevent chin acne. The bowl is detachable for cleaning.

5. SETUP

5.1 Assembly

1. Unpack all components and ensure they are clean and dry.
2. Insert the stainless steel bowl into the feeder base.
3. Place the food tank onto the base and twist the lid to secure it.
4. Open the lid and insert a fresh desiccant bag into its designated compartment. Close the lid securely.
5. Fill the food tank with dry kibble (2-15mm diameter).

5.2 Power Connection

- Connect the power adapter to the feeder and plug it into a wall outlet.
- For battery backup, install 3 D-cell batteries (not included) into the battery compartment at the bottom of the feeder.

5.3 App Installation & Wi-Fi Connection

1. Download the PETLIBRO app from the App Store (iOS) or Google Play Store (Android).
2. Create an account or log in.
3. Follow the in-app instructions to add your PLAF103 feeder. Ensure your phone is connected to a 2.4GHz or 5GHz Wi-Fi network during setup.

6. OPERATING INSTRUCTIONS

6.1 Scheduling Meals

Remote customized feeding

Help maintain gut health with timed meals and precise portions

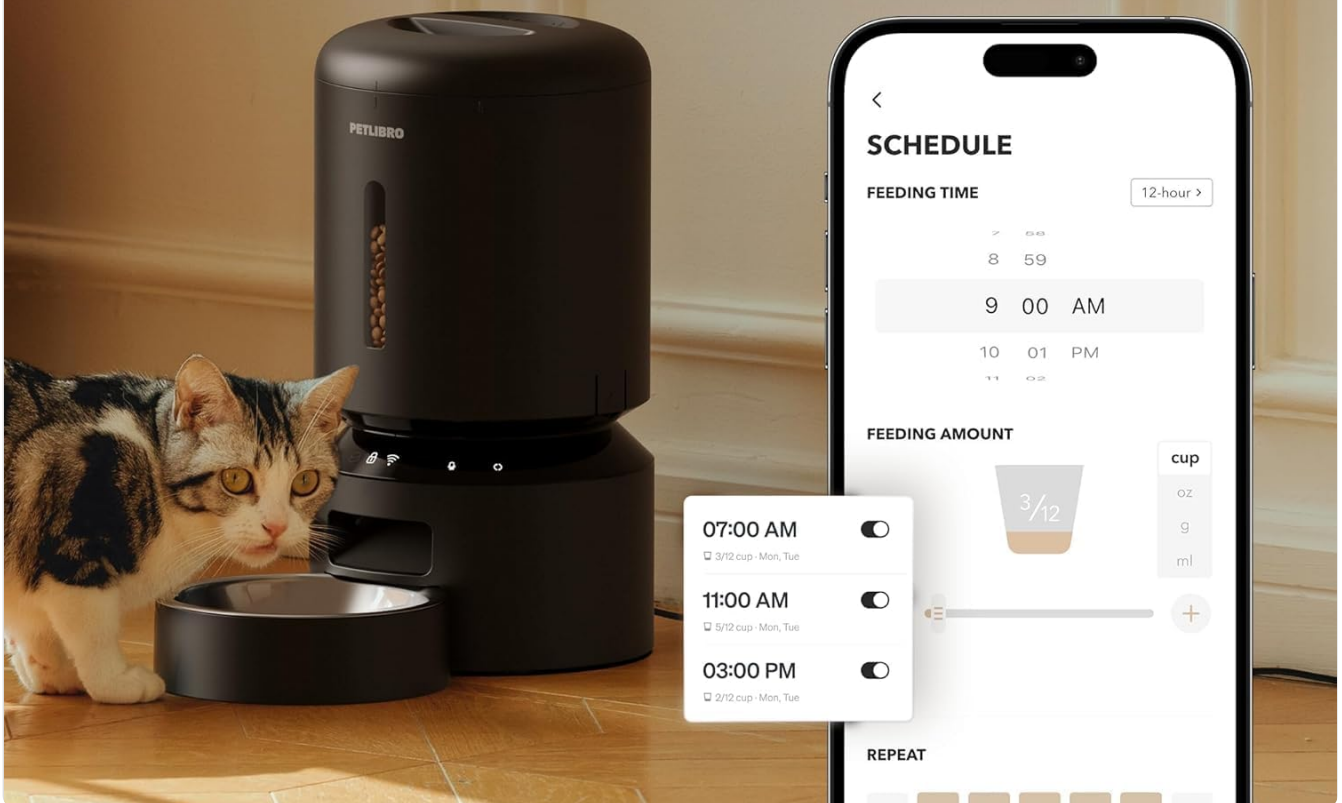

Image: A cat eating from the feeder, with a smartphone screen displaying the PETLIBRO app's meal scheduling interface, showing feeding times and amounts.

- Open the PETLIBRO app and select your feeder.
- Navigate to the 'Schedule' section.
- Tap to add a new meal time. Set the desired time and the number of portions (1-48).
- Save the schedule. The feeder will automatically dispense food at the programmed times.

6.2 Manual Dispensing

Supports 5 GHz 2.4 GHz Wi-Fi

Stable connection for different network environments

Image: A dog eating from the feeder, with a smartphone screen displaying the PETLIBRO app's manual feeding interface, allowing for immediate food dispensing with a tap.

- From the app's main screen, tap the 'Feed Now' button.
- Select the number of portions you wish to dispense immediately.
- Confirm the action.

6.3 Recording Voice Messages

Equally Divided Vane Design & Wide Food Outlet

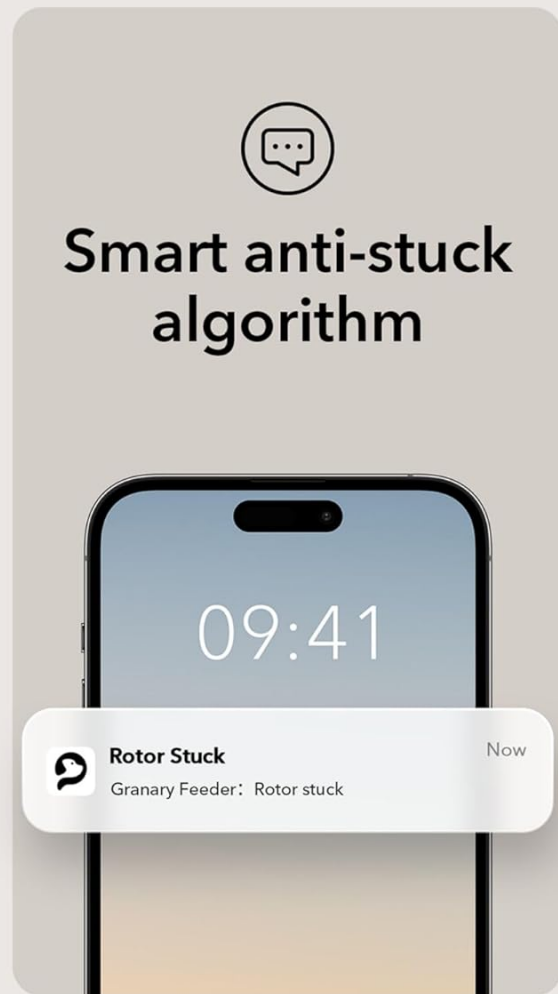

Image: A puppy approaching the feeder, with a speech bubble showing a personalized voice message, 'Hey, baby, it's time to eat!', indicating the voice recording feature.

- In the PETLIBRO app, go to the 'Voice' or 'Meal Call' section.
- Tap to record a new message (up to 10 seconds).
- You can set the message to play at specific meal times and adjust the volume.

6.4 Viewing Feeding Logs

- The app provides a history of dispensed meals, including time and portion size.
- This allows you to monitor your pet's daily intake and feeding routine.

7. MAINTENANCE

7.1 Cleaning

Detachable design for thorough cleaning

Note: Use the feeder after it's dry. The feeder base is not washable.

Image: The PETLIBRO PLAF103 feeder disassembled into its detachable components (food tank, lid, bowl, rotor) for thorough cleaning. Note: The feeder base is not washable.

- Disconnect the power adapter before cleaning.
- Remove the food tank, lid, and stainless steel bowl.
- Wash these detachable parts with mild soap and water.
- Rinse thoroughly and ensure all parts are completely dry before reassembling.
- Wipe the feeder base with a clean, damp cloth. Do not immerse the base in water.

7.2 Desiccant Bag Replacement

- The desiccant bag helps absorb moisture to keep food fresh.
- It is recommended to replace the desiccant bag every two weeks.
- New desiccant bags can be purchased from PETLIBRO's official channels.

8. TROUBLESHOOTING

- **Feeder Not Dispensing:** Check for food jams at the outlet. The infrared sensor will stop dispensing if blocked. Clear any obstructions. Ensure the food tank is not empty.
- **No Power:** Verify the power adapter is securely plugged in. If using battery backup, check battery levels and replace if necessary.
- **App Connectivity Issues:** Ensure your Wi-Fi network is stable and within range. Confirm your phone is connected to the correct 2.4GHz or 5GHz network during setup. Restart the app and the feeder if issues persist.
- **Food Not Fresh:** Ensure the lid is securely twisted and the silicone sealing strip is properly seated. Replace the desiccant bag every two weeks.
