UNIFULL FM-1022005US

UNIFULL Foot Spa Bath FM-1022005US Instruction Manual

Model: FM-1022005US

1. INTRODUCTION

This manual provides essential instructions for the safe and effective use of your UNIFULL Foot Spa Bath. Please read this manual thoroughly before operating the device and retain it for future reference. The UNIFULL Foot Spa Bath is designed to provide a relaxing foot massage experience with features such as heat, temperature control, massage rollers, bubbles, and red light therapy.

Image 1.1: The UNIFULL Foot Spa Bath, remote control, and included pedicure kit.

2. SAFETY INFORMATION

To ensure safe operation, always adhere to the following precautions:

- Do not immerse the main unit in water.
- Ensure the power cord is not damaged and is properly connected to a grounded outlet.
- Keep out of reach of children.
- Do not use if you have open wounds, skin infections, or any medical conditions that may be aggravated by heat or massage. Consult a physician if unsure.
- Always unplug the device before cleaning or filling/draining water.
- The device features hydroelectric separation for safety; however, always handle with care.

3. PRODUCT COMPONENTS

Familiarize yourself with the various parts of your foot spa bath:

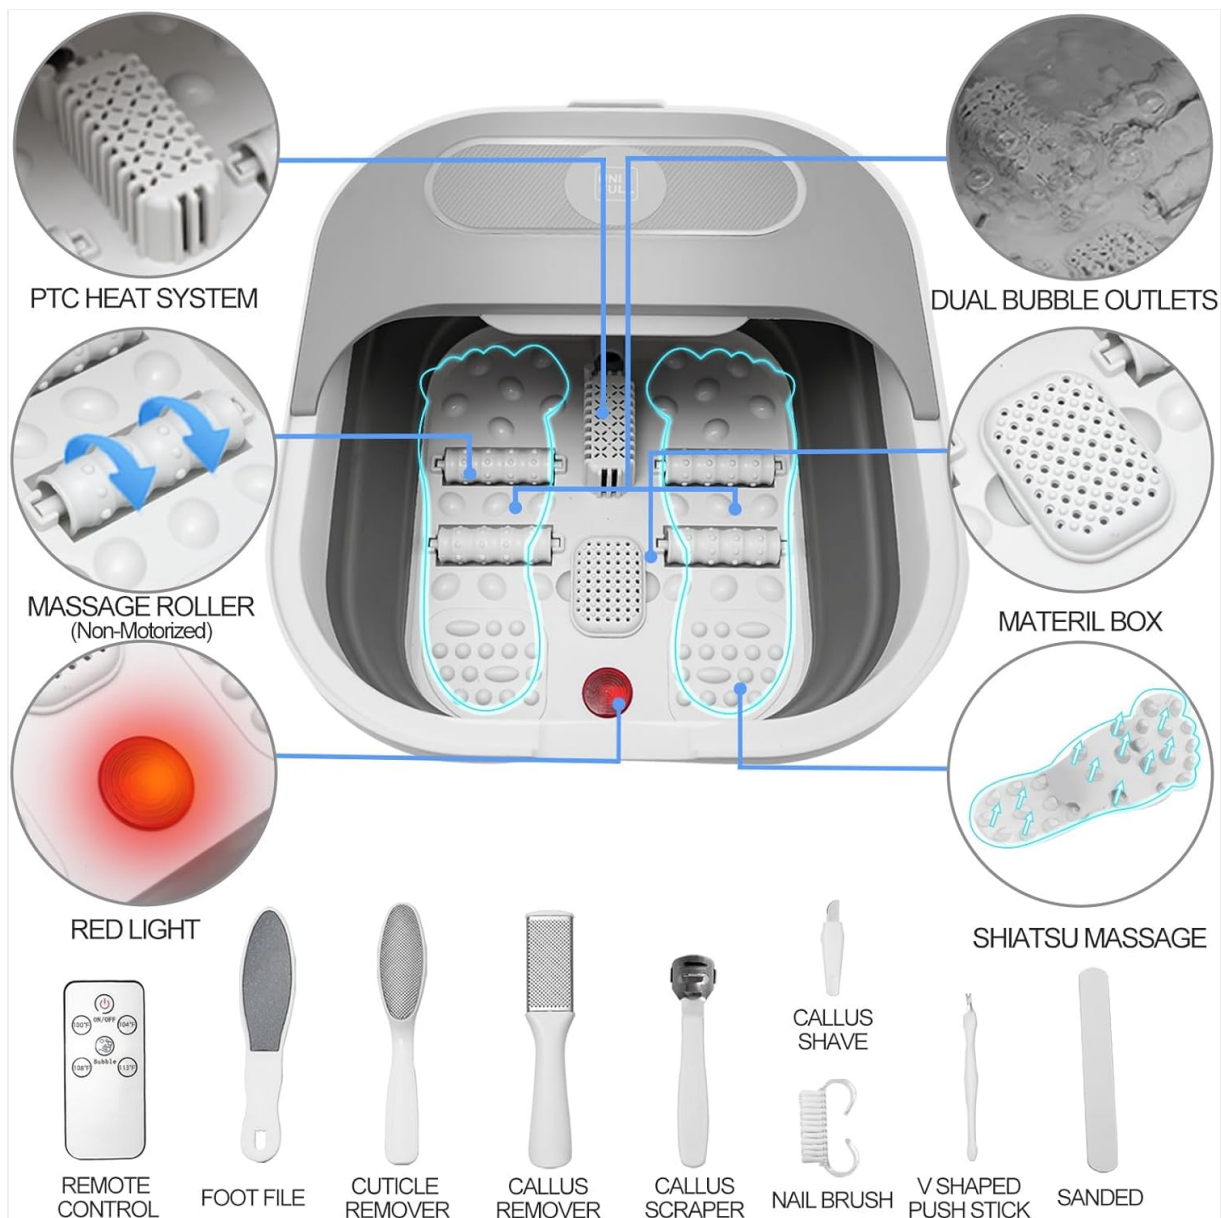

Image 3.1: Labeled diagram of the foot spa bath's key features. This includes the PTC heat system, non-motorized massage rollers, dual bubble outlets, red light, and a material box for spa additives. The image also shows the remote control and various pedicure tools.

- **PTC Heat System:** For rapid and consistent water heating.
- **Massage Rollers:** Non-motorized rollers for foot massage.
- **Dual Bubble Outlets:** Generate bubbles for a soothing massage.
- **Red Light:** Integrated red light function.
- **Material Box:** Compartment for adding spa materials like herbs.
- **Remote Control:** For convenient operation of functions.
- **Pedicure Kit:** A set of tools for foot care.

4. SETUP

1. **Unpack the Device:** Carefully remove the foot spa bath and all accessories from the packaging.
2. **Expand the Foot Spa:** The UNIFULL Foot Spa Bath features a collapsible design for space-saving storage. To expand, gently pull the top edges upwards until the unit locks into its full size. Ensure all sides are fully extended and stable before use.

Easily Collapsible Design Space-Saving Storage

Image 4.1: Step-by-step visual guide demonstrating the expansion of the collapsible foot spa bath from its compact state to its full operational size.

3. **Place on a Flat Surface:** Position the foot spa bath on a stable, level, and waterproof surface to prevent spills.
4. **Fill with Water:** Fill the foot spa bath with warm or cold water, ensuring the water level is between the minimum and maximum fill lines indicated inside the basin. Do not overfill.
5. **Connect Power:** Plug the power cord into a standard electrical outlet.

5. OPERATING INSTRUCTIONS

The foot spa bath can be operated using the integrated touch screen controls or the remote control.

1. **Power On/Off:** Press the power button on the control panel or remote to turn the device on or off.
2. **Temperature Control:** The built-in PTC heating system will quickly heat the water to your desired temperature. Use the temperature control buttons on the panel or remote to set the water temperature between 100°F (37.8°C) and 117°F (47.2°C). The system will maintain the set temperature.

Shiatsu Massage with Massage Rollers and Massage Bumps

Image 5.1: Illustration of the foot spa's fast heating and constant temperature capabilities, ranging from 100°F to 117°F. It also highlights the hydroelectric separation system for safety and leakage protection.

3. **Bubble Massage:** Press the bubble button to activate the dual oxygen bubble outlets. This feature provides a gentle, soothing massage and helps circulate the water.
4. **Red Light Function:** Press the red light button to activate the integrated red light.
5. **Massage Rollers:** The foot spa is equipped with non-motorized massage rollers and massage bumps. Gently move your feet back and forth over these rollers and bumps to stimulate pressure points and relieve tension.

**Fast Heated
Constant Temperatures
100°F to 117°F**

Temperature Control

Leakage Protection

Image 5.2: Depiction of the Shiatsu massage function, utilizing non-motorized massage rollers and bumps to provide kneading, pushing, knocking, and pressing sensations to the feet.

- Using the Material Box:** Open the material box cover and place desired spa materials (e.g., bath salts, herbs) inside. Close the cover. The water circulation will help dissolve and distribute the materials.

6. PEDICURE KIT USAGE

The included pedicure kit provides tools for comprehensive foot care. Store the kit in its plastic box when not in use.

The Pedicure Kit Storage in A Plastic Box

Image 6.1: Detailed view of the pedicure kit components, which include a foot file, cuticle remover, callus remover, callus scraper, nail brush, V-shaped push stick, and callus shave.

- **Foot File:** For smoothing rough skin on heels and soles.
- **Cuticle Remover:** To gently push back or trim excess cuticles.
- **Callus Remover/Scraper:** For carefully removing hardened skin.
- **Nail File:** For shaping and smoothing toenails.
- **V-shaped Push Stick:** For detailed cuticle work.
- **Nail Brush:** For cleaning nails and feet.

Always use pedicure tools on softened skin, ideally after a foot spa session. Clean and sanitize tools after each use.

7. MAINTENANCE

1. **Draining Water:** After use, unplug the device. The foot spa bath includes a water drain. Position the unit over a sink or drain and open the drain plug to empty the water.
2. **Cleaning:** Wipe the interior and exterior of the foot spa bath with a soft, damp cloth. Do not use abrasive cleaners or harsh chemicals. Ensure the unit is completely dry before storage.
3. **Storage:** To collapse the foot spa for storage, gently push down on the top edges until the unit folds flat. Store in a dry place away from direct sunlight.

Image 7.1: Visual guide illustrating the collapsible design for easy, space-saving storage, showing the unit folded and placed in a cabinet or shelf.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
Device does not power on.	Not plugged in; power outlet malfunction; device fault.	Ensure power cord is securely plugged in. Test outlet with another device. If problem persists, contact customer support.
Water is not heating.	Heating function not activated; temperature set too low.	Verify heating function is turned on. Increase desired temperature setting.
Bubbles are not generating.	Bubble function not activated; outlets blocked.	Ensure bubble function is turned on. Check bubble outlets for any obstructions.
Remote control not working.	Batteries depleted; remote out of range; line of sight blocked.	Replace remote control batteries. Ensure remote is pointed at the device and within range.

9. SPECIFICATIONS

- **Model Number:** FM-1022005US
- **Product Dimensions:** 14"L x 13"W x 4"H (Expanded)
- **Material:** Plastic (PP and TPE rubber)
- **Temperature Range:** 100°F - 117°F (37.8°C - 47.2°C)
- **Special Feature:** Portable, Collapsible Design
- **Manufacturer:** UNIFULL

10. WARRANTY AND SUPPORT
