## ULANZI MT92

# ULANZI MT92 Action Camera Selfie Stick Tripod User Manual

Model: MT92 | Brand: ULANZI

## INTRODUCTION

The ULANZI MT92 is a versatile 2-in-1 accessory designed for action cameras, functioning as both a selfie stick and a tripod. It offers adjustable length, stable support, and broad compatibility with various action camera models, making it suitable for vlogging, travel, and diverse shooting scenarios.

## WHAT'S IN THE BOX

- ULANZI MT92 Action Camera Selfie Stick Tripod (24 inches) x 1
- Hanging Rope (Lanyard) x 1

Image: Contents of the ULANZI MT92 package, showing the selfie stick tripod and the included lanyard.

## KEY FEATURES

- **2-in-1 Design:** Functions as both a selfie stick and a stable tripod.
- **Adjustable Length:** Five-section extension, reaching up to 60cm (23.62 inches) for various shooting distances.
- **Universal Mount:** Compatible with most action cameras, including GoPro Hero series, AKASO, DJI Osmo Action, and Insta360.
- **Enhanced Stability:** Features an anti-slip handle, integrated anti-slip feet, and a robust alloy pole

with a central locking knob.

- **High Load Capacity:** Supports devices up to 1.3kg (2.87lb) for shake-free shooting.
- **Portable with Lanyard:** Includes a lanyard for convenient carrying and quick access.

## SETUP INSTRUCTIONS

### 1. Attaching Your Action Camera:

Align your action camera's mounting bracket with the universal mount on the ULANZI MT92. Insert the long screw through the bracket and the mount, then tighten the screw securely by hand. Ensure the camera is firmly attached before use.

### 2. Adjusting the Angle:

The universal mount allows for flexible angle adjustment. Loosen the screw slightly, adjust your camera to the desired angle, and then re-tighten the screw to secure the position.

### 3. Attaching the Lanyard:

Thread the included lanyard through the designated loop at the base of the handle. This provides a secure way to carry the MT92, preventing accidental drops and allowing for hands-free transport.

Image: The ULANZI MT92 with the lanyard attached, showing how it can be worn around the neck or clipped to a backpack.

## OPERATING INSTRUCTIONS

### 1. Using as a Selfie Stick:

Hold the handle firmly. To extend the stick, twist the central locking knob counter-clockwise to unlock, pull the pole to the desired length, then twist clockwise to lock it securely. The five-section design allows for lengths from 19cm to 60cm.

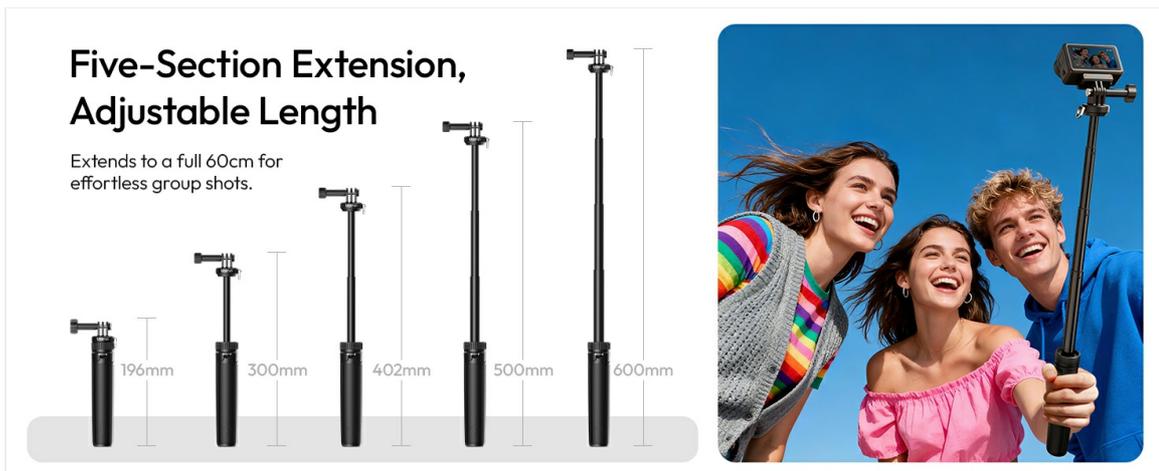

Image: The ULANZI MT92 extended and held as a selfie stick, capturing a wide shot of people.

### 2. Using as a Tripod:

To deploy the tripod legs, gently pull the three sections at the base of the handle outwards until they click into place, forming a stable base. Ensure the legs are fully extended and the tripod is placed on a flat, stable surface. You can adjust the height by extending the pole as described for the selfie stick function.

# Seamless Multi-Angle Control

Works with standard camera adapter for flexible angle adjustment.

## MAINTENANCE

---

- **Cleaning:** Wipe the product with a soft, dry cloth. For stubborn dirt, a slightly damp cloth can be used, followed by immediate drying. Avoid harsh chemicals or abrasive cleaners.
- **Storage:** Store the MT92 in a cool, dry place away from direct sunlight and extreme temperatures. Ensure it is fully collapsed before storage.
- **Inspection:** Periodically check all moving parts and screws for tightness. If any component appears damaged, discontinue use and contact customer support.

## TROUBLESHOOTING

---

- **Instability when Extended:** Ensure the central locking knob is fully tightened after extending the pole. When used as a tripod, verify that the legs are fully deployed and placed on a flat, stable

surface.

- **Camera Not Secure:** Double-check that the mounting screw is tightened securely. The universal mount is designed for action cameras; ensure your camera's bracket is compatible and properly aligned.
- **Difficulty Extending/Collapsing:** Ensure the central locking knob is fully loosened before attempting to adjust the pole length. If resistance is felt, check for any obstructions.
