

Cavevine Foldable Automatic Mahjong Table

Cavevine Foldable Automatic Mahjong Table User Manual

Model: Foldable Automatic Mahjong Table

1. SAFETY INFORMATION

Please read all safety instructions carefully before assembly and operation. Failure to follow these instructions may result in injury or damage to the product.

- Always assemble the table according to the provided instructions.
- Keep the table on a stable, level surface.
- Do not leave the table unattended while in use.
- Keep children and pets away from the table during assembly and operation due to small parts and moving components.
- Do not place excessively heavy objects on the table.
- Exercise caution around electrical components and ensure they remain dry.
- Always unplug the table from the power source when not in use or during maintenance.

2. SETUP GUIDE

This section provides step-by-step instructions for assembling your Cavevine Foldable Automatic Mahjong Table. For a visual guide, please refer to the installation video below.

2.1. Unboxing and Component Identification

Your mahjong table arrives in three packages: one for the machine core, one for the machine frame, and one for the mahjong tiles and folding legs.

Model	Folding fully automatic mahjong machine	Plastic parts	ABS plastic parts
Frame	ABS environmentally friendly high-strength frame	Panel	7MM thickened aluminum-plastic plate
Iron parts	2.0 thick iron parts	Magnet	Strong magnetic (white magnetic)

2.2. Installing Folding Legs

Carefully open the box containing the folding legs and accessories. You will find the leg components, universal wheels, a screwdriver, and an L-shaped hex key.

1. Place the column upside down on the floor.
2. Use the provided hex wrench to secure the bottom bolts of the column.
3. Lock the brakes on the universal wheels and then screw each wheel clockwise into the designated slots on the column.

2.3. Installing the Main Movement

This step involves attaching the main mahjong machine unit to the leg assembly.

1. Stand the mainframe box on its side.
2. Remove the 8 metal connectors using a screwdriver.
3. Open the main box from the bottom and carefully take out the main machine. Ensure the movement switch is facing upwards.

4. Remove four screws from both sides of the motor case. Note: Some electrical boxes may have screws that need to be removed first using a socket wrench.
5. Install the angle iron with four bolts.
6. After correctly installing the HASP and the metal fastener, the HASP will lock.
7. Turn the mahjong machine over and attach it to the leg assembly.
8. Remove all pearl cotton protective blocks and cut off any ties.
9. Turn on the power switch to check if the machine is working properly. If not, please take video and photos and contact customer service.

2.4. Installing the Border

The border pieces complete the table's playing surface.

1. Open the package containing the border and accessories.
2. Use a total of 8 screws to install 4 frame adapters onto the column of the main body.
3. Connect the USB port.
4. Install the 4 frames to the host using the previous bolts.
5. Hold up each frame with both hands, aligning the screw hole on the frame with the installation hole on the main body.
6. Press with one hand to fit it closely and install the equipped screws to the screw hole on the frame. Tighten with a screwdriver.
7. Fix tapping screws on top of the border.
8. Connect the plastic fasteners head to tail to form a mouth shape. Install these components by tapping.
9. Finally, connect the power cord.

2.5. Installation Video

3. OPERATING INSTRUCTIONS

The Cavevine Automatic Mahjong Table is designed for ease of use, featuring an intelligent shuffling system and convenient functions.

3.1. Automatic Shuffling System

The table features an advanced auto-shuffling mechanism for efficient tile mixing.

Image: Close-up of the automatic shuffling mechanism in the center of the table.

1. Ensure the table is powered on.
2. Place the mahjong tiles into the designated slots on the table.
3. The integrated high-performance motor will automatically shuffle and arrange the tiles.
4. When the control panel shows that the shuffle is complete, press the lift key to raise the control panel.
5. Push the mahjong cards into the internal shuffle area.
6. Once all cards are pushed inside, long press the opposite dice key on the control panel to initiate the next shuffle.

3.2. Folding Function

The innovative foldable frame with universal wheels allows for easy mobility and storage.

Image: A person demonstrating the folding mechanism of the mahjong table.

1. Before folding, ensure all mahjong tiles are removed from the table to prevent damage.
2. Remove the lock buckle on both sides of the mahjong table.
3. Loosen all brakes on the universal wheels at the bottom of the table.
4. Carefully fold the mahjong table from its normal playing state into an upright, compact position.
5. Roll the table to your desired storage location using the universal wheels.

3.3. Tibetan Card Function

This function must be used when the table is in its non-folding, fully assembled state. Using it while folded may cause the table to tip over.

3.4. Other Features

- **USB Charging Ports:** Conveniently located USB ports are available for charging devices during gameplay.
- **Storage Drawers:** Four integrated storage drawers provide space for accessories or personal items.

4. MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your mahjong table.

4.1. Cleaning

- The tabletop is waterproof, allowing for easy cleaning with a damp cloth. Avoid abrasive cleaners.
- Regularly wipe down the table surface and frame to remove dust and debris.
- For the mahjong tiles, use a soft, dry cloth to clean them. Avoid harsh chemicals that could damage the tile finish.

4.2. Tile Care

The included 42mm tiles are made from high-strength composite materials, resistant to wear, drops, and cracking. To maintain their quality:

- Store tiles in their designated boxes or a suitable container when not in use.
- Avoid dropping tiles from excessive heights.

5. TROUBLESHOOTING

If you encounter any issues with your mahjong table, please refer to the following common solutions. If the problem persists, contact customer support.

5.1. Tiles Jamming During Shuffling

- **Cause:** A tile may be misaligned or stuck.
- **Solution:** Turn off the machine immediately. Carefully inspect the shuffling mechanism for any visible obstructions or misaligned tiles. Gently remove any jammed tiles. Ensure tiles are placed correctly and evenly before restarting the shuffle.

5.2. Machine Not Powering On

- **Cause:** Power cord not properly connected or power switch off.
- **Solution:** Check that the power cord is securely plugged into both the table and a working electrical outlet. Ensure the power switch on the table is in the 'ON' position.

5.3. USB Charging Ports Not Working

- **Cause:** Device compatibility or low power output.
- **Solution:** Ensure your device is compatible with standard USB charging. Note that some devices may charge slowly due to the port's power output. Try a different device or charging cable to isolate the issue.

6. SPECIFICATIONS

Feature	Detail
Brand	Cavevine
Model	Foldable Automatic Mahjong Table

Feature	Detail
Table Dimensions (Unfolded)	37 inches (W) x 37 inches (L) x 31 inches (H)
Item Weight	Approximately 225 pounds
