5. MAINTENANCE

Proper care will extend the life of your bed frame.

- **Cleaning:** For the boucle fabric, gently vacuum with an upholstery attachment to remove dust. For spills, blot immediately with a clean, damp cloth. Avoid harsh chemicals.
- **Structural Check:** Every few months, inspect all bolts and screws to ensure they are still tight. Retighten if necessary.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight may cause the fabric to fade.

6. TROUBLESHOOTING

If you encounter any issues, refer to the following common solutions:

- **Squeaking Noise:** Check all bolts and screws for tightness. Ensure the wood slats are properly seated on the Velcro strips and not rubbing against the frame.
- **Instability/Wobbling:** Verify that all connections are fully tightened. Ensure the bed frame is on a level surface. Re-check assembly steps to confirm correct installation of all support components.

- **Missing Parts:** If any parts are missing upon arrival, contact HOMBCK customer support immediately for assistance.
