HUBBLE CONNECTED HCSNPGLX2

HUBBLE CONNECTED Nursery Pal Glow+ Twin Baby Monitor

INSTRUCTION MANUAL - MODEL HCSNPGLX2

Introduction

The HUBBLE CONNECTED Nursery Pal Glow+ Twin is a comprehensive baby monitoring system designed to provide parents with peace of mind. This system includes two Full HD cameras and a 5-inch parent unit, offering a wide range of features such as a 7-color night light, sleep trainer, two-way talk, and secure remote access via the HubbleClub app. This manual provides essential information for setting up, operating, and maintaining your device.

What's in the Box

Carefully unpack the contents and ensure all items are present:

- 2 x 1080p Smart HD Cameras
- 1 x 5-inch Parent Unit
- 2 x Power Adapters for Cameras
- 1 x Power Adapter for Parent Unit
- 1 x Quick Start Guide

Smart Baby Monitor with Full Room Coverage

Day or Night

Setup

1. Powering On

1. Connect each camera to a power outlet using the provided power adapters. Ensure the green indicator light on the camera illuminates.
2. Connect the parent unit to a power outlet using its dedicated power adapter.
3. Press and hold the power button on the parent unit until the screen turns on. The cameras and parent unit should automatically pair.

2. Camera Placement

Place the cameras in locations that provide a clear view of your child's sleeping or play area. Ensure the cameras are positioned at a safe distance from the child, out of reach, and with power cords secured to prevent entanglement. The cameras can be placed on a flat surface or mounted using a Hubble Grip (sold separately).

Crystal Clear Viewing, No Wi-Fi Needed

Great for Travel

Safe, Private Monitoring

1,000 ft. Long Range

Perfect for Grandparents
and Babysitters

Operating Instructions

1. Parent Unit Overview

The 5-inch parent unit provides a clear display of your child's room and allows control over camera functions.

Image: Parent unit displaying a split-screen view from two cameras.

- **Power Button:** Press and hold to turn the unit on/off.
- **Navigation Buttons:** Use the directional pad to navigate menus and control camera pan/tilt/zoom.
- **Camera Switch:** Double-tap the middle button on the directional pad to switch between Camera 1 and Camera 2, or to activate split-screen view.
- **Two-Way Talk:** Press and hold the microphone button to speak through the camera to your child.
- **Volume Control:** Use the dedicated volume buttons to adjust the audio level.
- **Antenna:** Extend the antenna for improved signal range.
- **Indicators:** The screen displays battery life, signal strength, room temperature, and mute status.

2. Camera Features

- **Pan, Tilt, and Zoom:** Use the parent unit's navigation buttons to remotely adjust the camera's view.
- **Infrared Night Vision:** Automatically activates in low-light conditions to provide a clear view of your child at night.
- **7-Color Night Light:** The camera base features a customizable night light. Adjust colors and brightness through the parent unit or HubbleClub app.

- **Soothing Sounds, Lullabies, and Audiobooks:** Access a library of preloaded sounds to help soothe your child to sleep.
- **Sleep Trainer:** Utilize built-in programs to establish healthy sleep routines for your child.

3. HubbleClub App

For enhanced features and remote monitoring, download the free HubbleClub app on your iOS or Android device.

Image: HubbleClub app interface showing real-time alerts and smart sleep schedules.

- **Remote Access:** View live camera feeds from anywhere using your smartphone.
- **Video Recordings & Snapshots:** Capture and download precious moments. Motion-activated video recordings are also available.
- **Activity Notifications:** Receive real-time alerts for motion, sound, and temperature changes.
- **BabyZone Setup:** Define specific areas within the camera's view for motion detection.
- **Secure Monitoring:** The HubbleClub app utilizes 256-bit WiFi encryption and US-based servers for enhanced data protection.

Maintenance

To ensure optimal performance and longevity of your baby monitor, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the cameras and parent unit. Do not use abrasive cleaners or solvents.
- **Lens Care:** Gently wipe camera lenses with a microfiber cloth to remove dust or smudges.
- **Battery Care:** For the parent unit, avoid fully discharging the battery frequently. Charge it regularly to maintain battery health.
- **Storage:** If storing the device for an extended period, ensure it is fully charged and stored in a cool, dry place.

Troubleshooting

Refer to the table below for common issues and their solutions:

Issue	Possible Cause	Solution
No image on parent unit	Camera or parent unit not powered on; out of range; not paired.	Ensure both devices are powered and charged. Move closer to the camera. Re-pair devices if necessary (refer to Quick Start Guide).
No sound or poor audio quality	Volume too low; microphone muted; interference.	Increase volume on parent unit. Check if microphone is muted. Move devices away from other electronic equipment.
App connectivity issues	Poor Wi-Fi signal; incorrect app settings; outdated app version.	Ensure strong Wi-Fi signal. Check app settings and camera connection status. Update the HubbleClub app to the latest version.
Parent unit battery drains quickly	High screen brightness; continuous use; aging battery.	Reduce screen brightness. Keep parent unit plugged in for extended use. Battery life naturally decreases over time.
